### Seeing the Museum. Meeting in Charlotte Next Year. Senatorial Contest. Congressional Situation.

Special to Journal.

Charlotte, October 12.—About 53 members of the Florida Press Association arrived here at midnight last night and devoted this morning to sight seeing, the State museum being the chief attraction. Several of the editors are North Carolinians; in fact people from this State are scattered all over Florida, white and black, and in all the walks of life, and they are prospering.

The Daughters of the Confederacy, their State Convention having ended, went home today, to meet in Charlotte next year. The general convention of Daughters is invited to meet at Wilmington next year, and the State organization will endorse the invitation to meet there.

William M. Wilson of Williamston files a voluntary petition in bankruptcy in court here. His liabilities are \$1,702.43—assets nothing.

The quarterly statement of banks, State, private and savings, was issued by the corporation commission today.

The fight for the Senate has almost reached the sensational stage. It is said that there will be some interesting developments in the next ten days.

Ex-Congressman Harry Skinner, populist, declares he will not vote in the coming election, as he does not know where he is "at".

It is not yet known whether Isaac Steekins who claims to be the Republican Congressional nominee in the 1st district, will stay in the field or not, since the party has nominated Dr. Abner Alexander. The latter has served a term in the legislature. The populists endorse him. As yet Joe Martin, the Republican nominee in the 2nd, has not said that he will accept the nomination. Of course he knows Claude Kitchell, the Democrat will be elected.

Mr. J. P. Sossaman, the State chairman of the Middle-of-the-road Populist, admits that the Populists will vote in considerable numbers for McKinley.

### \$100,000 Wedding in Utah.

SALT LAKE CITY, Oct. 11.—Mrs. Edw. F. Holmes spent 100,000 on the wedding tonight of her sister, Miss Nellie May Brewster, to Jay Tarvin Harris of Champlain, Ill.

Fifteen years ago Mrs. Holmes was a poor dressmaker. Now she is one of the richest women in the West in her own right, besides being married to a millionaire.

### Mexican War Survivor Dead.

REYNOLDS, Ohio, Oct. 10.—George Fenner, who raised the American flag over the City of Mexico when it fell, dropped dead on the street here today. Mr. Fenner was a resident of this community for half a century. He was born in Pennsylvania and served through the Mexican War.

When Mexico was taken he was appointed, with a dozen others, to hoist the flag over the fallen city. He was the only survivor of the detail.

Mr. Fenner was a contractor, and built many of the older buildings of this and neighboring cities.

### Whooping Cough From Rats.

CHICAGO, October 11.—Mayor Harrison, Chicago Alderman, city employee, and prisoners in the basement of the City Hall are said to be in danger of an epidemic of whooping cough through the rat-ridden condition of the building.

On Tuesday night rats invaded the cages in which Guinea pigs, held for experimental purposes, were confined, and killed three of the pigs. The feet and legs of the Guinea pigs were eaten by rats.

The dead Guinea pigs had been inoculated with the germs of whooping cough. Employees of the Health Department say the rats may spread the germs of the disease to the Mayor's office, to the Council Chamber, and to all other corners of the City Hall, in which they have long been a pest.

In the meantime the doctors who have been carrying on the bacteriological experiments mourn the untimely death of the pets which survived so many artificially incurred maladies in the case of science only to die in a one-sided battle with common rats.

### Cotton Seed Prices.

JACKSON, Miss., October 11.—Numerous conferences are being held by the cotton oil manufacturers of Mississippi with a view to controlling prices to be paid for seed. The mills are now paying \$16 per ton, and as the crop is fifty per cent short, it is the general belief that the price will advance to at least \$18 within the next few weeks.

The manufacturers say, however, they cannot afford to pay more than the present price, and that they are losing on seed products at the prevailing figures. Many of the mills are holding their oil in the expectation of an advance.

It is thought two-thirds of the mill will be closed down by Christmas on account of the seed shortage.

## True Economy

The difference of cost between a good and a poor baking powder would not amount for a family's supply to one dollar a year. The poor powder would cost many times this in doctors' bills.

Royal Baking Powder may cost a little more per can, but it insures perfect, wholesome food. In fact, it is more economical in the end, because it goes further in leavening and never spoils the food.

Royal Baking Powder used always in making the biscuit and cake saves both health and money.

You cannot, if you value good health, afford to use cheap, low-grade, alum baking powders. They are apt to spoil the food; they do endanger the health. All physicians will tell you that alum in food is poisonous.

ROYAL BAKING POWDER CO., 100 WILLIAM ST., NEW YORK.

### JARVIS WITHDRAWS.

Out of Senatorial Race Will Work For National Ticket.

Special to Journal.

RALEIGH, Oct. 12.—Ex-Governor Thomas J. Jarvis to-day withdrew from the contest for the Senatorship, saying that it is now apparent to him that so many are pledged to other candidates that he could not expect to win, and that he will devote himself to the success of Bryan and Stevenson and the Democratic congressional ticket.

