RALEIGH.

Whitehead-Burwell Wedding. Baylis Cade For an Office. Blackburn Resigns. Synod Meets Today.

Special to Journal.
RALEIGH, Nov. 12.—At the home of State Labor Commissioner B. R. Lacy, here this morning, his sister in law, Miss Irene Burwell, daughter of president John B. Burwell, of Statesville Female College, was united in marriage to Mr. H. G. Whitehead of Norfolk. Miss Antoinette Burwell of Goldsboro was maid of honor and Mr. J. B. Whitehead Jr., best man. Among those present were Mr. H. C. Whitehead of Norfolk, the father of the groom, Mrs. Robert S. Copeland, his sister; Mrs. Charles D. Miller of Goldsboro, Mr. and Mrs. C. C. McAllister of Asheboro and Mr. Robert T. Burwell of Texas. The bride was given away by her father.

Gov. Russell and other officials in the capitol have been working hard and earnestly to induce the Supreme court, or rather the three Republican justices who control affairs, to appoint Rev. Baylis Cade, the Governor's secretary, Supreme Court reporter. The salary is not to exceed \$1250 a year, though only \$1000 has been paid. Attorney General Walser is ready to accept the place, if it tendered him.

The relations between some of the justices of the Supreme court are said to be more than strained. In fact a State official remarked today that one justice wanted to have some others impeached. Congressman-elect Spencer Blackburn has telegraphed his resignation as assistant attorney of the Western United States district, and Senator Pritchard, Judge James E. Boyd and district attorney Holton recommended Augustus H. Price of Salisbury to succeed him. It is settled that Price who is a Republican elector-at-large, gets the place. He is a son of Hon. Charles Price of Salisbury.

The Supreme Court will this week hear argument in an important case, involving an entirely new point in this State, namely the right to transfer a case from a Mayor to a Justice of the Peace.

State Chemist Kilgore left today for New Haven to attend the annual meeting of the agricultural college and experiment station chemists. On his way home he will attend the National Association of official agricultural chemists of which he is president.

Rev. George H. Stuart, evangelist, last evening began his meeting here.

A great many delegates to the North Carolina Presbyterian Synod arrived here today. It meets tomorrow.

Engineer McGowan of the Coast Line died yesterday of injuries received in the wreck near Fayetteville Saturday.

U. S. Treasury Report.

Special to Journal.
WASHINGTON, Nov. 12.—United States Treasurer Roberts, in his annual report issued today, says that the net ordinary revenue of the government for the year was \$377,340,862. This is the largest revenue in the country's history.

The entire receipts were \$1,397,399,826 and the disbursements \$1,020,058,964. Money of all kinds in circulation, \$2,118,294,983.

The Secretary of the Navy asks for eighty seven millions of the Navy for 1902, an increase of thirty one millions over 1901.

Hoist With Own Petard.

Special to Journal.
New York, Nov. 12.—Dr. Gleason at Elmira, N. Y., dynamited the house of his son-in-law Frank Trapp but in the explosion was himself killed. His body was found 300 feet away. No one in the house was seriously injured although the interior was destroyed and near by building damaged.

Many people worry because they believe they have heart disease. The chances are that their hearts are all right but their stomachs are unable to digest food. Kodol Dyspepsia Cure digests what you eat and prevents the formation of gas which makes the stomach press against the heart. It will cure every form of indigestion. F. B. Duff.

Henry Villard Dead.

Special to Journal.
New York, Nov. 12.—Henry Villard, the great railway magnate died at midnight last night at his summer home on the Hudson river. He had been sick only a few days.

Mr. Villard was a native of Germany and began life in the United States as a newspaper correspondent, particularly on the New York Herald during the Civil War. In 1870 he started business in Wall street and made three and a half millions in a few years. He organized a syndicate to purchase Northern Pacific Railroad stock and virtually held control of the road for years until the road passed into the hands of a receiver. He friends in Germany held much of the stock.

Marcus Daly Dead.

Special to Journal.
New York, Nov. 12.—Marcus Daly died of Bright's disease in this city today. Mr. Daly was the famous copper king of Montana and made an enormous fortune in copper mining in that State, his property becoming so great that it has been described as being nearly half the State. He was one of the wealthiest mine owners in the world. His fight against Clark for the United States Senate was the great sensation of last year.

