

New Bern Daily Journal.

VOL. XIX--NO. 88.

NEW BERN, N. C., FRIDAY MORNING, JULY 17, 1901.

TWENTIETH YEAR

THIS IS FOR YOU!

That is if you owe me.

Remember

that it takes money to carry on business successfully.

You do me an injury, whether intentionally or not, in delaying settling your account.

So I ask you to please make an early settlement.

HACKBURN

47-49 POLLOCK STREET.

Vade Mecum Spring,

STOKES COUNTY, N. C.

Affording more than 20,000 gallons per day.

ANALYSIS--GRAINS PER U. S. GALLON:

Potassium Sulphate	5428	Sulphuric Anhydride (SO3)	47.2046
Sodium Chloride	1.4537	Lime (CaO)	35.4222
Magnesium Sulphate	13.9923	Magnesia (MgO)	4.5312
Calcium Chloride	6.6490	Iron (Fe)	5.962
Calcium Sulphate	64.5521	Potash (K2O)	3.952
Calcium Bi-carbonate	11.5785	Soda (Na2O)	7.728
Iron Bi-carbonate	1.2795	Chlorine (Cl)	3.9629
Lithium Sulphate	Traces	Lithia (Li2O)	Traces
Silica	5539	Silica (SiO2)	5539
Organic Matter and Volatile Inorganic Matter	5.9720	Carbonic Anhydride (CO2)	5.972
		Organic and Volatile Inorganic matter	5.9726
Total--Grains, 100 9404		Total--Grains, 106.0468	

Above analysis made by me shows freedom from surface water and quite large amounts of Sulphate Carbonate of Calcium and Sulphate of Magnesium.

JAS. M. WHITFIELD, Analytical Chemist.

Richmond, Va., Sep. 4, 1900.

WINSTON, N. C., October 10, 1900.

After quite an extended experience of prescribing and noting results of various mineral waters, I unhesitatingly think this water the best restorative and "builder up" of them all. For Scrofula, Catarrh and Blood Diseases generally it is almost a Specific. Too much, in my opinion, cannot be said of the curative properties of Vade Mecum Water.

D. N. DALTON, M. D.

For sale by F. S. DUFFY, Druggist, NEW BERN, N. C.

DALEIGH.

Questionable Service of Negro Normal Schools.

Tyson Enters Penitentiary, Stanton's Birth Place Caricatured in County. Few Exceptions Probable in Assessment of Corporations.

DALEIGH, July 11.—The bigamist W. J. Tyson, who was yesterday afternoon convicted in court here, was today taken to the penitentiary to serve his 10-year sentence. His brother in law A. M. Waddill, whom he sought to incriminate in the matter of the swindling of the Virginia State Life Insurance Company, was discharged, as being clearly innocent. Tyson had, while in jail, endeavored to have Waddill say he and not Tyson had swindled the company. Tyson, when Waddill's case was called, declined to be a witness, saying he wanted to be excused. The judge said he could punish him for contempt of court, but that would only be placing him in jail, where he already was. A nol proes was then entered as to Waddill.

The corporation commission in making this year's assessments of railway and other property of the class of which it has supervision, has largely taken the values given in by the corporations. This shows an increase over last year. It is reasonable to suppose that the corporations will make few exceptions to the assessments, at the hearing they are to be given next Tuesday.

The newspapers are having a good deal to say about the birth-place of Edwin M. Stanton, President Lincoln's Secretary of War. He was born in Carteret county, this State. In the '70's his father, who was a Quaker, moved to Indiana, on account of his dislike of slavery.

H. O. Davis of Hope Mills, who last week was elected instructor of weaving and designing in the Textile School of the Agricultural and Mechanical College, arrived to day.

Other arrivals are, G. H. Smith, Wilmington; B. G. Green, Warrenton; Dr. E. F. Early, New Bern.

Great pressure is being brought to bear by the people of the various towns where the seven negro normal schools are located to have them all retained. The claim is made that each is doing admirable work. This does not agree with the report of the State board of public school examiners. A member of that board said to a school official here that all the students really fitted to be teachers, in all the seven schools, could be put in one room and taught by one person. It is rumored that the board of examiners is contemplating delegation of its power to select teachers of these schools to the local boards. It is the comment that if it does so it will make a grave mistake.

Those famous little pills, DeWitt's Little Early Risers compel your liver and bowels to do their duty, thus giving you pure, rich blood to recirculate your body. Are easy to take. Never gripes. F. S. Duffy & Co.

THROUGH TRAIN ACROSS ASIA.

From Moscow to Sirciensk in Eleven and a Half Days.

St. Petersburg, July 10.—The new direct through train from Moscow to Sirciensk and Sirciensk, where the steamer starts down the Amur river on the way to Vladivostok, will be running before this reaches the United States.

At first it will run once a week, later twice a week. The journey, including the passage of Lake Baikal by boat, will last 11 1/2 days, and including the river journey to Khabarovsk and the Pacific end of the railway journey to Vladivostok 19 days. A first-class ticket for the entire trip will cost 175 rubles (\$56).

The Russian newspapers expect great things from the construction of the St. Petersburg-Vladivostok railway, which will afford a northern connection with the trans-Siberian line and will traverse a number of backward provinces in Northern Russia. It will pass Tikhvin, Cherepovets, Valdega and Oulianovsk and use the Perm-Kovalev Line in effecting a junction with the trans-Siberian. A branch line from Rostov to Danilov will form a Moscow connection. The Vladivostok road will greatly facilitate Siberian exports to the Baltic.

High Tide at Galveston.

