WIDE SPREAD.

One Case of Small pox in Baptist Female University.

Disease Closely Guarded. Pupils all Vaccinated. Jarvis Strongly Against Impeachment. The Arsenal Removal. Furches' Counsel.

RALPH, February 13.—Two years ago small pox was discovered here, brought from Norfolk by negroes, who kept the fact concealed. Negroes from Durham have brought the disease again. Three of them are sick with it, in the extreme eastern part of the city. Vaccination here is quite thorough. The one case at the Baptist Female University is not in the main building. There was a quarantine guard of six last night and two today. No one save the physician is allowed to enter or leave the premises. All the students are vaccinated. The legislature was to have attended a concert at the University Monday but a caucus rendered postponement necessary. The cause of the disease there was brought by one of the negroes alluded to as sick. She was employed in the school.

The State board of health is advised of a bad outbreak of small pox in Greene county. It is now in over a dozen counties.

Ex-Gov. Jarvis takes strong ground against the impeachment of the judges. He takes the view, held by not a few other leaders, that Chief Justice Furches' office now is a different one from that he held when he issued the mandamus. Then he was associate justice.

The selection of the State printer is now placed in the hands of the State officers, no longer by the legislature. Governor Aycock decides to recommend the removal of the arsenal from the capitol square and building of a new one and a hall of records nearby on the lot bought two years ago by the State.

It is rumored that if there is impeachment Justice Furches' Counsel will be Frank Osborne, Spier Whitaker and F. H. Busbee, certainly three men of very marked ability.

Like bad dollars, all counterfeiters of DeWitt's Witch Hazel Salve are worthless. The original quickly cures piles, sores and all skin diseases. F. S. Duffy & Co.

Filipinos Seem Better Disposed.

MANILA, February 12.—Bacolor and all the towns adjacent to the railroad, whose names are historical on account of the fierce battles of the earlier periods of the American occupation, turned out to welcome the United States Philippine commission as it proceeded northward, on its first trip to organize provincial governments. At every station, including the hamlets, where the train did not stop, there were bursts of music from the native bands and cheers.

An insurgent colonel, Simpson Techon, with 99 guns, have surrendered unconditionally.

The One Day Cold Cure. Kromer's Chocolate. Laxative Quinine for cold in the head and sore throat. Children take them like candy.

AT THE UNIVERSITY.

Students for the Law Examination Displeased. The College Annual.

CHAPEL HILL, Feb. 13.—Judge MacRae, dean of the University law school, expresses himself highly pleased with the result of his class, which stood before the court for a license last Monday. Sixteen young men from here applied. Of these, only eight received the certificate from the University, and fourteen of the class obtained license. There was much complaint of the Supreme Court examination among the young men who applied. They claim that it did not cover the course and was entirely too technical.

The fraternities and the literary societies of the University have reached an agreement by which they will publish a large College Annual this year. Heretofore the fraternities alone have gotten out the Annual. It is believed that under the present arrangement the Annual will be much larger and better than it has been in the past, since it is to represent every phase of the life of the institution.

Persons who can not take ordinary pills find it a pleasure to take DeWitt's Little Early Risers. They are the best little pills ever made. F. S. Duffy & Co.

Necley Trial in Havana.

HAVANA, Feb. 13.—The testimony already submitted on behalf of the government in the case against G. F. W. Necley, the alleged postoffice ambassador, covers more than 2,000 typewritten pages. This represents, however, only a portion of the whole evidence to be presented and witnesses are being examined daily.

TIMBER TRESPASS.

Bill Amended in the Senate. Practical Farmer Bill Passed.

SPECIAL TO JOURNAL. RALPH, Feb. 13.—A long discussion ensued in the Senate today upon the bill amending the law in regard to trespassing on timber lands. The committee offered a substitute on Senator Ward's bill and the substitute was adopted by the Senate. The bill requiring only practical farmers to be eligible to election on the Board of Agriculture was passed.

Three Prisoners Recaptured.

SPECIAL TO JOURNAL. RALPH, Feb. 13.—Three of the prisoners who cut their way out of Durham jail have been recaptured.

Committee On Congressional Districts.

SPECIAL TO JOURNAL. RALPH, Feb. 13.—This afternoon the joint committee on Congressional districts met, to arrange the plan for dividing the State into 10 districts. There are 3 or 4 bills before the committee. It is claimed that two of them make all the districts surely Democratic though this is denied by some.

There is always danger in using counterfeits of DeWitt's Witch Hazel Salve. The original is a safe and certain cure for piles. It is a soothing and healing salve for sores and all skin diseases. F. S. Duffy & Co.

MANY PENSION BILLS.

One Thousand before The Legislature. Boards of Applications.

SPECIAL TO JOURNAL. RALPH, Feb. 13.—There are about 1000 special pension bills before the legislature today. A number of these are for increase of pension save one to give soldiers pensions who under the general law are not entitled to them, and some one without any merit at all. Such is the comment made by officials. There is a county pension board, of veterans, in each county, which passes on applications, and sends them up to the State board. There is a disposition evidently on the part of some legislators to ignore these county boards. This has been the case for several years, and officials say it is unfortunate.

THE MODERN WAY.

Commends itself to the well-informed, to do pleasantly and effectually what was formerly done in the crudest manner and disagreeably as well. To cleanse the system and break up colds, headaches, and fevers without unpleasant after effects, use the delightful liquid laxative remedy, Syrup of Figs Made by California Fig Syrup Co.

American Bids Are Lowest.