He says: "The election of a Democratic Senator is already assured. Now let us send nine Democrats to the House to co-operate with him."

### LIPTON IS GAME.

Formal Challenge Received Yesterday. Columbia Good Enough.

Special to Journal.

NEW YORK, Oct. 12.—Sir Thomas Lipton's formal challenge for the America's cup arrived here today. The challenge calls for a certain amount of feet along the water line. Lipton's new yacht will be called Sham-ock as before, and Watson will design the craft.

New York, Oct. 11.—Harry Payne Whitney and Herman R. Duray, who will build the new defender of the America's cup, are jubilant over news that Sir Thomas Lipton's challenge has been sent.

The Herreshoffs state that it is not necessary to build another yacht to defend the cup, as the Columbia is fast enough to beat anything that can be designed by either Pile or Watson. It is said, however, that the Herreshoffs will guarantee to build a yacht at least five minutes faster than Columbia over an international course of the Whitney Duray. A definite decision to build a new boat.

Next year's race will mark a half century since the America won the cup, for many know in England as the Royal Yacht Squadron cup.

### Army Reorganization.

Special to Journal.

WASHINGTON, Oct. 12.—Gen. John R. Brooke, commander of the Military Department of the East, in his annual report, to the War Department, made public this week, makes a strong plea for the reorganization of our army on modern lines. He says: "For many years past the general officers of the army have shown the necessity for an increase which will place the army on an efficient basis and enable it to perform its duties with credit to itself and to the satisfaction of the nation. The needs since the commencement of the Spanish war have demonstrated beyond doubt the necessity for a reorganization which will enable the nation to maintain the position in which it now finds itself placed. As that reorganization of the army may form the backbone behind which the volunteer army may be created, as has always been done in our country, by organizing the people."

### Trusts Come and Go.

Special to Journal.

NEW YORK, October 12.—As a result of the dissolution of the Brass Trust, brass is now being sold in the open market for the first time in ten years. Prices for brass are now lower than in many years.

It is announced that the independent glass manufacturers have formed a trust with a capital of ten million dollars.

### Bryan Gains 1 Follows.

Special to Journal.

NEW YORK, October 12.—John Grant, the youngest son of President U. S. Grant, will support W. J. Bryan. He lives in San Diego, California. He has joined a Bryan and Steven son club.

Chairman Long of Ohio makes the statement that it is his best opinion that Bryan has the chance of carrying Ohio.

### Weather Conditions.

WASHINGTON, D. C., October 12.—For North Carolina. Rain probably Saturday. Wind to high north west, winds on the coast.

Weather Conditions.—The disturbance noted yesterday has lessened somewhat in energy and is apparently central over northern Florida this morning. It has moved generally eastward to the East Gulf and South Atlantic. It came from Florida and was followed by heavy rain.

### Miners in Convention.

Special to Journal.

CHARLOTTE, N. C., Oct. 12.—The convention of mine workers and in this city today, passed the call issued by President Mitchell. The business of the convention has yet been transacted.

### Exposition Nearing End.

PARIS, October 11.—A series of fetes in connection with the closing days of the Exposition was opened this afternoon with a parade and ballet on the river Seine, along the front of the Exposition.

One of the series of these fetes is to get rid of the enormous surplus of tickets by charging several tickets for one admission. The Exposition is now within a month of closing, and out of 65,000,000 tickets issued 15,000,000 are still unsold.

### Cyclist Gets Weary.

Special to Journal.

NEW YORK CITY, October 12.—Miss Marguerite Glat, who has set out to ride 2,000 miles on Long Island roads to beat Mrs. Jane Lindsay's record, fainted twice today and today and will faintly be able to finish. She is now the champion woman cyclist at 1,000 miles, having finished one half of the contemplated 2,000 miles run in two hours and three minutes ahead of Mrs. Lindsay's record. Her time for the 1,000 miles was 115 hours, including 8 hours taken for rest.

### The Defaulting Cashier.

Special to Journal.

NEW YORK, Oct. 12.—The Sheriff has seized Mrs. Hart's property, which was given to her by Will Schrieber the defaulting bank official, at Elizabeth, N. J. The houses and lots are valued at \$30,000 the furniture at \$4,000 and horses and carriages at \$2,000.

Schrieber will soon be arrested as he is known to be hiding near late city. The bank directors say that the shortage will not be much over \$100,000.

The accounts of the bank were examined last April and were found to be, in what was thought, good condition. At that time Schrieber had probably taken a good deal of money from the bank and had covered his operations by falsifying the accounts. The State authorities defend themselves by saying that there is no way of protecting banks against thieves on the part of their employees, unless they watch them daily and note whether or not they are spending more money than their wages warrant.

### Made Four Wills.

NEW YORK, Oct. 11.—Two more wills of the eccentric millionaire Prime have been discovered, which makes four wills in all.