Paris Exposition Closed.

Special to Journal.
PARIS, Nov. 12.—The Exposition ended today. The demolition of the buildings has already begun. Admission tickets to the Exposition grounds to lay sold for one cent.

Not an Official Visit.

Special to Journal.
WASHINGTON, Nov. 12.—It is officially denied that Secretary Root's visit to Cuba has anything to do with the Cuban Constitutional Convention, now sitting in Havana, although it is official and will be utilized in visiting sections of the island not reached by him when he was over there some months ago. Many believe that Secretary Root has gone to Cuba as the personal representative of the President, and that his report of existing conditions will be an important factor in the future attitude of this government toward the island. Inasmuch as the work of the Cuban Constitutional Convention will, if completed in time, be at once submitted to Congress, it is not thought the President's annual message to Congress will contain any important Cuban recommendations.

If you have ever seen a child in the agony of croup you can realize how grateful mothers are for One Minute Cough Cure which gives relief as soon as it is administered. It quickly cures coughs, colds and all throat and lung troubles. F. S. Duff.

Not Much Tax Reduction.

Special to Journal.
WASHINGTON, November 12.—Representative Payne, of New York, Chairman of the House Ways and Means Committee, which will meet on the 20th, first to consider the question of a reduction of internal revenue taxes, does not say what the committee will do, but it is very evident from his guarded talk that he does not expect a bill that will make sweeping reductions. There is good ground for the belief that the bill which will be reported to the House will not make reductions of more than \$30,000,000 a year, and even that much would be doubtful if the President had not so strongly committed himself in favor of reducing these taxes. The prevailing idea in official and Congressional circles seems to be that uncertainty as to the immediate future in China and in the Philippines, make it advisable for this government to have a stiff surplus of cash on hand to meet any possible emergency.

You can't afford to risk your life by allowing a cough or a cold to develop into pneumonia or consumption. One Minute Cough Cure will cure throat and lung troubles quicker than any other preparation known. Many doctors use it as a specific for grippe. It is an infallible remedy for croup. Children like it and mothers endorse it. F. S. Duff.

Cast up by the Sea.

Special to Journal.
New York, Nov. 12.—Twenty six of the dead from the steamer M-micello have washed ashore near Halifax, N. S. The victims were beached in pieces against the rocks.

This list of those who perished with the ill-fated steamer now reaches 25. Four persons were saved. The drifting of a missing boat that was launched just before the ship went down cut off the vestige of hope that others had cherished. Captain Smith, of the Phœnix, Stewardess Smith, Third Officer Fleming and Acting Quartermaster Wilson Cook are all who are left alive.

The place where the Monticello struck is at the mouth of the Bay of Fundy, where the waters of the bay join those of the Atlantic. There are many reefs and shoals at this spot and the currents are many and changeable, it being one of the most dangerous places on the coast.

Russia Short of Money.

Special to Journal.
New York, Nov. 12.—Russia has failed to raise the loan that has been under negotiation, and is economizing by reducing expenses in every department.

Miss Lord's Dancing School

New Bernians will be delighted to know that the efforts to secure Miss Lord's artistic services in establishing a dancing class here have been successful, and for all particulars we refer the readers of the JOURNAL to her advertisement in our columns today.

We are told that she will teach all the latest fancy dances imported this season in metropolitan cities. Miss Lord has given her whole time within the past few years to her art, consequently it is thorough in every particular.

The class will be large, the hall secured is commodious, and the music will be up-to-date, therefore making it enjoyable and interesting.

She will take any number of pupils from a night to 16 years, both boys and girls. Also a night class will be formed for young men and women not caring to enter the afternoon class, this will embrace all the latest figures of the German.

Let all who can, give Miss Lord an encouragement.

Bank Hours This Week.

The following hours will be observed by the banks in this city during the Fair.

Will close Tuesday, Wednesday and Friday at 12 o'clock, noon.

Thursday will be observed as a holiday when the banks will be closed.

Those doing business will please note these hours and act accordingly.
