DEFENSE OPENS.

Ex-Judge W. P. Bynum, Jr.,
Speaks Three Hours.

Arguments Presented. Chief Justice Furches on Stand in Afternoon Gives History of Case. Under Examination at Adjournment.

Special to Journal.

RALEIGH, March 18.—In the impeachment case, at the morning session, ex-Judge W. P. Bynum, Jr., opened for the defense, speaking three hours. Strict attention was paid to his careful argument.

Mr. Bynum said the case resolved itself, first, have the Justices violated the constitution of North Carolina; second, if they have, was such violation with willful intent.

The White case was reviewed from the beginning, and Mr. Bynum said that the doctrine that office was property had stood for sixty years, and that White's salary was not a claim against the state, in the reputed meaning of the claim.

At the three o'clock session, Chief Justice Furches took the witness stand, and under questions of his counsel, gave a history of the case, containing some interesting details concerning Chief Justice Clark. He denied that any decisions had been made for political reasons.

While Mr. Furches was under examination by the prosecution, the court adjourned until tomorrow.

While many of the Senators express their belief that the trial will end with this week, yet there is quite an idea that it will go over into next week.

See that you get the original DeWitt's Witch Hazel Salve when you ask for it. The genuine is a certain cure for piles, sores and skin diseases. F. S. Duffy & Co.

WILL HARDLY MEET.

Speaker Moore Thinks Legislature Will Not Return to Raleigh.

Special to Journal.

RALEIGH, March 18.—Speaker Moore of the House left for home today. He was asked whether he thought the legislature would meet again April 8, the date to which it had adjourned, and replied that he had no idea it would meet; that for his part he did not expect to come back. He said the adjournment to that date was merely to guard against any contingency. He said the session had been very trying and that he was glad to get away, as during the past 15 days he had lost weight at the rate of something like a pound a day.

Their promptness and their pleasant effects make DeWitt's Little Early Risers most popular little pills wherever they are known. They are simply perfect for liver and bowel troubles. F. S. Duffy & Co.

THE IMPEACHMENT.

Are the Judges Amenable for a Strictly Technical Infraction of Constitution.

Special to Journal.

Raleigh, March 18.—The significance of the tremendous legal battle in the impeachment trial Saturday can only be realized when it is considered that the real issue was shall the Judges be held amenable to trial for a strictly technical infraction of the constitution, or can other facts and circumstances be written and after, the issue of the writ of mandamus in the White case be passed upon by the Senate in making up its opinion?

No Fair Would be a Calamity.

Raleigh Post 17th. The Post is gratified to see that what threatened to be a calamity to New Bern will be averted. For some time the indications were that the annual fair would have to be abandoned, but through the persistent and patriotic efforts of the Journal and a few other enterprising citizens the community has come to appreciate the situation and have subscribed to a fund necessary to make it a success.

As we say, we cannot but think that the failure to have this fair annually would be a calamity, not only to New Bern, but to that entire section of the State. The exhibits which are made on such occasions are not only representative of the productive energies of the people, but are unique for their comprehensiveness, embracing agricultural and mechanical, forest and field, the birds of the air as well as the fish of the sea in profuse variety and superior quality. Each fair was an object lesson which was worth many, many thousands of dollars to the section.

We are gratified therefore, as a North Carolinian, that so useful an institution will be maintained.

RALEIGH.

Simmons Said to be the Mainspring of Prosecution.

Large Preparation of Land For Crops. Clerk Martin's Stralings. Legislature Had Too Many Employees For Work Needed.

RALEIGH, March 18.—The extent of the preparation of lands for crops in this section is astonishing. It is said that never before was so much ploughing and clearing of lands done by March 18. The Legislature has enacted a law for free libraries for the public schools. The school at Pineville, Mecklenburg county, has the honor of being the first to make formal application to the State Superintendent, under this law.

It is found to be true that Maj. Martin the defaulting ex-clerk of the State treasury, stole all the penitentiary vouchers for 1900. The State treasurer has gone back as far as June 27, 1899, in Martin's accounts. He found \$348 stolen in November, 1900. Martin said he had made later stealings to cover up former ones. When ex-treasurer Worley asked him if he had begun stealing as soon as he went into the office, four years ago, he said he couldn't remember.

It is said by one of the most prominent men in the State that Chairman Simmons, who is always like an electric force, was the "mainspring" of this prosecution; that the plan and inception of it were his, and that he had "vitalized" it. This was a very high compliment to his ability as a moving force, whatever may be said as to the good or bad judgment in instituting such a proceeding. The chairman is on the ground daily.

The Legislature had too many employees. It was a source of amusement at the session just ended to see what a lot of drones there were as employees. Some were active, but some did not earn their salt. The dirty balls and roundabouts and passageways told the story of their idleness. These were "party" workers. This was their reward. It has been the story ever since 1879, when the writer began reporting the legislative proceedings. The regular people in the capital therefore rejoice at the end of the session so that they may get things clean.

When you are bilious, use those famous little pills known as DeWitt's Little Early Risers to cleanse the liver and bowels. They never gripe. F. S. Duffy & Co.

MACARTHUR RECALLED.

Ordered to Yield Philippine Command to Chaffee in May.

WASHINGTON, D. C., March 16.—Secretary Root announced this afternoon that the steady progress of pacification in the Philippines would warrant the establishment of civil government there by the middle of May, and certainly not later than the first of June.

Plans for the succession of the present military government of the islands by civil government have been under consideration for some time, and they will now be pushed to completion with the greatest rapidity possible. Instructions to this end have been sent to Judge Taft, President of the Philippine Commission.

Judge Taft has been directed to forward to Washington as soon as possible the scheme of civil government which he and his associates have been engaged in formulating. When it comes it will be carefully considered by the President who will make such changes in it as may seem necessary, and authority to put it into effect will then be cabled to Manila.

Judge Taft himself will assume control as the first civil Governor of the Philippines, and will be aided in the administration by his present associates on the Commission. It is calculated that by the time the civil government is put in control the military command of the American forces in the islands will have passed from General MacArthur to General Chaffee, who is now in China making final preparations to sail with the men under his command for Manila, where he is expected to arrive about the middle of May.

General MacArthur will then turn over to General Chaffee the command of the army in the Philippines and return to the United States in accordance with orders which were issued from the War Department today. The authority of the new civil government when established will be fully supported by the force of 50,000 or more regular troops, which will constitute General Chaffee's army.

Confidence is felt here that placing civil officials in control in the Philippines will have an excellent effect on the natives and that, as the latter become accustomed to the new conditions and note the beneficial effects of the change they will take a more active part in the work of restoring order and render the necessity of military interference less and less frequent.

Senator Simmons' Denial.

Special to Journal.
RALEIGH, March 18.—Senator F. M. Simmons in a published statement denies that he was the "mainspring" of the impeachment proceedings, or that he has frequented the trial more than other attorneys.

We get Tuffy at McElroy's today.
