Corner Broad and Middle Streets.

## NO CHANGE IN STRIKE.

Miners Celebrate the Tie-up. President Sayre's View of Situation.

Special to Journal.  
WILKESBARRE, Pa., October 3.—The miners gave a great torch light parade from village to village to celebrate the complete tie-up of the Schuylkill County collieries.

The collieries of the Philadelphia and Reading Coal and Iron Company offer ten per cent increase in wages.

New York, October 3.—Vice-President Sayre, of the Lehigh Valley Railroad, said today regarding the strikers' refusal to accept the 10 per cent. increase in wages offered them by some companies:

"I cannot tell what our next step will be in case the striking miners definitely and absolutely reject our concessions. It is a contingency which we have not had occasion to discuss much as yet. This much is certain, however. The companies will wait some little time before taking any further steps and will give their former employees time to thoroughly understand the situation.

"In dealing with such men it does not do to be in too much of a hurry. Many of them are foreigners, illiterate, and speak only foreign languages. They can hardly be said to be thoroughly responsible for what they do. The English speaking miners were never enthusiastic for the strike. The union's action now shows that, whatever his intention may have been, betterment of the miners' wages was not Mr. Mitchell's object."

**Blood in Kentucky.**  
Special to Journal.

LEXINGTON, Ky., October 3.—Editor Benjamin of the Lexington, Ky., "Standard" was shot in the back today after a quarrel over the question of registration.

Benjamin was the attorney for Combs charged with being one of the accessories to the Goebel murder.

**FIVE TO ONE.**  
Bryan Draws Crowds Against Roosevelt to That Ratio.

LA CROSSE, Wis., October 2.—This city gave Hon. William J. Bryan a tremendous ovation tonight.

Mayor Anderson said that the crowd was at least five to one in Bryan's favor as compared with that which recently greeted Governor Roosevelt here. Excursion trains were running in the city all day, and the crowd numbered not less than 20,000.

The principal speeches were made in the Empire Club, which, with the streets around it, was packed an hour before Mr. Bryan arrived at 8:20 p. m. The risk audience was nearly all composed of workmen. Meetings of shorter duration were held in the Opera House and Germania Hall, and both of these places were likewise packed.

Mr. Bryan established the oratorical ratio of 10 speeches to 1 day. He gave no evidence of fatigue at the close. Southern Minnesota contributed more loudness than any other State traversed by him this year. With the exception of a few small places reached early in the morning every town and city visited turned out almost en masse and in addition to this thousands of farmers came from a distance. Mr. Bryan was shown close and respectful attention. At most points the floral gifts to him were profuse.

**Biggest Span in World.**  
QUINCE, October 2.—In the presence of Sir Wilfrid Laurier and a large number of invited guests the cornerstone was laid today of the new Quebec bridge over the St. Lawrence. This bridge will have one span, which will be the biggest in the world. It will cost \$5,000,000 and is to be finished in 1904.

**New Line to South.**  
PHILADELPHIA, October 2.—The steamer Allegany, of the Merchants and Miners' Line, which left Baltimore a few days ago for this port, sailed today for Savannah, Ga., the pioneer of the New Philadelphia-Savannah Line.

On Saturday the Berkshire, a sister ship of the Allegany, will also sail for Savannah, and she, too, is expected to take out a full cargo. Other vessels will be added to the fleet as soon as the business warrants it.

The establishment of this direct line to the South is the result of months of agitation by the Trades League and other business organizations, and it gives this port what it never had before.

**Germany in China.**  
Special to Journal.

WASHINGTON, Oct. 3.—Germany is reported rapidly putting a large force into China. It is expected that Germany will engage in a campaign of revenge. Italy is withdrawing her marines from China.

## PLOT TO ASSASSINATE.

Alleged to Have Been Discovered Against the President.

Special to Journal.  
CANTON, Ohio, Oct. 3.—An alleged plot to assassinate President McKinley has been discovered.

The plot was concocted in Chicago. News of it reached Canton today in an alarming dispatch from the Secret Service men.

Three men were reported to be on the way to Canton to assassinate the President. They will be arrested as soon as they arrive. Two of the men are said to be Italians, the third man passing as a soldier.

