COTTON GOES OUT.

Exporters Rush It Off While Home Mills Are Waiting.

Definition of a Pedlar. Freelin: Against Mormons. Kansas Re-elected Clerk. A Postmaster Found Short True Bills Found.

Special to Journal.

RALPHIGH, September 28.—The Supreme Court has before it a case involving the question of who is a pedlar. The court has heretofore held that a pedlar is a person who sells goods he has with him then and there, but in 1895 the legislature drew the distinction between a drummer and a pedlar, saying that any person who sells by order, for future delivery to individuals for their own individual use and not for resale, is a pedlar. The court, it is practically certain, will hold to the same definition.

Col. Thomas S. Kenan has been unanimously re-elected clerk of the Supreme court for eight years.

The feeling against the Mormons is now growing in this State. There are sixty of them at work proselyting in North Carolina. A few counties have driven them out.

The postmaster at Scotland Neck is found to be short in his accounts about \$170.

It is said that the home cotton mill are buying very little, but are waiting for a decline in price; a very improbable thing. It is said the exporters are rushing all the cotton they can get out of the country and that the tracks at Wilmington are blocked with cotton cars over 100 in number; so many in fact that the railway people are holding cars back until the block is removed.

Judge Parnell in the U. S. district court here holds that in chancery the record of a case constitutes the statement on appeal.

The negro State conference here was an entire success in its line of work for the betterment of the race.

In the Superior court here a true bill was last evening returned by the Grand jury against ex-State Senator and ex-member of the State election board J. A. Franks, Republican, of Swain county for perjury. Two years ago a man named G. W. Justice came here, as a lawyer, and stole law books from the court house and other places. He was arrested and Franks became his surety, swearing he was worth \$50 clear of all indebtedness. Justice fled the State and went to Alabama. When investigation was made it was found Franks had no property at all.

Execution at Clinton.

Special to Journal.

CLINTON, Sept. 28.—Archie Kinsauls was hanged here today. The first time the drop fell the rope slipped and after letting him hang nine minutes the physicians requested the sheriff to place him on the gallows again to end life quicker. Kinsauls was only half conscious and could not stand. The body was laid across the trap door. After he was dropped the second time life was pronounced extinct in eight minutes. He was given an opportunity to talk but said that he had nothing to say except to tell his friends to meet him in heaven.

Attempted Faith Cure.

LONDON, Ont., Sept. 28.—Victor B. Hall, who styles himself "Doctor of Vital Science," will be arranged tomorrow on the charge of manslaughter at the fall Assizes, now in progress here. He is alleged to have caused the death of Mrs. Christina Charlton, of East Williams, by withholding from her the drugs which would in all probability have effected a speedy cure of her ailment.

In May last the late Mrs. Christina Charlton suffered an attack of typhoid fever. The was in a fair way to recovery, when some friends became dissatisfied with her condition and summoned Dr. Hall.

He put her under his unique course of treatment, and allowed her to have nothing at all to do with drugs. Now he will have to satisfactorily explain her death to a Canadian jury or go down to the penitentiary for many years.

Weather Conditions.

WASHINGTON, September 28.—For North Carolina, Fair Saturday. Cooler in western portion. Light northerly winds.

Weather Conditions.—The high barometer area over the Dakotas yesterday has diminished in intensity and moved eastward into the lake region followed by rising temperature over the west and northwest. The weather is slightly cooler over the interior, lower lake region, and portions of the Middle Atlantic States.

Scattered rains have fallen but were light. The conditions indicate fair weather during the next 26 hours with light winds mostly northerly.

TROUBLE MAY COME.

Germany's Attitude Towards This Country Unfriendly, Russian Occupation Temporary.

Special to Journal.

WASHINGTON, September 28.—That General Chaffee was ordered to remain in command of the legation guard which will remain in Peking, instead of accompanying the other American troops from China to the Philippines, is thought by many in Washington to indicate a belief on the part of the administration that the withdrawal of our troops from China is only temporary. Another thing which strengthens that belief is the ordering of a number of warships to join our naval force in Asiatic waters. While our minister to China is carrying out his orders by arranging for the opening of peace negotiations with Li Hung Chang and the other Chinese envoys, the administration is arranging for possible war.

