Reliability Our Motto.
Pure Products at reasonable prices. It is well to turn over a "New Leaf" at the end of every year and begin a New Year trying to do better in some way, than you have in the past one. So begin the New Year trading with Parker and you can readily see at the end of the year that you have lived well and saved money. We carry a full line of Fancy Groceries, our stock is complete in every way and a call from you will be highly appreciated, you will receive a great deal of benefit.
Wishing all my old and new patrons a Happy and Prosperous New Year, I am Yours to please,
J. R. PARKER, Jr.
Cor. Broad & Hancock Sts.

Don't Read This!
But stop at 76 Pollock Street and leave your laundry. We have moved our Laundry Office to the store Mr. McSorley generally uses for toys. We have our Laundry plant in fine shape, plenty of light, plenty of room, plenty of good soft water. Now with these advantages we will guarantee better work than we have ever done.
We don't stop at these promises. We have 400 nice presents which will be given away with every package of laundry that is left at the office. These presents are well worth coming after and will only be given out two weeks.
Our wagon will be on the streets every day, all goods will be called for and delivered as before.
With many thanks for your past patronage and wishing all a prosperous New Year, we are

INSURANCE FACTS.
Increase of Receipts From Fire and Life Companies.
Incendiarism Discouraged in This State. Chief Justice's Talk. State Charters. Lawyers Get Fat Fees From State.
RALEIGH, Jan. 3.—In the course of a special interview today with State Insurance Commissioner J. Richard Young some interesting facts were learned. He says there are now over 38 life and 87 fire companies doing business in the State, 7 of the former and 4 of the latter having withdrawn because of the enactment of the Craig law requiring "foreign" corporations to domesticate themselves. The receipts by the State during the past year from insurance companies were \$90,000, while in previous years the receipts did not exceed \$84,000. It must be remembered that the receipts to the State from the 11 companies which withdrew on account of the Craig law were \$12,000, yet in the face of this loss the receipts were \$8,000 greater than before. These 11 companies will not return to the State unless the Craig law is modified. The commissioner says he has not yet decided what recommendations he will make to the legislature in regard to such modifications or to any other feature of insurance matters.
The reports of the year's business will come in this month. While the year has been a disastrous one for fire companies in the country at large, the companies here had a better showing in North Carolina. During the year the commissioner investigated 25 fireplaces or supposed to be of incendiary origin. He said "These fires occurred at 10 different points, as a result of the investigation there were 7 arrests, and several of the incendiaries are in jail awaiting trial. This law in regard to investigating supposed incendiaries is having a very fine effect. It will reduce incendiarism. There is a good deal of this in this State. There has always been a lot of it. The incendiary fires occur in "groups," as to speak. There was such a group last autumn. All of the fires in this suspected class were in stores, save two, which were dwellings. In nearly every case the property was over insured.
The Palatine Fire Insurance Company of London, to-day filed an application for license to do business in North Carolina.
The talk today was about the chief justice ship. Some papers, Democratic papers, are arguing that Gov. Russell take the place, others are antagonizing it. Republicans are divided. The governor of course wants all of the endorsement to be had. There was a movement for an endorsement by the Raleigh bar, but it is said one man stopped this. Charles A. Cook, who has been next after the Governor, most prominently mentioned in connection with the appointment, said Tuesday he was going to Oklahoma. It is understood that he has a \$5 a day position in the last office there promised him by the interior department. One of Cook's friends said he might take the place right away, or if he were given the chief justice ship might wait two years and then take it. A cartoon went the rounds today representing Russell, governor, giving Russell, chief justice, a commission.
It is claimed that Senator Fritchard is favorable to Gov. Russell's having chief justice.
The State charters the Norwood Cigar Company, of Raleigh, capital \$30,000, allowing it to make cigars, cigarettes, cheroots and smoking tobaccos also charters the American Telegraph and Telephone Company of Raleigh, capital \$15,000. Edward J. Hale of New Jersey being the chief stockholder. It is said this is really the Bell telephone under a new name. The charter of the Anson Oil and Lining Company is amended so to increase the capital stock to \$50,000, change the name to the Anson Oil and Lining Company and allow it to manufacture commercial fertilizers.
Henry A. Page, president of the Aberdeen & Atlantic railway, says that by Feb. 1 he will complete the branch to Jackson Springs.
The very heavy payments to lawyers employed by the State continue. Yesterday some \$500 was paid. There was one fee of \$1,000 and two of \$1,000 each. There is quite an outcry against these payments. It is said the new administration will stop them.
Kaiser Is Pleasured.
Raleigh, Jan. 3.—During the New Year's reception at the Palace Emperor William suggested United States Ambassadors for White in conversation, expressing his satisfaction that the Chinese question was nearing a solution.
His Majesty also referred with pride to the development of Germany's commercial marine, particularly interesting the steaming plying between Germany and the United States.

