EXTRA PAY.

Allowed Commissioners of Craven County.

Dees of Pamlico, Keeps His Seat. Protecting Deer in Onslow. Libel Law and Insurance Bill Pass Final Readings.

Special to Journal.

RALEIGH, January 26.—The House bill allowing Craven county to levy a special tax passed second reading in the Senate.

The House election committee reported in favor of Geo. Dees, the sitting member from Pamlico county. The bill passed the House allowing Craven county Commissioners extra pay for services. The bill was adopted allowing Jones county commissioners to appoint cotton weighers, also bill to protect deer in Onslow county.

In the Senate today, various committees on apportionment of Districts were announced, respectively, Chairman J. A. Brown, for Congressional; Cameron Morrison, for Judicial.

The libel law bill passed its final reading, also bill to protect insurance policy holders, by allowing the person insured, in case of loss, to bring new action at any time within a year after non suit or dismissal, notwithstanding any limitation of time there may be in the policy.

Bill passed the House giving Superior courts jurisdiction in cases of cruelty to animals, this being now vested entirely in magistrates.

There was a lively discussion on the bill taxing dogs fifty cents, the tax to go to the public schools.

McLean, the member from the new county of Scotland, protested indignantly. He said amid great laughter, "North Carolina has come to a pretty pass, if children have to be educated out of the pockets of dogs. If these lawyers here are going to tax dogs, I now give notice that I will introduce a bill to tax cats."

The bill passed incorporating the security Life and Annuity Company of Greensboro.

The Senate tabled the bill to eliminate Negroes and Indians in making appointments of districts.

RALEIGH.

To Favor State Banks. Revise School Law. Power Again for Governor. City Water Supply.

RALEIGH, January 26.—An official of a State bank has written a letter to each member of the legislature, saying that a bill will be introduced in the legislature directing the State Treasurer to make all deposits in State banks, and intimating that in this way State institutions will be fostered, as if there were any difference between State and National banks. Home people own stock in both classes of banks, and the State gets taxes from them.

Prof. Pratt of Chapel Hill, of the United States geological survey was here today and exhibited a Confederate half dollar, made at New Orleans in 1861. It is one of four which were mislaid there.

There are only two bidders for the public printing—the two Raleigh firms who do the work and a Goldsboro firm.

In the house yesterday there were very caustic criticisms of a Resolution board. The criticisms referred to the fashion board. The Democrats stopped all the abuses in 1899, when they got control.

The merchants association of Raleigh at its meeting last night specially considered the last way of developing the leaf tobacco trade here. Raleigh began to be a market in 1885 and sells now less than it did then. There is now only one leaf warehouse open.