While officials will not discuss the criticisms of this government which are daily appearing in German newspapers known to enjoy the confidence of the Emperor and being cabled to our papers it is easy to see that they are causing considerable irritation, which may aid in bringing about strained relations between the two governments. It is claimed at the Department of State that this government has been consistent all the way through in its Chinese policy.

The Russian authorities say that the occupation of Manchuria is a merely military occupation, Russian and Chinese flags are flying from the same roof.

Carlisle Still a Power.

Special to Journal.

WASHINGTON, September 28.—According to Mr. Peter Fischer, of Louisville, who is visiting Washington, one man has it in his power to change the result of the election in Kentucky, and that man is a resident of New York city. Mr. Fischer said: "Many shrewd politicians believe the result of the election in Kentucky depends upon the word of one man. If John G. Carlisle will come out for Bryan, they say Kentucky will be Democratic; if he maintains his present silence, the State will go for McKinley. Although Mr. Carlisle no longer has influence in the councils of the Democracy of Kentucky, he still has a large following among the rank and file of the party which is sufficient to decide the contest."

Morgan Says "Clean Campaign."

Special to Journal.

WASHINGTON, September 28.—Senator Morgan, of Alabama has received many compliments for referring in a commendatory spirit to the absence of personal vituperation in the Presidential campaign. The reference was made at the close of a political speech, and the Senator said he accounted for it by the fact that the candidates of both of the great parties were men whose personal characters and lives were above reproach. He said of the campaign: "It is party against party, principle against principle, and record against record, and upon these issues will the people decide the contest."

PRINCE CHING GUILTY.

He Was Involved Deeply In The Riots. Instructions To Minister Conger.

Special to Journal.

WASHINGTON, Sept. 28.—The American legation at Peking has procured the subscription list of the Boxers and finds that Prince Ching made three subscriptions to the list. The friends of Ching claim that he was coerced into subscribing.

The French patrol was fired on at the east gate of Peking by the Chinese.

The murderer of Baron von Ketteler is being tried to-day.

The Russian orders to leave Peking have been suspended for the 8,900 troops there. The legations of other powers are uncertain about remaining, yet they are inviting the Chinese court to return for peace negotiations.

Li Hung Chang requests the Emperor's return and that of the Empress Dowager. The Russians and French invite the Emperor and Empress Dowager. The Empress Dowager demands guarantees for herself and her hostile ministers before releasing the Emperor.

Instructions are being sent to Minister Conger which will guide him in beginning preliminary negotiations with Prince Ching and Li Hung Chang contemplating the return of the Imperial Government to Peking. The President is considering whether, in view of Tuan's appointment as grand secretary of the Emperor, it is advisable to demand, immediately upon the assumption of negotiations, degradation and punishment of that Prince.

Hanged at Tarboro.

Special to Journal.

TARBORO, Sept. 28.—Chancey David was hanged at 2 o'clock this afternoon. He died game and first made a talk on the gallows declaring his innocence. His neck was not broken by the fall and death resulted from strangulation, and took place 25 minutes after the drop fell. The execution was private and occurred in the jail yard and there was no excitement.

The Strike Situation.

Special to Journal.

PHILADELPHIA, Sept. 28.—More colleges have been shut down in the Shenandoah valley.

The miners and operators have been all day eagerly awaiting news from New York regarding the proposed settlement of the strike. Many operators attended the conference which was held to adjust the differences between the miners and operators.

Blood Reconciles Brothers.

Special to Journal.

PIZZAGONE, Pa., Sept. 26.—One of the Galveston sufferers is Robert Johnson, a brother of Samuel A. Johnston of Fifth street, this city. When the civil war began the two brothers took different sides. One went into the Union and the other the Confederate Army.

When the war ended, Samuel came to Pittsburg and Robert went to Texas. The feeling between them was bitter. The family of each knew of the estrangement of the two men, but could do nothing to bring them together. When the Good Samaritan softened enough to allow one of his daughters to write her uncle "Safe. But everything lost," was the reply. This was the beginning of the reconciliation which has been effected.

To prevent unnecessary sickness send this and buy from the One Minute Cough Cure, P. S. Duffy.
