RALEIGH.

Republicans at Sea in 3rd District. Shop Will be Rebuilt. The Museum.

Special to Journal.

RALEIGH, Nov. 1.—The declaration of A. H. Slocum to be the Republican nominee for Congress in the third district seems to have put the party as seat. It had made boasts that it would have a straight nominee in every district. Rain, which had held off so long, began today and of course diminished the attendance at the negro State fair. It also kept many sportsman out of the fields, as today was the beginning of the hunting season.

The machinery for the complete equipment of the Melrose Knitting Mill here has been ordered and in 60 days the mill will be in operation. It is expected that early next year the Seaboard Air-Line's shops here, burned early in 1896, will be rebuilt. At the next meeting of the board of agriculture the matter of furnishing the large annex to the State museum will be taken up. The exhibits sent to Paris will be returned about the end of the year, it is expected. As to the exhibit by the State at the Pan American exposition at Buffalo the legislature will be asked to take special action. Of course the board will co-operate.

The best exhibit at the negro State Fair is that made by the State Agricultural and Mechanical College at Greensboro, illustrating mainly work in iron and wood by students. The State has a carpet factory, at Greensboro, and the State Agricultural Society awards it a couple of gold medals.

At Colored Fair. RALEIGH, Nov. 1.—Over two thousand were in attendance at the Negro State Fair this afternoon. Sidney Lee, a tobacco grower from Person county, was killed by shifting engine at Durham today.

Fastest Boat Afloat. NEW YORK, Oct. 31.—Charles R. Flint's Arrow, under contract to be the fastest ship ever designed, was launched today at Ayer's ship-yard at Nyack, N. Y. She was built under a guarantee by her designers forty-two miles an hour, and it is said that under pressure she will be able to make fifty. It has been generally given out that she was constructed as a yacht for Mr. Flint's personal use, but rumors have been persistent that she was built under contract with one of the South American Governments for service as a torpedo boat. Her plans so far as they have been made public, show her fully equipped for torpedo service.

Big Orders Received. Special to Journal. NEW YORK, Nov. 1.—Orders have been received from Great Britain from ship builders on the Clyde for one hundred and fifty thousand tons of ship building material to be sent from the United States.

Bryan in Ohio. Special to Journal. CINCINNATI, November 1.—William J. Bryan had a great meeting in Cincinnati today. The rush was so great to hear him that several accidents occurred. Mr. Bryan says that he is hopeful of carrying Indiana.

No other pills can equal DeWitt's Little Early Bitters for promptness, certainty and efficiency. F. S. Duffy.

Long Dredging Cruise. Special to Journal. WASHINGTON, Nov. 1.—The United States Fish Commission steamer Albatross has returned from a fourteen months cruise in the South Pacific. This breaks the record for a dredging trip. Dredging was done at a depth of five miles.

Slayer of Rice Confesses. Special to Journal. NEW YORK, Nov. 1.—Charles Jones the valet of Millionaire Rice, has confessed to District Attorney Osborne that he murdered Rice. His case goes to the Grand Jury and there will be no inquest. Jones cut his throat this morning at 4 o'clock and is in the hospital. The wound is pronounced not fatal.

GENERAL CARR'S CAMPAIGN.

Large and Enthusiastic Crowds Greet Him in the East.

WASHINGTON, N. C., Oct. 31.—General Julian S. Carr spoke to an immense audience at the opera house here last night. He was introduced by Stephen C. Bra-gaw, Esq., and every mention of Carr's name was greeted with a burst of applause. A number of the most active Democratic workers from all parts of the county came in to hear and meet General Carr, and report that he has a tremendous following in this county. Carr has a large number of enthusiastic friends in the town of Washington, as evidenced by the great number of Carr buttons in the audience and on the streets.

The Carr men here are claiming the counties of Beaufort, Washington, Pamlico, Tyrrell and a close fight in Hyde and Pitt. WELDON, N. C., Oct. 31.—General Carr is visiting the Weldon fair today. Every where in the east his reception amounts to an ovation. At Plymouth, Williamson and Washington enthusiastic crowds have filled the auditoriums, leaving only standing room. At the railroad stations crowds rush in the cars to shake his hands and cheer him.—Wilmington Messenger.

The best method of cleansing the liver is the use of the famous little pills known as DeWitt's Little Early Bitters. Easy to take. Never gripe. F. S. Duffy.

A Bryan Landslide. CHICAGO, October 30.—With the election a week off. I am confident Mr. Bryan will be elected president. There will be a landslide in his favor. The issues of the campaign are now understood and the people will doom imperialism, militarism and trust. The Republicans are yelling fraud. They realize they are beaten and are crying wolf to distract the attention of the Democratic shepherds on election day, so they can steal the presidency, but we will not be cheated out of the victory this time. We will watch the polling places.

Mr. Bryan's great meetings in New York indicate his success in that state and Maryland. Indiana is ours and Illinois will be won this week by the Nebraskan. William J. Bryan will be the next president.

WASHINGTON, Nov. 1.—The United States Fish Commission steamer Albatross has returned from a fourteen months cruise in the South Pacific. This breaks the record for a dredging trip. Dredging was done at a depth of five miles.

Krueger to Travel Incognito. PARIS, October 31.—The Foreign Office officials believe former President Krueger will travel incognito during his visit to the European capitals, relinquishing his incognito in each city only long enough to permit an exchange of visits between himself and the head of the nation. His stay in Paris will not exceed forty-eight hours, and possibly only twenty-four.

The French Government will not offer Mr. Krueger any formal function, though it is expected that the city will tender him a demonstration which will be a scene of enthusiasm. The Government will not take part in the reception, but will not, however, put any obstacles in the way of private plans of welcome.

In short, the Government will not take any step likely to be construed as an offense to Great Britain, though it is certain that President Loubet and Mr. Krueger will exchange visits. The same proceeding, it is believed will be followed at each European capital visited.

Will Rebuild Piers. NEW YORK, October 31.—It was announced in Hoboken today that the North German Lloyd Steamship Company had decided to rebuild their piers at that city and had abandoned their intention of removing to New York. There will be three piers built in place of the four destroyed, and the buildings will be two stories high, and fire proof, as far as possible.

The work of removing the debris of the recent fire will be commenced at once. The first pier will be ready for business by July 1, 1901.

Tobacco Trust Fights Carr. It has been circulated in this county, as well as elsewhere, that Gen. Carr is or has been allied with the American Tobacco Trust. This is not true. Gen. Carr has not and never has had any connection with the tobacco trust or any other trust, and those who assert to the contrary are either wilfully or ignorantly misstating facts—and if they do so ignorantly they are not excusable, because they could ascertain the facts if they wanted to.

The fact is that the head and front of the tobacco trust in this State are the Dukes, of Durham, who are Republicans, and they are personal (if we mistake not) as well as political enemies of Gen. Carr. It is well known that the Dukes and their henchmen and lackeys are fighting Gen Carr in this campaign with all the power at their command. Instead of Carr being connected with the tobacco trust that trust has been and fights him on all occasions.—Statesville Landmark.
