UNTIL THURSDAY. Trial of Impeachment Postponed On Account of Pressure of Business.

Seats Arranged In Senate Chamber

For the Trial. House Will Take Recess During the Trial

Special to Journal.

RALEIGH, March 11 .- The Senate met as a Court of Impeachment, as it was the day set for the beginning of the trial of the Judges.

The Senators were resworn as members of the court. The court then adjourned until next Thursday by which time it is expected that the business of the Legislature will be ended.

The pressure of Legislative business is so great that but little could have been done in the trial, as the Senate's time would be practically all taken up. The seats in the Senate were entirely rearranged today, so as to give the accused judges and their counsel and the House board of managers and their counsel seats in the centre.

The judges do not raise any question as to the right of the Senate to sit after he regular legislative session ends, as a ourt of impeachment, or its right to be oald as a court. The House resolution names \$4 a day as the pay, but really it is not limited. The House will not adjourn sine die but will take a recess unil about April 1.

SURRY COUNTY DISTURBED.

Why They Claim That Gov. Aycock Appointed the Solicitor.

Special to Journal. RALEIGH, March 11.-Letters today from Surry county tell of a great state of affairs. At the last election Mr. Dobon was elected solicitor of the Criminal court from that county. He did not apply for his commission until after Gov. Aycock took office. The latter then issued the commission, as he did that of Senator Simmons and those of the Congre-smen, because they were elected Now many people in Surry are raising a

At this season the housekeeper must look specially after the baking powder.

As she cannot make good cake with bad eggs, no more can she make cake that is light, delicious and dainty with inferior baking powder.

Royal Baking Powder is indispensable for the preparation of the finest food. It imparts that peculiar lightness, sweetness and flavor noticed in the finest cake, biscuit, doughnuts, crusts, etc., which expert bakers say is unobtainable by the use of any other leavening agent.
