### RALEIGH.

#### Suggested Lease of A. & N. C. Road By Next Legislature.

Methodist Orphanage Opened. Building of Branch Road to Snow Hill. New Lodges of Odd Fellows. Well Named Newspaper Club.

RALEIGH, N. C., Nov. 29.—The Methodist Orphanage, which is located one mile west of this city, was formally opened by Bishop H. C. Morrison this afternoon. The dedication will not be held until the main building is completed. The first building just completed comprises seven large rooms and four small ones. It is of brick and the interior is finished in hard-finish natural pine. A handsome parlor and large study room, dining and matron's rooms are located on the first floor. On the second floor are two large dormitories, bath rooms, lavatories etc. The building is well constructed, having been built by Zachary and Zachary, Charles Pearson is the architect. It is expected that work will soon begin on the main building which will cost some \$18,000. Some fifteen applications for admission have already been received. Rev. J. W. Jenkins will act as superintendent for the present. Since the arrangements were begun, nearly two years ago, to establish the orphanage, \$17,463 has been collected.

Bishop Morrison this morning preached the Thanksgiving Sermon at Edenton street M. E. church here, at the union service.

The Capitol was closed to-day. The Supreme Court, as a courtesy to attorneys from a distance, heard arguments in a couple of cases and then adjourned for the day.

The directors of the Atlantic & North Carolina railway have for some time been considering the matter of building a branch line to Snow Hill. They decided two months ago to refer the matter to the Board of Internal Improvements. The latter now declines to assume the responsibility and virtually leaves it to the legislature by saying that no steps will be taken until after the adjournment of the legislature.

The legislature will be called on to meet the question of raising more taxes, in some way. This year's expenses exceed the income by some \$300,000. It is suggested that perhaps a good lease of the Atlantic and North Carolina railway, which now yields the State a very small return might be effected.

Papers were issued today for the organization of new lodges of Odd Fellows at Windsor and Hertford.

The work of grading is in progress on the Charlotte, Monroe and Carolina railway. The line under construction is 20 miles in length, between Monroe and McBe, which shortens the distance to Monroe by 60 miles, as compared with the present route via Hamlet. The new road is primarily to get into a great timber region, but will be built standard for permanent business as a part of the Seaboard system. The builders are Charles E. Johnson and William Monroe of Raleigh, Mr. Williams of Lynchburg and three or four others.

Next Saturday the State fair premiums will be paid. The fair made money this year, more than ever before in all its history.

About three fourths of the machinery in the 10 Alamance county mills affected by the strike of Union labor is now in operation. New hands are coming in from the country. Those of the strikers who are holding out say they will go to West Point, Ga.

The newspaper men of this town have formally organized themselves into a club and chosen the name "The Ananias Club."

John Jenkins, president.  
Rev. Dr. T. N. Ivey, vice-president.  
W. J. Martin, secretary; P. V. Hoyte, secretary.

F. A. Oida, R. M. Furman, T. J. Fosse, G. H. Poe and Willis G. Briggs, board of governors.

### Yosemite Reported Sunk.

Warship Said to Have Gone Down With Five of Her Crew.

New York, November 28.—A cablegram from Manila received here today reports the sinking of the United States auxiliary cruiser Yosemite in a typhoon at Guam November 15. Five of the crew it is said, were lost.

Washington, November 28.—Neither the naval nor war officials had received anything up to a late hour tonight regarding the loss of the Yosemite.

The presumption here is that news of the disaster was taken to Manila by the War Department transport Sherman, which is due at that place about this time. According to an arrangement with the naval officers a War Department transport calls monthly at Guam to deliver mail intended for the people there, and as the Sherman left San Francisco about November 1 with the expectation of stopping at Guam she probably learned of the wreck on her way over and reported it on her arrival at Manila.

The Yosemite was first commissioned April 13, 1893. She has been the station ship at Guam since the days of the Spanish War. The Yosemite is a 16-knot converted cruiser, of 8,170 tons displacement. She is provided with a main battery of 10 6-inch rapid-fire guns and secondary battery of 6 6-pounders and 2 Colt rifles. Her measurements are 391 feet in length by 43 feet extreme breadth. She has a mean draft of 20 feet 1 inch.

DeWitt's Little Early Risers are the best liver pills ever made. Easy to take and never gripe. F. S. Duffy.

### Chicago's Corn Deal.

CHICAGO, Nov. 28.—George H. Phillips, the manipulator of the corn market, closed the corner in November delivery of the yellow grain today, with profits estimated at from \$300,000 to \$300,000.

The closing was merely a formality. Privately and on confidential terms the "shorts" took their medicine last night. It is understood that about 630,000 bushels were sold by the young bull leader at 49 cents. Some reports place the figure at 50 cents. Today he allowed the "tallers" to keep up the bidding for a few hours by offering grain at 50 cents. The dullness of the pit finally brought the traders to the realization that something had "dropped."

The cob product struck the toboggan slide and a rush of stop orders brought on a panic among the firms who were waiting for a "skyrocket." The price fell to 41 cents, and the market was wild.

