## RALEIGH.

### No Unlicensed Insurance Companies Can do Business.

### An Old Law Suit. Another Pardon by Governor. Too Much Rain. Presentation to Wiley School. Base Ball. Not Guilty of Embezzlement.

RALEIGH, June 7.—Insurance Commissioner Young says he has succeeded in enforcing the law so strictly that no unlicensed companies are operating in the State save two negro companies, one at Durham and one at Charlotte, and he is after them.

In the Senate chamber the taking of evidence in an old and thresome law suit has begun before referee S. F. Mordecai. It is the case in which the state sues Stewart Bros. of Winston for something like \$10,000. Stewart Bros were the public printers under the first fusion regime 1898-6, and the State claims they were overpaid some \$10,000. In 1897 the treasurer Worth sued them. On their part there is a counter-suit, they claiming money due them. There was considerable feeling between the Stewarts and treasurer Worth. One of the chief witnesses is assistant labor commissioner Falson.

The official report on Maj. W. H. Martin's defalcation in the state treasury has never yet been made. No reason for the delay is given.

Gov. Aycock pardons Quincy D. Freeze of Iredell county, convicted of larceny and sentenced to a year on the public roads. The pardon is granted at the request of Lt. Gov. Turner and other prominent citizens. While Gov. Aycock was in New York application for the pardon was made to Lt. Gov. Turner, then acting governor, but he declined to act and referred the matter to Governor Aycock.

Arrivals.—A. D. Watts, Statesville; Thomas C. Daniels, New Bern; W. J. Ferrell, Wadesboro.

In the case in the federal court here in which a Mr. Lunsford of Person county was charged with embezzlement of letters, Judge Purnell ordered a verdict of not guilty. The case did not go to the jury. Lunsford went to a post-office and took therefrom furniture which was his private property.

Considerable rain fell today. It was not needed. The rain of yesterday was sufficient to prevent any parching of the land.

The Raleigh baseball club has had extraordinary good luck. Though there has been a great deal of rain it has not had to issue rain checks for a single game. It was expected that there would be two games with Newport News today but the rain broke up the arrangement.

Work on the \$25,000 main building at the Methodist Orphanage here will begin in a few days.

At the academy of music this afternoon there was a large assemblage of teachers, children of the white public schools, and the public, to witness the presentation to the Wiley School of a life size oil portrait of the late Calvin H. Wiley of Salisbury, who was the first State superintendent of public instruction. Mrs. Wiley was present, and M. C. S. Noble of the State University presented the portrait in her name. Mayor Powell accepting it. The Wiley school was finished last year.

Eczema, salt rheum, tetter, chafing, itchy poisoning and all skin troubles are quickly cured by DeWitt's Witch Hazel Salve. The certain cure. F. S. Duffy & Co.

### Greek Counterfeiter Discharged.

RALEIGH, June 7.—Claude Dockery who has for several months been seeking to secure pardons from the President for Nicholas Politis, the Greek convicted of counterfeiting at Wilmington, was this afternoon notified that the pardon was granted. Politis while in the Penitentiary here, was brought into the Federal Court as the government's chief witness against attorney A. J. Marshall of Wilmington, charged with counterfeiting. Politis was last year transferred with other Federal convicts from Raleigh to the Nashville Penitentiary.

A surgical operation is not necessary to cure piles. DeWitt's Witch Hazel Salve gives all that expense and needless pain. Beware of counterfeits. F. S. Duffy & Co.

### Taxing State Officers Salaries.

RALEIGH, June 7.—Attorney General Oliver this afternoon gave an opinion as to the matter of taxation of salaries of Judges and State officers.

He holds with Attorney General Beaufort in the latter's opinion in 1900, that such salaries are not taxable, and says members of Supreme Courts have affirmed this opinion, and it seems to be supported by the public as stated in portions of the law.

## A Communication.

ED JOURNAL.—I was surprised to read in issue of your paper of 7th inst. an article signed "Patron" referring to the principalship of the Colored Graded school.

The chief question which addresses itself to every intelligent person is why this friend of the present incumbent takes occasion to defend him before he has been attacked. It has raised an inquiry which it might be well to investigate.

I am a patron of that school, a freeholder and tax-payer and feel some interest in its standing and success. My attention has been directed to it many times during the past school year, on account of charges detrimental to its progress.

It is a fact generally admitted that the discipline in the worst we have ever had. The pupils attend at any and all hours of the morning session. The principal himself being late very often. Scarcely any order is observed during school hours. The pupils talk aloud, and do not hesitate to show insubordination and contempt for their principal. Little or no respect is shown visitors.

I am reliably informed that the attendance is barely half of that of three years ago. Two of the grades were consolidated and did not number more than fourteen pupils.

"Patron" says that the closing exercises were of a "very high order." For they were, and reflected credit upon the efforts of the teachers. But why should we take the praise, justly due them, and give it to the principal, as "Patron" does.

Now if it is "retribution" to speak of these matters, then it was certainly originated on the part of the Principal to permit it. But when I see an attempt to misrepresent the management of an institution in which I have an interest with other citizens of this city, I feel constrained to place them in their true light.

The colored people demand of the trustees that they raise the problem of our schools in order that our children may get the best education possible and yet, how can this be done so long as we have a principal of this character?

Nothing is of more importance to the colored people than this, and we repeat should be the business of the trustees to secure the best of our children to secure the best of our future.

It is my prayer that some day the words of the master might be heard, "I have chosen you, as at Damascus," and that you will be as faithful as the apostle Paul.

### Good Soda

Comes from good material combined with knowledge and skill. We use the very best of everything. It is possible to improve anything we do. The next man's worry is just as much as the quality. Refrain from raising and lowering it as an art in itself. It may seem useless, perhaps foolish, to you, as you watch the little quills and honey bees come into the bottle, and honey bees are busy through with by one situated in dispersing the various drinks, but they all add to the flavor. It's just those little "wicks" that make Errett's soda "Good."

The price in our clothing store, and Dry Goods were so remarkably LOW, we were SHOCKED. If it were by light and good, and we are still chattering good and good. Note some prices:
