Official Paper of New Bern and Craven County.

New B. ra, N. C., Dec. 8, 1900.

### PUBLICITY SHOULD BE DE-MANDED.

If there is one thing which the people should demand of those elected to pub lic office, is that these officials should give frequent and full reports of the administration of public affairs in their charge.

There are some laws which require that certain official actions be published in newspapers.

Such publications are right as far as they go, but the fact is that too little is published, of the full proceedings of municipal, County and State administrations, together with itemized statements of the financial condition of these several departments.

These statements should not be merely made once a year, but monthly or quarterly, and be given publicity through the newspaper, in the city and county, having the best known circulation, and the State's financial report should be published in the leading papers in several sections or districts throughout the State.

For a newspaper to urge these publications, may be put down more to mercenary than other motives, but that the people should know and be kept fully informed as to how their affairs are being managed, is simply a matter of business, and one which every tax payer ought to insist upon.

And every public officer ought to also demand that opportunity be given him, to make full public record of his steward ship, both to prove his efficiency and honesty of management of the office he may hold.

The few dollars paid for these publications, would be largely offset to the tax payers by the knoweledge gained of how their affairs were being conducted.

#### Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies Deafness is caused by an inflamed condition of the mucous lining of the Eus-

The parts of hares and rations in swim-ming are the as iff ballanded sing, down by the head. Like the squirrels, these two animals show great timiting in the wains, and anturally so, for their heads are so low and sterns so high that the alightest ripple on the surface would send their noses under water and so drown them unless they at once returned to have. The perfectly still water, how-ever, they can both swim considerable distances.

ever, they can both swim considerable distances. "A friend of mine, who is a constant fisherman," says Mr. Millinis, "told mo that he has three times seen hares try to swim the Tweed, and each time, after going half way, the timid creatures had to return, doubliess owing to water get-ting into their nostrils. As far as I have been able to ascertain, rabbits and hares are the only animals that expose the whole of the hind leg, except the foot, above the water when taking a stroke. The effect of this is very enrious, giving them the appearance of a slow stern wheel padle steamer. When once fairly started, the legs are moved slowly, alstarted, the lega are moved slowly, al-though the suimals proceed at a fair rate of speed."--Peterson's Magazine.

#### Cow Storles.

but it could not be found. On the other but it could not be found. On the other hand, the prints of cattle hoofs were found on the spot where it had been. The mystery was presently cleared by the testimony of a peasant, who said that one of the cows feeding in the meadow had devoured the fish.

A similar case is mentioned in the Lon-don Field. Cows, it appears, have most ary. accommodating appetites and digestion. When, in the sixties, an Oxford cow was and digestion

credited with swallowing a mackintosh, it drew from Osborn Gordon, then the well known witty censor of Christchurch, the expression of a hope that its milk would use he waterpress the expression of a hope would now be waterproof. Lost His Bet.

the talk thus:

#### Dangerous Factories.

Not far from the heart of New York city is a factory for the manufacture of deadly poisons in quantities large enough to annihilate the entire population of New York. The factory guarded that even its next door neighbors need have no fear of it, but the possibilities stored there excite the im agination. No one may enter it without a special permit. The employees are all skilled men, well aware of the danger of the slightest carelessness. They manufacture, among other things, pure anhydrous acid, which is so dan gerous that in its pure state it is not placed in the market. There is instant death-in its fumes if they are permitted to escape. Nitric acid is stored in another part of the factory in big glass carboys. The men who work in this factory realize that a broken carboy of nitric acid would mean a disaster, and they treat it with the respect which it deserves. This factory and others like it are guarded more carefully than a safety deposit vault .- New York Sun,

# A CRY FOR HELP. Result of a Prompt Reply .- Two Letters from Mrs. Watson, Published by Special Permission.-For Women's Eyes Only.

#### To MRS. PINKHAM, LYNN, MASS. :

"DEAB MADAM: - I am suffering from inflammation of the ovaries and womb, and have been for eighteen months. I have a continual pain and soreness in my back and side. I am only free from pain when lying down, or sitting in an easy chair. When I stand I suffer with severe pain in my side and back. I believe my troubles were caused by over work and lifting some years

"Life is a drag to me, and I sometimes feel like giving up ever being a well woman; have Secome careless and unconcerned about everything. I am in bed now. I have had several doctors, but they did- me but little good.

"Lydia E. Pinkham's Vegetable Compound has been recommended to me by a friend, and I have made up my mind to give it a fair trial.

"I write this letter with the hope of hearing from you in regard to my case." - MRS. S. J. WATSON, Hampton, Va.

November 27, 1899.

\*DEAR MRS. PINKHAM: -- I fee! it my duty to acknowledge to you the benefit that your advice and Lydia E. Pinkham's Vegetable Compound have done for me,

"I had been suffering with female troubles for some time, could walk but a short distance, had terrible bearing down pains in lower part of my bowels, backache, and pain in ovary. I used your medicine for four months and was so much better that 1 could walk three times the distance that I could before,

"I am to-day in better health than I have been for more than two years, and I know it is all due to Lydia E. Pinkham's Vegetable Compound.

"I recommend your advice and medicine to all women who suffer." -MRS. S. J. WATSON, Hampton, Va.

This is positive proof that Mrs. Pinkham is more competent to advise sick women than any other person. Write her. It costs you nothing.