It is understood that those standing short to Phillips since began gathering up offerings of November corn about a month ago, expunged every effort to secure enough No. 2 corn to fill their sales. The local stocks amounted to a trifle over 1,000,000 bushels and the new crop of corn was too soft for delivery.

Plans were even considered to bring back a lot of corn from the East, but these were abandoned, and, as Phillips was upheld by the Board of Trade committee of appeals in his protest against a lot of kiln-dried corn, the shorts finally, late yesterday, agreed to give over the fight and settle with Phillips, as it was evident the manipulator would have no trouble in holding the market.

### TEXT OF AGREEMENT.

Demands on China Probably Modified.

WASHINGTON, Nov. 28.—It developed today that the chief point in the exchanges concerning China which have been going on during the last few days among the Powers relates to the wisdom of delivering an "ultimatum" to China, using the express word "ultimatum" in the text of the demand to be handed to the Chinese envoys, involving the possibility of a resulting declaration of war against China in case the demands of the ultimatum be not complied with.

It appears that some of the Powers desired the express use of the word "ultimatum" in the demand relative to the despatching of other extreme punishment of eleven of the Princes and other high officials responsible for the outrages, and the view of using the most expressive term of diplomacy seem to have found favor with the ministers at Peking.

When it became known at the several capitals considerable dissent became manifest.

About a week ago Japan took the initiative in an appeal for moderation, and this received the favorable consideration of the United States, France, Russia and probably Great Britain, although a positive statement as to Great Britain cannot be made. About the same time Secretary Ray took steps to express the view of this Government that it was inadvisable to proceed to the extent of an ultimatum against China, but that the demands should not be beyond what China reasonably might have the power to comply with.

The uncertainty of sentiment among the Powers gives ground for the belief that the demands of the ultimatum will be modified by the omission of an ultimatum, although it is not yet clear what the final attitude of the remaining Powers—Germany, Austria and Italy—will be.

The negotiations in this connection were carried on in London through American Consul General and it is reported as "factious" that one of the parties in the negotiations was the American minister at London.

### DOMESTIC ANIMALS.

Figures Composing the Census Just Completed.

WASHINGTON, Nov. 28.—The Census Bureau today issued a bulletin giving the results of the enumeration of the domestic animals in localities, but not on farms or ranges. Of 1,873,207 horses or mules reported domestic animals, which was substantially one third of the total number of farms in the United States, 784,380 contained 1,887,870 head of cattle, 1,854,880 head of horses or mules, and the aggregate of other animals reported follows: Mules, 187,115; swine, 15,870; sheep, 128,470; goats, 1,282,561; and goats, 67,503.

For cities with over 100,000 inhabitants, Kansas City and Memphis report the largest relative number of horses and mules, respectively. Chicago of sheep, Indianapolis of swine and New Orleans and Milwaukee of goats.

### PERIL FOR CONGRESS.

Senator Hale on Outlook. Disposition Among Republicans to Go Slow.

WASHINGTON, D. C., Nov. 27.—Republican Senators, as they arrive in Washington, show an inclination to talk conservatively about the outlook for legislation. The disposition is to go slow in enacting measures which are regarded as more or less radical in character. Senator Eugene Hale of Maine, who has been out of sympathy with the Administration on many points, is especially pronounced in his opinions.

"We have won a great and deserved victory," he says. "The people have expressed their faith in the Administration and have committed the entire Government to the Republican party for at least another Congress. Our victory has been brought about by the votes of hundreds of thousands of men who did not all agree on everything that is claimed to be Republicanism."

"It has not infrequently happened that a party in the United States, after gaining a great victory in a Presidential election and carrying the country by immense majorities, has taken the leadership of rabid and revolutionary men, and has been utterly discredited and repudiated at the next Presidential election."

TAXATION MUST BE REDUCED.

"We must reduce taxation; we must stop extravagant expenditures; we must go on the theory that the revenues will not hold out at the present figures, as they assuredly will not. The present condition in China; where the Administration has been singularly wise and conservative, has shown us how our Oriental experiments are likely to involve us in every Eastern complication."

"We must help the Cubans just as fast as possible to set up their own government. The business influences of the island will be in sympathy with us and all the Cuban foreign policy will be largely subordinated to ours, but the Cubans have got to run their own governmental machinery, and the sooner that is done the better."

HAWAII HARD TO MANAGE.

"Porto Rico will take care of itself. Hawaii is showing that insular annexation is no easy thing to manage. Already the popular vote has decided against the administration's policy and against the Republican party. I look for difficulties of many kinds in the management of those islands, but good sense and good judgment and conservatism will bring the party and the country out all right."

Senator Hale does not believe very much will be done by Congress this winter except to pass appropriation bills.

"Perhaps the Subsidy bill will pass," he says, "and there may be some tinkering with the army, but sooner or later the latter will be found a hornet's nest for Congress to deal with. I take it for granted, too, that we will pass a re-appointment bill. I do not see anything at present that will interfere with the prompt execution of the work that is absolutely necessary."

## LADDERS.

I have invented a Ladder far superior to any that has been placed on the market. Because of weight, durability & strength, and an manufacturing same for shipment, being located here will sell at retail at 15c per ft. (any length) which is less than any sold, except a slab nailed to a piece of scantling.
