Waste, Rest and Exercise. William M. Evarts was a marvel of intellectual vitality to an advanced age, and he used to explain it by say-ing that he slept late in the morning ing that he slept late in the morning and never took any exercise. There is no infrantage in getting up early in the morning if you need the sleep. Many it must be burning the candle at both ends by getting up at an early hour simply because his housekeeping is adjusted to that programme, As to physical exercise, Mr. Evarts ind dis-covered for himself what our physiolo-rists are now becomen to teachgists are now beginning to teach-namely, that if a man consumes tissue In hard Intellectual work the way to repair the loss is by resting and not by consuming more tissue in physical exercise. To the majority of brain vorkers oxygenization of the blood is far more important than physical exer-cise, and there are two very good ways to secure that: Sleep with your bed room window wide open in summe and winter, and, if you can afford it keep a borse and drive in the open air. -Boston Watchman.

A Whist Story. When Lord Thanet was imprisoned in the Tower of London for the O'Connor riot, three of his friends, the Duk of Bedford, the Duke of Laval and Captain Smith, were admitted to play whilst with him and remain till the lock up hour of 11. Early in the sit-ting Captain Smith fell back in a lit of apoplexy, and one of the party rose to call for help, "Stop!" cried another "We shall be turned out if you make a noise. Let our friend alone until 11 We can play dummy, and he'll be not the worse, for I can read death in hi face."

.n Easy Matter, "The reason some men don't ge along happily," said Mr. Meekton, "is that they don't know how to manage ! wife."

"You know this?" was the skeptical query. "Certainly. It is the simplest thing in the workl. All you have to do is to ray 'yes' whenever she wants any-thing and always let ber have ber own way."-Washingtop Star.

Old Soldier's Experience.

The Most Important Period in a Woman's Existence .-- Mrs. Johnson Tells How She Was Helped Over the Trying Time.

Owing to modern methods of living, not one woman in a thousand approaches this perfectly natural change without experiencing a train of very annoying and sometimes painful symptoms. Those dreadful hot flashes, sinding the blood surging to the heart until it is as if the heart were going to stop for good, are only a few of the symptoms of a dangerous nervous trouble. The nerves are crying out for assistance. The perfect the needs in time. Lydia E. Pinkham's Vegetable Compound was present the needs of woman's system at this trying period of her life. The three following latters are guaranteed to be genuine and true, and still further prove what a great medicine Lydia E. Pinkham's Vegetable Compound is for women.

"I have been taking your remedies, and think they have beloed me a great deal. I has been in bed for ten weeks when I began taking your Vegetable Compound, but after using it for a short time I was able to be up around the house. The aching in the lower part of womb has left me. The most that troubles me now is the flowing. That is not so bad, but still there is a little every day. I am not discouraged pet, and shall continue with your medicine, for I believe it will cure me," — MRS. CHARLOTTE JOINSON, Monelovs,Ohio.

"I send you this letter to publish for the benefit of others. April 18, 1900. "I send you this letter to publish for the benefit of others. I was sick for about nino years so that I could not do my work. For three months I could not sit up long enough to have my bed made. I had five different doctors, and all said there was no help for me. My trouble was change of life. I miffered with ulceration of the womb, pain in sides, kidney and stomach trouble, back-sohe, headache, and dizziness. I am well and strong, and feel like a new person. My recovery is a perfect surprise to everybody that knew me. I owe sill to Lydia E. Pinkham's Vagetable Compound. I would not do without your medinine for anything. There is no need of women suffering so much if they would take your remedies, for they are a sure cure."-Mas. CHARLOTTE Journson, Monelova, Ohio. When one stops to think about the good Mr. Johann Journal.

JOHNSON, MORELOVA, Ohio. When one stops to think about the good Mrn. Johnson derived from Mrs. Finkham's advice and medicine, it seems almost beyond bellef; yot it is all true as stated in her three letters published above at her own request. As a matter of positive fact Mrs. Pinkham has on file libousands of letters from women who have been safely carried through that danger period "Change of Life." Mrs. Johnson's cure is not an muscal one for Mrs. The ham's model in to accomplish.