**\$55000** REWARD. --We have dervisited with the National City Fank of Lynn, 50000 which will be paid to any percon who can find that the above itsettimonial letter internormal genuine, or were published before obtaining the writer's special per-mission. Lynn & Lynn McMark McDichne Co.

## Trustees' Sale.

Pursuant to the power of sale con-tained in a deed in trust executed to us by S. W. Reams and wife and G. A. Webber dated the 4th day of August 1806 and recorded in the office of the Register of Decus 1 Craven county in book 120, pages 38, 59 and 40 we will sell at public auction at the Court Hou e in the City of New Bern at 12 o'clock m.

on Monday the 7th, day of January 1901 the following real satart. One track lying at the Jancien of Hancock Creek and Neuse R yer begin-ning at the nouth of Sall Cut on Hyncosk Creck and running up and will said cut to Reed's cos; thence up as d cut to the bildge across such Reed's cut where the old Holton plantation road crosses the same; thence a direct line with said road due to a heaving on the shore of Neuse River at the river and of said plantation road; thence down said river to Hancock's Creek; thence up said Creek to the beginning, reserving to Willis R. Pates right of way to be chosen by him after he becauses of sge across the land 20 fect while also the privilege of a wharf on said Creek to use for shipping and fishing, the said tract oring the same which was conveyed to S. W. Reams and G. A. Webter by W. B. Boyd, Guardian by deed recorded in the said Register's office in book 116, pages 299 &c.

lao two other tracts of land described as follows:-Situated in the County of Craven, State of North Carolina on the South side of Neuse River on both sides of the main road leading from New Bern to Beaufort and on both sides of cock Creek and on the East side of the East prong of Slocumb's Creek bounded and described as follows, the first tract beginning on the East side of Hanceck Creek and South side of the mouth of a Creek known as little John's Creek and running thence southeastwardly up and with said last named creek to a marked black gum on or near the mouth of Popfar Spring Branch, Leonard Loftens be-ginning corner of his grant for 150 acres anted 1762; thence with Loftens eastern line South 19, East 193 poles to the division line established between David W. Isell and Henry J Loviek 1857 thence with the same North 70, West 240 poles with marked line William Hancock's beginning corner at the side of Hancock Creek of his grant for 640 acres dated 1707; thence up and with said creck to the month of beep Branch the beginning corner of Joseph Muster's grant; the nee op and with said Deep Branch and Master's patent line south 10 west 50 poles: thence south 30 east 161 poles hithird corner; thence with his third line south 45 east 105 poles to his corner on Hancock Greek and the dividing corner between said D. W. Bell and Arnett between rate D. W. Dari and Artert Dove, thence with Dove and B it's line north 5 west 175 pales to Honors's Creek; thence up and with the same to the mouth of Moccore Branch Hancocks fourth corner, thence with his third line north 45 east 260 poles to his third cor-ner by the south side of the main road road leading from New Bern to Beaufort; thence down and with soul road castwardly 125 poles to Abner Neal's 610 acres west patent line known as Edis' line, thence south with the some and William Cally 200 pules to his corner and the corner of Bartholomes, 11-ward grant for 200 acres dated, 1800, thence with his west line south and cast 109 poles to the north east corner of a gisht poles to the north eart corner of a giant to the helps of toger Jones for 100 across dated 1801; Drates with the earth line of the same south 300 poles to his corner at the side of the percedur and also the corner of a grant to denix A. Jones for 200 acress dated 1834. Thence, with his line north 55 west 120 poles to her, co-ner thence with another of her incovers 136 poles to lesse Perkins' south ess corner, thence with Perkins line around and with the pocosin to Obsdiah Always and Perkins corner at the side of the pocosin; thence with the southern line of badiah Always grant north Servert her poles to his south west concer shift the corner of a grant to Hardy 1. Jon., for 155 acres dated 1822, then e. with south Jones line mouth 12 west 100 (c), thence south 60 west 50 p.b. con-north 12 west 146 poles, thence with another of his lines north 60 enc. poles to Adam Tooleys 160 acre pairs thence with said Touly's line north, "it thence with said Lonity's line north for weat 108 poles to bis corner, thence with another of his lines north 2% cast 80 poles to the southwest corner of Adam Fooleys 35 actr ; a'r it and also the co-ner of a grant to floury A it are dated 1854; thence north and with worder, with the context of a start with and with worder, with NEW BERN CONCLAVE 486. ### lic road. There was your hedge school house, ready for business .-- Donahoe' A man who had experience in Alaska was listening to a group of citizens dis cussing the weather and broke in on "Pshaw, you fellows don't know what changeable weather is. You think it's

always cold in Alaska, do you? Well, just let me tell you a little personal experience of mine. One day I went hunting with a party of miners. The weather was quite warm when we started, and I perspired freely. Sundenly it turned bitterly cold, and large tcicles formed on my whiskers (I had grown a full beard). Crossing a small canyon, I came face to face with a big, ugly looking bear. I had nothing but powder in my gun, and the man with the cartridges was away behind me, so as a desperate resort I rammed the felcles from my beard into the gun and "And what happened?" said one of the crowd engerly. "Why, I struck him squarely in the

tachian Tube. When this tube gets in flamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to fis normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the macous autfaces.

Wa will give One Hundred Dollars for any case of Deafasss (canned by on tarrh) that cannot be oured by Hall's Catarra Cure. Send for circulars, free.