Hundreds of messages poured into Canton asking if it was true that the President had been murdered. Inquiries came from all parts of the country. The discovery of the plot has caused most extraordinary precautions to be taken to guard the President.

Cotton receipts were 59,000 bales at all ports.  
New Bern Cotton Market.  
Cotton sold in the local market yesterday at 10 1/4.

**Germans Whip Chinese.**  
SHANGHAI, Oct. 2.—The German column, consisting of 1,700 men under General von Hoepner, encountered a small boxer force south of the Imperial Deer Park yesterday and killed 40 of the Chinese during a fight which followed.

The Chinese were put to flight. Four Germans were wounded.

Chi-Hsin, a member of the Taung H Eamen, of notorious anti-foreign tendencies and a patron of the Boxers, has been captured in the Imperial City by the Japanese. His fate has not been determined upon.

**1300 Cars.**  
WILMINGTON, N. C., Oct. 3.—Cotton continues to pour into this port in unprecedented quantities. The receipts each day are far in excess of what they were last year. All the compresses are working steadily, but they are making only slight headway. There are about thirteen hundred cars of cotton on the railroad lines unloaded. The glut of cotton interferes with receipts of naval stores, as many packages of the latter are stored away among the cotton in the unloaded cars.

**Cotton Picking.**  
WASHINGTON, Oct. 2.—The weather Bureau's weekly summary of crop conditions says:

Except where interrupted by rains in portions of Arkansas, Oklahoma and Missouri, cotton picking has progressed under exceptionally favorable conditions, and is unusually well advanced. In the central and eastern portions of the cotton belt and the bulk of the crop will be gathered by October 15th. Picking is also progressing rapidly in Texas, except in the lower Brazos bottoms inundated by the rains of the previous week, where the crop is almost a failure.

**Weather Conditions.**  
WASHINGTON, D. C., October 3.—For North Carolina, Rain Thursday. Continued northeast winds becoming fresh on the coast.

Weather Conditions.—The weather is cloudy with showers along the Atlantic coast from New England to Florida. Savannah reports a rainfall of 2.86 inches, and New Bern 1.19 inches during the past 24 hours.

The West India disturbance has not as yet developed any energy.

The barometer continues high over New England and Lower St. Lawrence Valley with winds mostly from north-east on the coast.

The conditions indicate unsettled weather and occasional showers in this sector with northeast winds.

**After a long training by practical experience and study from celebrated books on the human eye and scientific fitting of lens I feel competent after having purchased an up-to-date trial case to satisfactorily fit you with glasses. I will exchange lens any time within one month free. I have a full line of all optical goods. Yours, etc., J. O. Baxter, The Jeweler.**

Draw goods, Foster's, Shoes, Domestic, Notions, etc., at J. J. Baxter's.

## RALEIGH.

State Guard Matters. Railway Building Small. Freight Rates to Come Up.

Special to Journal.  
RALEIGH, Oct. 3.—Adjutant General Royter says that all the \$25,000 granted from the general government for the militia of this State has been drawn, save a small sum for emergencies. The State guard has increased in strength this year. The legislature will be specially memorialized to increase the appropriation for it, which is now only \$20,000 a year. The entire force is clothed and armed. Blankets and overcoats are not now issued, but are kept in the arsenal, for use in case troops are called into service. There is also tentage and camp equipage in the arsenal, including field ovens, etc. This year's inspections are nearly completed.

The information gathered at the corporation commission is that very little railway building has been done in this State since June 1. Some grading has been done, but extremely little track-laying.

The issue of land grants by the State does not fall of much. This year 227 have increased, and since January 1, 1885, no less than 7,297. Prior to that date, date numbers were not used.

The cotton picking was stopped yesterday by a drizzle of rain, which continued today. It is not the sort of rain to damage cotton.

A session of the corporation commission was to have been held today, but is postponed until next week. At it the question of lower freight rates will be specially taken up. The cotton planters' association will send a delegation.

Feelings of safety pervade the household that uses One Minute Cough Cure, the only harmless remedy that produces immediate results. It is infallible for coughs, colds, croup and all throat and lung troubles. It will prevent consumption. F. S. Duffy.