LONDON, Feb. 12.—A Parliamentary paper, issued tonight, complies with the House of Commons' request of December 14 for the American and British bids for 30 bridges on the Uganda Railroad. An American company agreed to erect the bridges in 46 weeks. The lowest English bid for the delivery of the material on board ship at London was 80 weeks. The American company offered to lay down the material at any British port for \$26 less than the average price of the British company's delivery in London. The American company agreed to the bridges for \$90 per ton, only \$10.50 more than the average British price for delivery in London.

One Hundred Years Hence.

WASHINGTON, D. C., Feb. 13.—An illustrated official programme will be a unique feature of the coming inauguration. Among a number of interesting articles which will be included will be an account of the inauguration of the year 2001, at which time the author assumes the United States will have acquired the whole of the Western Hemisphere. It is assumed that the President, a Montreal man, will have 40 Cabinet members to appoint; that the Senate will consist of 500 members and the House 800, and that Washington on that day will entertain 3,000,000 visitors, most of whom will view the inaugural parade from air-ships.

Millions of people are familiar with DeWitt's Little Early Risers and those who use them find them to be famous little liver pills. Never gripe. F. S. Duffy & Co.

DEARBY LUCY—Your advice was followed, and it worked like a charm, so much so that I am now entirely well, and have been off to New York. Upon returning home I found "Hubby" had a red hot fire waiting for me and he told me the wood came from Moore's Wood Yard. Ever your friend, MARY.

Celery Headache Powders.

There is not any better remedy for headaches than these powders. They never fail to relieve. Made and sold only at Davis' Prescription Pharmacy.

AN AMNESTY BILL.

Passed the House. Bill Introduced Providing For Compulsory Education.

SPECIAL TO JOURNAL. RALPH, Feb. 13.—The bill granting amnesty to Republicans and Populists indicated for violating the election law was passed in the House today. A bill was introduced in the House today providing for compulsory education in any county, city or town, upon an affirmative vote of the majority of the qualified voters of said place.

American Soldiers Come High.

WASHINGTON, Feb. 12.—The House today passed the army appropriation bill and entered upon the consideration of the sundry civil bill, the last but one of the big money bills. The debate on the army bill was confined largely to a discussion of the question of passing bills to remove the charge of desertion against soldiers and was much notable by a statement of Mr. McClellan, of New York, comparing the cost of the soldier in European armies with the cost in the United States. According to his figures, including the cost of pensions, etc., each United States soldier involved an expense of \$2,828, while a German soldier costs \$277 and a French soldier \$212.

The Shrinkage of England.

With regard to the east coast a sorry story has to be told, the county of Yorkshire, for instance, from Bridlington to Spurn Head, has been disappearing. It is calculated, at an average rate of six feet a year. It is said that careful observation of a certain 12 mile stretch shows that the cliffs 40 feet high have been eaten away by the waves for 132 feet in 40 years. It is, however, at Spurn Head that the greatest ravages have taken place.

In Edward I's time the village of Ravenspur, a seaport near Spurn Head, sent more than one member to parliament; in 1350 and 1471 Henry IV and Edward IV, respectively, landed there, but very soon after the latter's visit the entire town was swept away by the sea. Today the village of Kilton alone stands upon the head, the old site of the village, once a fair place on a hill, with a fine old church, destroyed by the waves in 1826, is now some hundreds of yards below high water mark, and when New Kilnsea joins it the sea and the Humber will not take long to destroy the entire promontory and make things very unpleasant at Grimsby.—Good Words.

One View of Our Women.

American women separate themselves more each year from the life of the country and affect to smile at any of their number who honestly wish to be of service to the nation. They, like the French aristocracy, are perfectly willing, even anxious, to fill agreeable diplomatic posts at first class foreign capitals, and are naively astonished when their offers of service are not accepted with gratitude by the authorities at Washington. But let a husband propose to his better half some humble position in the machinery of our government and see what the lady's answer will be. A New York woman was transplanted to a western city, where she was told that "the ladies of the place expected her to become their social leader." "I don't see anything to lead," was the amiable response.—From Elliot Gregory's "Worldly Ways."

No Family to Boast Of.

Miss Carolina—In Mr. Burbank a man of family?
 Miss Virginia—Not that anybody knows of.
 Miss Carolina—Somebody told me that he is the father of several children.
 Miss Virginia—Has a house full of them, but he can't trace their lineage beyond his common old grandfather.—Dancer News.

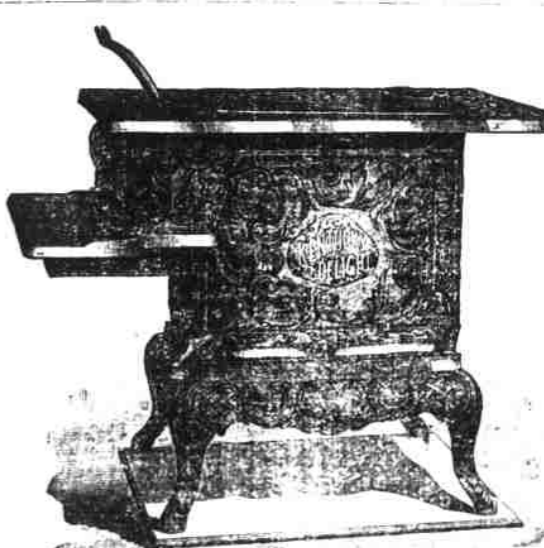

Time It Was Killed.

Particular Diner—This fish, waiter—Truthful Waiter (promptly)—Was killed this morning, sir.
 Particular Diner (approvingly)—You did quite right to kill it, because it had been on shore so long that it must have forgotten how to swim, and would have been drowned if it had ever gone to sea again.
