Railroad Grading Volunteers to Teach Public School To go to California Pensioners Blanks Sent Out.

RALEIGH, May 14.—The 90 convicts who are grading the Eastern Carolina R. R. from Tarboro eastward are making good progress, having graded 34 miles to Farmville, Pitt county.

The real cause of the delay by the text book commission in making the awards of text books is that the prices are not low enough. Gen. Toon so tells me plainly. He said "we are justified in making prices lower. The people expect it. The law demands that we get cheaper books. Many books are offered; good ones. If we cannot get at figures we think proper the books we prefer we will take others, which to be sure will be good." No books have been adopted. It is not believed that a vote has been taken on adoption.

Miss A. E. Pitt of Winston-Salem writes the State superintendent of public instruction that she volunteers to teach a public school six months. She says she prefers to be sent to Pilot Mountain as she hears "the most deplorable accounts of the condition of things in that section."

Gov. Aycock will leave next Saturday for New York, where he speaks next Monday before the North Carolina society.

The corporation commission is notified that C. W. Toon and M. W. Reed, both of Durham, are appointed by the American Tobacco Co. and Blackwell's Durham Tobacco Co., both New Jersey corporations, their agents in North Carolina for the purpose of securing service of process, under the act of 1901.

The corporation commission and Mr. Brown its secretary will leave here on the 24th instant for San Francisco, via the Northern Pacific railway, to attend the annual convention of commissioners. Dr. Abbott of the commission will be accompanied by Mrs. Abbott. Mr. Fred L. Merritt of the News and Observer and Mr. W. E. Manor of Raleigh will also be of the city.

Charles M. Buebe, Esq., who was to have made the annual address before the Odd Fellows at Asheville this week, will not be there, as he finds he cannot leave Raleigh.

The fourth storm in a week swept over Raleigh early this morning, with much rain and lightning. It was said there was hail near here.

The book men who have been so much in evidence here for a week have gone home. They will not return until the awards are made.

Raleigh played a great game of ball yesterday, in the face of adversity. The shutting-out of Wilmington during the last 6 innings and the striking out by Stanley twice of Bob Stafford, the best batter in the league, were great pieces of work.

The pension blanks have all been sent out. The county boards are urged to present matters so pensioners will come forward and be placed on the rolls.

Skin affections will readily disappear by using DeWitt's Witch Hazel Salve. Look out for counterfeits. If you get DeWitt's you will get good results. It is the quick and positive cure for piles. F. S. Duffy & Co.

WEEKLY CROP BULLETIN.

Improvement in Growth Vegetation. Destruction of Strawberries. Injury to Fruit.

RALEIGH, May 13.—The reports of correspondents this week indicate further general improvement in corn conditions and in the growth of vegetation. The temperature averaged nearly normal and although several mornings were quite cool, there were no extremes. Showers were frequent, occurring at some station or other on almost every day of the week. In spite of some very heavy local rains, the average rainfall was about normal and was extremely beneficial. The soil was placed in excellent condition for plowing, the germination of seeds was hastened, and vegetation refreshed. Toward the latter part of the week farm work was interrupted in some sections and weeds and grass became troublesome, but generally farmers are fairly well up with their work. The unfortunate feature of the weather this week was the unusually large number of severe local thunderstorms with heavy hail, chiefly from the 7th to 10th. At many points the hail stones were quite large and covered the ground to the depth of several inches. The greatest damage occurred in the strawberry region of southern North Carolina. Truck crops and garden vegetables were injured; corn, cotton, and tobacco somewhat cut, wheat fields lodged, and fruit beaten from the trees. The counties over which the greatest damage occurred were, in the Eastern District: Wayne, Nash, Wilson, Pender, Sampson, and Greene. In the Central District: Wake, Johnston, Franklin, Moore, Richmond, Forsythe, Guilford, and in the Western; Rutherford, Caldwell, Catawba, Polk, Davie, and Iredell.

The bulk of the cotton crop has now been sown. Late planted cotton is coming up well, and fair stands seem assured by the beneficial rains this week; some fields are grassy and working the crop has begun; in southern counties some chipping has been done. There is still much corn to be replanted on account of bad stands; the condition of corn that is up is much improved. Fine seasons enable farmers to transplant many tobacco plants, especially in eastern and southern portions; elsewhere the plants are still too small for the purpose. Planting peanuts is underway, and planting rice has made good progress. Gardens have materially improved. Outside the region of greatest damage by hail truck crops are doing well; shipments of early vegetables of all kinds are very heavy. Fruit trees are apparently loaded with fruit, and peaches and apples will be very abundant. Strawberries are ripening in central and west portions.

Rainfall at selected stations (in inches) Greensboro 2.01, Lumberton 1.73, New Bern 2.50, Weldon 1.03, Southport 0.50, Wilmington 1.40, Charlotte 1.30, Raleigh 2.19, Soapstone Mount 1.05, Monroe 1.00, Mocksville 2.30, Stateville 1.06, Patterson 1.19, Marion 0.73.