FOR LOWER WAR TAX.
Tremendous Pressure From Constituents Upon Congressmen.
New York, Jan. 3.—The opening of New Year books has increased the pressure upon Congressmen for some revenue changes.
Senator Aldrich, Republican of Rhode Island, has already received more than 3000 letters relating to the abolition of taxes upon bank checks and other negotiable paper. It is pointed out that the redemption of unused parts of a stamped check-book would be inconvenient, some writers advising the continuation of these stamp tolls until December 31 next in order that no change need be made in this year's supply of books.
The first meeting of the Finance Committee to consider this subject will not be held for a week, several of its members maintaining that until the Senate has acted upon important measures like the Subsidy bill, it will be impossible to tell how much revenue can be spared.
The pressure of the brewers for further reduction continues to embarrass the situation. They have already received two concessions, a reduction from \$1.65 net to \$1.00, and the abolition of the rebate system so that the latter rate is a flat one.
When threatened by pneumonia or any other lung trouble, prompt relief is necessary, as it is dangerous to delay. We would suggest that One Minute Cough Cure be taken as soon as indications of having taken cold are noticed. It cures quickly and its early use prevents consumption. F. S. Duffy & Co.

Cape Fear Menhaden Fishery.
WILMINGTON, Jan. 3.—The lower Cape Fear is to have a Menhaden fishery similar to those which have proved so profitable on the Delaware river and along the Chesapeake Bay. A number of men began work this week at Pikes Creek, two miles this side of Southport, making ready for quarters to be used by fishermen, and operatives in factory. The buildings for machinery and the oil tanks will be commenced very soon, also a wharf twelve hundred feet long. The work to be done under the direction of B. H. Milligan, of Crossfield, N. C., representing a company of North Carolina capitalists, who have about \$4,000 investment in the business. It is believed that the returns will be handsome. A fair business will be several thousand tons a year. Capt. Milligan says that fully this amount can be caught in the shoals at the mouth of the river and the sea outside. Profitable employment will therefore be given to dozens of little shrimpers, owners of which ordinarily find it difficult to make them profitable. One hundred people will be employed in catching and handling the fish. "Menhaden," which are variously called "fat-backs," "brink" and "ale-wives" are not a food fish, being used mainly for fertilizer purposes. The Virginia-Carolina Chemical Company's plant consumes many tons of them yearly and has been getting its supply from Lewis, Delaware.

The New Cup Defender.
PROVIDENCE, R. I. Jan. 3.—The Evening Telegram today printed illustrated plans of the new Hershoff cup defender. The length and beam will be greater than the Columbia's or Defender's while the draught will be less, the form easier, the power largely increased and the speed estimated fully eight minutes better over a 50 mile course than the Columbia's. In the new Defender, while sticking to the fixed centreboard type, Designer Hershoff is placing more reliance upon the beam and the location of the bulb fin than upon any other feature of the yacht's original line.
The keel is not so deep by half a foot and so thicker than the Columbia's at the widest part just aft the forefoot. From a diameter of about 24 inches at the shoulder, it tapers back to where the stern post will be fixed on the easy lines to a width of six inches. Its greatest diameter will be lower than the Columbia's and placed fully two feet forward of the point where the Columbia's keel shows greatest width. The change is supposed to give even more self-carrying power than quickness in stays, which is its principal object.
From the top of the keel forward the bronze stem will rise gently outward to a low stay and then turn upward at a sharper angle than the Columbia's low stem.

Another Warning to Cudaby.
OSAMA, January 2.—Another letter printed with a lead pencil, was received by E. A. Cudaby this afternoon demanding the withdrawal of the reward for the kidnapers. The letter demanded the withdrawal of the Cudaby offer of reward and of the city's offer as well under penalty not only of trouble for the children, but the destruction of the entire Cudaby family. The epistle closed with an injunction to "heed this warning."
In spite of the two rewards which have been offered for the arrest and conviction of the kidnapers, their secret is still well kept.

THE SUN 1901
BALTIMORE, MD.
The Paper of the People, For the People and With the People.
Honest in Motive, Fearless in Expression, Sound in Principle.
A newspaper is an educator; there are all kinds of educators, but the man who spends money judiciously and liberally is better able to impart his knowledge than the man who has "little or nothing to spend."
The Sun is the highest type of a newspaper.
The Sun's Special Correspondents throughout the United States, as well as in Europe, South Africa, China, and in fact, all over the world, make it an up-to-date newspaper.
The Market reports and commercial features put the farmer, the merchant and the broker in close touch with the markets at Baltimore, Norfolk, Charleston, New York, Chicago, Philadelphia and other places which are prominent centers.
From now on the news of the world promises to be more interesting than ever before and national and political questions will arise, making probably the most eventful period in the country's history.
This, together with the corps of editors and reporters at Baltimore, Washington and New York, make The Sun invaluable to its readers.
By mail Fifty cents a month, six months \$3; one year, \$5.