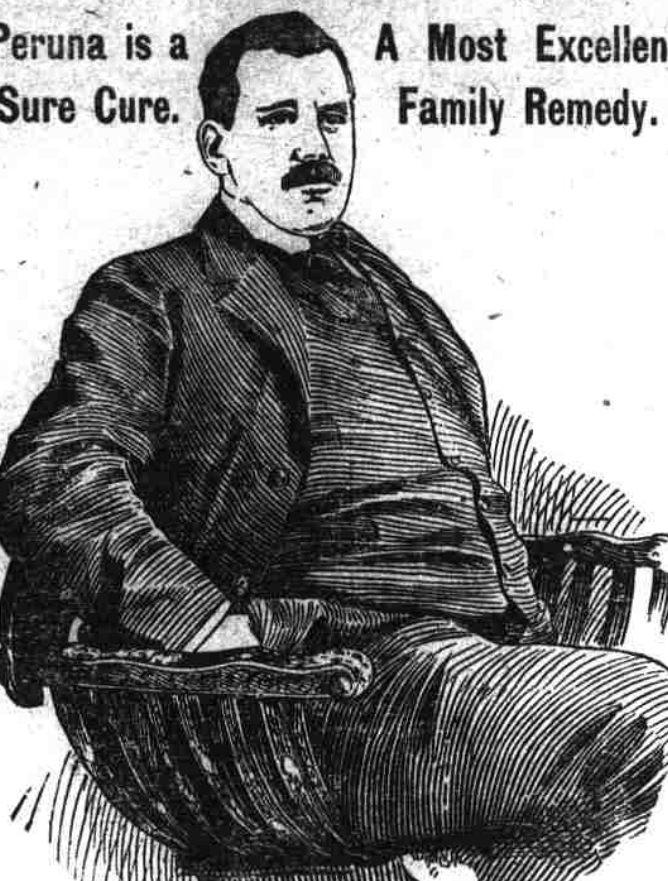

The State board of pharmacy licenses the following as pharmacists: J. L. Williamson, and W. H. Aldister of Richmond, Va.; H. A. Phillips, of Asheville; George Nottingham and Thomas K. Simpson of Raleigh; Vernon Fox, of Hendersonville; J. H. Cuthbert, Jr., of Whitehall; E. B. Peary, of Edenton, out of 15 applicants.

The State Superintendent of public instruction is at work on revision of the present public school law, so as to make it available and less cumbersome. He says his plan is to make the county board of directors, the county superintendents and one committee-man in each district responsible and further to give the county superintendents more authority and pay and require him to personally visit all the schools.

Mr. Carnegie is very desirous of establishing the circulating library idea so as

FOR COLDS AND CATARRH

Peruna is a Most Excellent Family Remedy.

Mr. HARRY M. STEVENS, MIDLAND BEACH, L. I.

Mr. Harry M. Stevens, Midland Beach, L. I., New York, proprietor of "The Richmond" Hotel says of Peruna: "It gives me pleasure to testify to the value of Peruna. I have used it for years and have found it to be a most excellent family remedy. For colds, catarrh and similar ills, it is unsurpassed."

Mrs. C. E. Long, box 214, Atwood, Colorado, in a recent letter to Dr. Hartman, says the following:

"We can never thank you enough for the change you have made in our little one's health. Before she began taking your Peruna and rock candy she suffered everything in the way of coughs, colds and croup, but now she has been taking your medicine a month, not quite one bottle full, and she is as well and as strong as she has ever been in her life. Has not had the croup once since she began taking it, and when she has a little cold a few doses of Peruna fixes her out all right."

Mrs. Nellie Courter, 14 Center avenue, Norwalk, Conn., writes: "Peruna has done wonders for my boy. I cannot praise it enough. I think it is the best medicine on earth; let me tell you why I think so: My son has been afflicted with catarrh since he was a baby five months old, so that for years I had to watch him all night long, and keep his mouth open so he could breathe, as he could not breathe through his nose. He has always been very delicate.

"Since he commenced taking the Peruna I can go to bed and sleep all night. He can breathe through his nose any way he likes, and all that hawking and spitting is gone. My boy is as well today as when he left off taking it, and he only took one bottle."

T. T. Lienallen, a prominent young lawyer of Washington, D. C., and brother of W. G. Lienallen, in the U. S. document room, has taken Peruna for catarrh and speaks of its efficacy in the following words. Mr. Lienallen says: "I am happy to write you that I am cured of what I thought, as well as my doctors, an everlasting case of catarrh, and take pleasure in saying that Peruna has done it all."

Any one who wishes perfect health must be entirely free from catarrh. Catarrh is well-nigh universal; almost omnipresent. Peruna is the only absolute safe guard known. A cold is the beginning of catarrh. To prevent colds, to cure colds, is to cheat catarrh out of its victims. Peruna not only cures catarrh, but prevents it. Every household should be supplied with this great remedy for coughs, colds, etc.

Address The Peruna Medicine Co., Columbus, Ohio, for a free book on catarrh.

A QUESTION TO SETTLE.

Will our Citizens Aid and Encourage the Continuance of our Fairs.

In December last, our citizens were called to assemble at the court house to consider a matter of vital interest to the community and section, that of devising the ways and means of encouraging and supporting our Fair Association in its future operations. At this meeting it was resolved that if the citizens of our city would subscribe for and take a sufficient number of shares of the stock of the association to pay off the present floating indebtedness, that this means would enable the management to continue their exhibitions for the future and save the association from liquidation.

