CONGRESSMAN SMALL ON INLAND WATER WAY.

It is ever a matter of satisfaction to note the efforts of a representative elected to office, and to feel satisfied that his efforts are made not merely for duty or party's sake, but are inspired by motives looking to the interests of all the people of his district if, not State.

In Eastern North Carolina, the JOURNAL has long recognized that favorable legislation, both State and National, in behalf of this section's interests, was always hard to secure.

For Eastern Carolina to a great extent is an unknown territory. It has been set down as an unhealthy section, and its peculiar geographical position, with its communities small and widely separated, has kept it to a great extent beyond the knowledge of all except the few.

In the Congressional action on the River and Harbor appropriation bill, John H. Small, Congressman from the First District, North Carolina, made an able presentation of the needs of his district, and this section, in the matter of an appropriation to make an inland water way from the southern terminus of the Disraeli Swamp Canal to Beaufort Inlet, a distance of two hundred and eleven and one half miles.

The importance and need of this inland water communication is ever felt by the commercial interests of this section, Eastern Carolina, and in times of war it has always attracted the attention of the National government, as being needed, but with the war over, the project is again neglected.

As Congressman Small very ably pointed out in his speech before the House, this inland water way is not local, any more than it is National in its importance, for with such a water way, the terrors of Cape Hatteras are escaped and to be able to escape the dangers of Hatteras is a problem which is almost international in its importance.

While no immediate work on this inland water may be commenced just at present, it is just such a presentation in public, and work before the committee, as done by Congressman Small, as will ultimately bring the desired result, of an appropriation, and the accomplishment of the system of water way as now projected.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & Co., Toledo, O. Sold by druggists, 75c. Hall's Family Pills are the best.

Hook—My wife is the salt of the earth. Joak—So was Lot's wife.

The merited reputation for curing piles, sprain and skin diseases acquired by DeWitt's Witch Hazel Ointment, has led to the making of worthless counterfeits. Be sure to get only DeWitt's Ointment. F. J. DeWitt & Co.

Extreme heat when a dinner includes cold meats and cold soup.

A Deep Mystery. It is a mystery why women endure Backache, Headache, Nervousness, Sleeplessness, Melancholy, Fainting and Dizziness when thousands have proved that Electric Bitters will quickly cure such troubles. "I suffered for years with kidney trouble," writes Mr. Phoebe Cherry, of Putnam, Ia., "and a lemon juice and soda water cure did not help me, and, although 71 years old, I was able to do all my housework." It cures nervous Constipation, improves Appetite, gives perfect health. Only 50c at C. D. Bradham's drug store.

PASSING OF THE BELL.

No Longer Used to Record the Joys and Sorrows of Humanity.

The solemn and impressive custom of announcing death by the tolling of the church bell will soon be but a vague and distant memory.

The passing bell has itself passed away, and its slow measured accents no longer tell the story of the departure of one more soul.

The bell's voice is identified with all the deepest and most sacred human emotions. It has betokened the joys and sorrows of all mankind for centuries. Is its voice to die away and have no part in the life of the future? The wedding bells ring out no more save in some song or story. The Christmas chimes are seldom wafted to our ears. The church bells ring but faintly now and under constant protest.

QUARRIES OF OLD EGYPT.

Where Slaves For Pyramids of the Desert Were Procured.

On the way to Philae and the head of the cataract, a short distance south of Assuan, we came upon the ancient quarries which supplied the granite for the columns, statues and obelisks throughout Egypt for many centuries.

An obelisk which we saw lies in its native bed. It is 20 feet in length, and three sides have been carefully cut, but for some unknown reason it was never separated entirely from the parent rock.

From illustrations in the temples it is clear that these great monuments were floated down the river on rafts and then carried inland by artificial canals or dragged overland by thousands of slaves.

In one of the tombs at Beni-Hassan is a picture illustrating the process. The great stone is loaded upon a huge sled drawn by a multitude of workmen. One man is engaged in pouring water upon the runners to prevent friction; another stands at the left of the statue and beats time, that the men may work in unison, while overseers, provided with whips, urge the laborers to their task.

What was that noise we heard, "Abe?" asked the mother. "Nothing much," replied "Abe." "I knocked over a bottle of milk and it rolled down the steps and spilled."

What was that noise we heard, "Abe?" asked the mother. "Nothing much," replied "Abe." "I knocked over a bottle of milk and it rolled down the steps and spilled."

Nervous Prostration.

A Noted Boston Woman Describes its Symptoms and Terrors.—Two Severe Cases Cured by Lydia E. Pinkham's Vegetable Compound.

"I am so nervous! no one ever suffered as I do! There isn't a well inch in my body. I honestly believe my lungs are diseased, my chest pains me so, but I have no cough. I am so weak at my stomach, and have indigestion terribly, and palpitation of the heart; am losing flesh; and this headache and backache nearly kills me, and yesterday I had hysterics."

"There is a weight in the lower part of my bowels, bearing down all the time, with pains in my groins and thighs—I can't sleep, walk, or sit, and blue—oh goodness! I am simply the most miserable of women."

This is a most vivid description of a woman suffering with nervous prostration, caused by inflammation or some other diseased condition of the womb.

No woman should allow herself to reach such a perfection of misery when there is no need of it. Read about Miss Williamson's case and how she was cured.

Two Bad Cases of Nervous Prostration Cured. "DEAR MRS. PINKHAM:—I was suffering such tortures from nervous prostration that life was a burden. I could not sleep at all, and was too weak to walk across the floor. My heart was affected so that often I could not lie down at all without almost suffocating. I took Lydia E. Pinkham's Vegetable Compound and it worked like magic. I feel that your medicine has been of inestimable benefit to me."
