STOLE EVERYTHING.
Martin Confesses to Robbing Four Other State Institutions.
Wholesale Changes Demanded at the Penitentiary. Directors Hold Meeting. A Dead-lock for Superintendent.
Special to Journal.
RALEIGH, April 12.—W. H. Martin, the ex-jerk who confessed to the embezzlement of penitentiary funds from the State Treasuries and is now confined under a ten year sentence, now admits additional facts.
Martin confesses that he also stole the funds of the Insane Asylum, the Blind Institution, the Agricultural Department, and the Agricultural and Mechanical College.
These thefts were discovered yesterday. Today the examining committee appointed by the Legislature went to the penitentiary and saw Martin. He confesses to these thefts but declares that he stole from these simply to pay the penitentiary fund. The amount taken from the penitentiary funds are found to slightly exceed \$18,000.
The penitentiary directors made wholesale changes at the penitentiary today. They elected J. H. Fleming for Warden, a position held for many years, and abolished the office of manager and a number of minor offices. T. M. Arrington was elected book-keeper of the penitentiary.
The directors are unable to elect a superintendent. There are five directors of the institution. Their chairman is E. L. Travis. Travis is a candidate and got 2 votes and B. F. Aycock also received 2 votes, Travis not voting. It is said that there can hardly be any election unless some one retires from the board.
There is much desire that Senator B. F. Aycock shall be made superintendent of the penitentiary. This is publicly expressed. There are some other aspirants for the fact that the rank and file of the Democrats desire an entirely new deal as regards the penitentiary.
There is more and more pressure for the use of all convicts on roads. A penitentiary director says one of the greatest acts of folly the State has committed was the erection of the immense and costly buildings at the penitentiary; showy but not so useful as more humble ones.

Task For Aguinaldo.
MANILA, April 11.—Lieutenant Major, of the Twenty-third Infantry, captured \$40,000 of insurgent funds and three officers belonging to General Calles' staff near Manila.
Before Aguinaldo is liberated he will be required to obtain the surrender of General Tino, the insurgent leader.

Refuses to Buy Bonds.
WASHINGTON, D. C., April 11.—Secretary Gage rejected all offers of United States bonds made by their holders to the treasury Department. It is felt at the Treasury that the prices of all the bonds are being unduly pushed up in order to force the Secretary to purchase at what he considers excessive prices.

Men Made the Hats.
CAPS MAY, N. J., April 11.—A feature of a recent social given for the benefit of the Presbyterian Church by the Christian Education Society was the sale of ladies' spring hats, furishes and trimmed by the gentlemen. There was some extremely unique trimming done.

Man Loses 150 Pounds.
LA CROSSE, Wis., April 11.—Lee Trickey, of Glenwood, has for the past 10 or 12 years held the reputation of being the fattest man in the United States.
His highest weight was 710 pounds, but he has dropped off to what he calls a mere feather weight, or to 563 pounds. Just what is the cause of his drop does not seem apparent.

STARTLING REVELATION.
Confederate Deserters Said to be Inmates of the Soldiers Home.
Special to Journal.
RALEIGH, April 12.—Today a startling statement was made by an inmate of the Soldiers Home here. He said to your correspondent: "I see you state that crosses of honor are to be given the inmates of the home. I hope they will not be given to two deserters there. I give you their names. One of them some years ago, soon after he was admitted, boasted that he was a deserter. We will give the facts."

Swisher, the leader of the "gold brick" swindlers in jail at Ottumwa, who they were so neatly trapped by Paul Garrett, their intended victim. Swisher is an "old hand" and has a sore of all else. His last one is Thompson. He is from Missouri. His wife is a native of Kentucky and is said to be a good woman. She has been to see him in jail. Swisher's victims are widely scattered. Slatz wants him for getting \$7000 out of a farmer at Ottumwa.
Work begins next week on the dining hall and music room at the institution for the blind here.

Stolen Bars of Gold.
New York April 11.—A mysterious robbery has occurred in the specie room of the North German Lloyd Line. Kaiser Wilhelm der Grosse. There has been complete failure to locate either the missing gold bullion or the men who took it. Three bars of gold, aggregating in value \$23,750, shipped by the National City Bank of New York, were stolen from a cask in the specie room, some where between this port and Cherbourg.
The specie room of the Kaiser Wilhelm der Grosse is iron bound and almost as strong as a vault. Its door was secured by a patent lock, for which there were but two keys. One of the keys was kept by the chief officer, the other by the purser.

ENTER A PROTEST.
Demands on China by the Powers Considered More Robbery.
WASHINGTON, April 12.—This government will make a formal protest against the contemplated action of the powers to demand the payment of \$500,000,000 indemnity by China, on the ground that it is so only exorbitant, but that it is amount beyond the power of China to pay. This was decided at a cabinet meeting, and the protest will probably go directly to the powers instead of to the representatives in Peking.
Under the circumstances, with the country upset and impoverished as a result of the Boxer troubles, not to mention the new civil war the Chinese government has on its hands, to make such a demand would be nothing more nor less than robbery by the powers simply because they have the power to do it. It could have only one result—the dismemberment of the Chinese Empire.
This government placed its own claims at \$25,000,000,000, and has from the first insisted that the total claims of all the powers should not exceed \$300,000,000,000. Of course, if the powers are determined to rob China, this government cannot prevent it, but it will decline to be a party in the robbery.

The roll was called upon the said ordinance whereupon all the Aldermen voted Aye and the ordinance was declared carried.

S. W. P. VS. LEAD AND OIL!
USE S. W. P.
S. W. P. is BETTER than Lead and Oil BECAUSE
IT contains zinc white to prevent the lead from chalking and powdering. IT is made by machinery and is therefore more thoroughly mixed and finely ground than hand-made paint—giving a paint in which the oil and pigment held together better and present a more solid surface to the weather. IT covers more surface (300 square feet—often more, two coats to U. S. standard gallon; 800 square feet—often more, two coats to an imperial gallon). IT lasts longer in good condition, ITS ingredients are absolutely pure. IT is always uniform in color, in quality and in consistency. The linseed oil in it is specially prepared for each color—there's no oil so good in any other paint. The drier in it is made with such painstaking care, while the drier ordinarily used burns the life out of the linseed oil, IT is cleaner and clearer in tone. IT has a more durable gloss. IT stands in all climates—it won't powder or chalk as lead and oil mixtures always do. IT makes painting cost less through its greater covering or spreading capacity and greater durability. IT works easier under the brush. The painter doesn't have to waste his time breaking up lead and mixing. The formulas are followed accurately and exactly—no guess work.
GUARANTEE:
We guarantee that this paint, when properly used, will not crack, flake or chink off, and will cover more surface, work better, wear longer and permanently look better than any other paints, including pure white lead and oil. We hereby agree to forfeit the value of the paint and the cost of applying it, if in any instance, it is not found as above represented.