A committee was appointed to solicit subscribers to this stock, and place it in the power of our people to preserve to themselves and their section, an enterprise of incalculable benefit to their commercial prosperity.

A short sketch of the life of this association may indicate to our people the present conditions surrounding the institution, and may enable them to choose between its support or dissolution.

During the year 1894, on the present Graded School Grounds in our city, a small fair was held with a view of presenting to the people of Eastern North Carolina evidence of our products, both of land and water, our agricultural advantages as well as the productions of workman-ship and skill, created and produced by the people of our section. This modest and humble experiment met with such encouragement, that many of the leading citizens of our county and town conceived the idea of incorporating a Fair Association, whose object and business would be to promote the interest of Eastern North Carolina, to advance and encourage husbandry, agriculture, trade, stock-raising and domestic manufacture, and to promote the cultivation and increase of fish, oysters, and game on the land and waters of Eastern Carolina, as well as to encourage the productions of painting, drawing, book-work and the fine arts, and generally, to promote and encourage the progress and advancement of the section by exhibits and annual fairs.

And early our people can bear testimony of how well and successfully the objects of this Association have been fostered and carried out.

This community has undoubtedly received her full benefit and share from the efforts of the Association, and in the objects of its organization, an institution has been more successful. No stockholder has received a dividend or an office salary. Here the secretary and treasurer alone, for whose labors offer as a claim on the association, are the only ones who receive salaries. The entire management, working for the good of a common whole, and composed of a spirit of patriotism, devoted their business skill and energies to the welfare of their city and section.

Upon the organization of the Association, a small committee was appointed, and was composed in the city at a sum of \$100.00 of which \$50.00 was paid in cash and the balance of \$50.00 secured in a bond by note and mortgage.

At the time of this purchase, the grounds selected, contained only the brick building now used as the main hall with the small brick office adjoining, now used as the keeper's lodge, and the directors and managers proceeded at once to erect and construct the necessary buildings, consisting of machinery hall, and stables for stock, and shortly thereafter, a race course being demanded to meet the increased attendance of people from all sections of this and adjoining States the lots immediately adjoining the grounds of the Association were leased, and a handsome and commodious grand stand erected, together with the necessary track hands mly laid out and graded. The reputation of our annual Fairs rapidly growing and extending, additional demands were made for more commodious stables pens, and buildings for stock, and structures for exhibits and entertainments.

These demands were responded to in a most substantial manner, and for the purpose of raising sufficient revenue for the cost of erecting the race course and grand stand, bonds were issued, drawing interest annually, to be met and paid from the proceeds of this special property. These bonds and the debt upon the grand stand and race course has been paid off, and discharged, leaving now the entire proceeds from this valuable and lucrative source of profit, open to the general funds of the Association.

The necessary expenditures from year to year upon the betterments and permanent improvements of all kinds placed upon the grounds of the Association, of course absorbed the actual receipts from the annual Fairs held, leaving the Association in debt at the close of each exhibition which necessarily had to be met and provided for, and to meet the aggregation of indebtedness arising from the improvements mentioned, the stockholders issued a series of bonds, amounting in the aggregate to the sum of three thousand dollars, and to liquidate the then existing floating debt, sold and issued life certificates at the rate of \$50.00 each to cover the deficiency between the actual receipts of the Fair and the sums expended for permanent improvements. By means of the permanent improvements placed upon the grounds and premises of the Association the value of the property of the Association has increased from the original value of \$400.00 to the sum of \$1100.00 and located as the property is, in the very corporate limits of the city, beautiful in location and surroundings, it has become an investment in which the stockholders and citizens generally can feel a just sense of pride, and is a property, the value of which, renders the present efforts of the directors and present stockholders, something more than a desire to foster and cherish a valued enterprise, but with a debt only of \$700.00 resting upon a property conservatively estimated at \$1100.00, offers a reasonably safe venture for the purchasers of the stock now offered to our citizens, as the proceeds from the sale of these shares, will be at once devoted to the payment of all existing debts of the association, and will leave it free of all debt at the commencement of the next annual Fair, except the mortgage debt of \$-00.00 already mentioned.

It is what of this Association has accomplished much good to our community, in the way of