Galveston, Tex., July 15.—Two hundred dollars will more than cover the damage occasioned by wind and water from last night's storm. The tide was six feet, which is the highest since 1866, with the exception of the storm of last September.

A high tide is predicted for October to night, but nothing like as high as that of last night. People living in the beach districts have returned to their homes.

The Kidney and Bladder.

TERRIFIC HEAT WAVE.

Chicago and West Burning up From Heat.

Chicago, Ill., July 10.—Not since the establishment of the Weather Bureau has this city experienced such terrific heat as affected it today. One hundred and two in the shade was the high record, the highest previous mark being July 1, 1897, when it reached 99.8. The wind blew with force from the west and southwest and hotter, more stifling air was never felt in this city before. So hot did it become during the afternoon that all through the business section of the city tenants of offices slammed down their windows to keep out the air. The air was so dry, however, that its effects were not as disastrous as would have been the case had greater humidity prevailed.

Tonight the wind changed to the northeast and the mercury went down 30 degrees within an hour. Eight prostrations were reported. No deaths. Reports tonight from different points in Illinois, Iowa, Kansas, Nebraska, Wisconsin, and Missouri show conditions of heat equalling or surpassing all previous records. In many sections the long continued heat has seriously injured, if not irreversibly ruined, corn and fruit crops. The list of fatalities is surprisingly small, but the humidity was less than during the hot days of last week. Kookuk and Davenport, Iowa, reported 105 degrees, from Dubuque 103 was received, with a high wind shriveling up vegetation. Burlington reported 102 degrees at the Weather Office, and 110 on the streets. From Kansas come reports ranging from 100 to 108 with widespread damage to crops.

Lincoln, Neb., reports a maximum temperature of 103. St. Joseph, Mo., reported 106 on the street, with damage to crops and threatening injury to stock on account of wells and springs drying up. Springfield, Ill., reported 158.

When you want a modern, up-to-date physic try Chamberlain's Stomach and Liver Tablets. They are easy to take and pleasant in effect. Price, 25 cents. Samples free at F. S. Duffy & Co.'s drug store.

Lands Open On Time.

WASHINGTON, July 10.—The complaints from land offices in Oklahoma other than El Reno and Lawton, that they should be allowed to make registrations for the opening of the reservations August 6, are regarded officially as not well founded.

The matter was taken up some weeks ago, and Delegate Flynn at the time unsuccessfully endeavored to have the other Oklahoma offices included.

It is said here that the reports of the number of cattle on the lands to be opened have been exaggerated and that there are, in fact on the Wichita reservation only 72,000 head. The opening of certain lands a month hence is mandatory. A large part of the 72,000 head on the Wichita lands, it is said can be shipped to the market within the allotted time and the rest moved down to the Kiowa grazing lands, which will not be thrown open to settlement.

The pills that annoy you so will be quickly and permanently healed if you use DeWitt's Witch Hazel Salve. Beware of worthless counterfeits. F. S. Duffy & Co.

Decrease Corn Acreage.

WASHINGTON, July 10.—Preliminary returns to the statistics of the Department of Agriculture on the acreage of corn planted indicate a reduction of about four hundred thousand acres, or five per cent. from the area planted last year. Of the twenty-two States having one million acres and upward of corn in 1900, twelve show a decrease of about 1,200,000 acres, while in the remaining ten an increase of about 900,000 acres is shown.

Of the twenty-three States and Territories having less than one million acres in 1900, only six report smaller acreages than were planted last year. The average condition of the growing crop is 81.5 as compared with 92.8 on July 1, 1900, and a ten year average of 93.3.

N. C. Railroad Directors.

Special to Journal. Greensboro, N. C., July 11.—The private stockholders of the North Carolina Railroad, to-day, elected as directors E. F. Holt, of Wake; Benjamin G. Cannon, of Iredell; W. S. Holt, of Alamance. The directors at their meeting this evening elected Don Hugh McLean of Hargett, secretary, and F. S. Gault of Orange, attorney.

Carlisle Legate Games.

Special to Journal. Raleigh, July 11.—Some 15 to day's game, Raleigh 5, Tarboro, 5.

WASHINGTON, July 11.—Whitney's defeated Charles to day, score 7 to 4.

A CHILD ENJOYS.

The pleasant favor, gentle action, and soothing effect of Syrup of Figs, when used in case of a child, and if the father has a child, he will find it the most reliable remedy for the most distressing ailments of the young.

It is the best and most reliable remedy for the most distressing ailments of the young.

It is the best and most reliable remedy for the most distressing ailments of the young.

STRIKERS VOTE.

Newport News Machinists Decide to Stay Out Because of Expected Aid.

Newport News, Va., July 10.—The striking machinists voted this morning on the proposition to return to work tomorrow and the motion was defeated, only about a dozen voting for it, according to the best information obtainable. It is certain that the men would have voted to return to work had it not been for the receipt of a telegram from President O'Connell, of the International Association, promising all the financial assistance possible if the men remained out. President O'Connell was informed by wire last night that if he did not send \$1,000 and pledge further aid the men would vote on the question of going back, this being a virtual threat that they would return.

A number of men, most of them not members of the association, announced their intention of returning to work in the morning, and it is expected that at least 25 will do so, probably more. They have applied to the police authorities to have men stationed at the shipyard gate to prevent a possible attempt to prevent them going back to work. No trouble is anticipated, but it was thought best to be on the safe side, especially as there were hot words at the meeting this morning and trouble was narrowly averted during the discussion.

Those men who do not return to work in the morning are discharged and their places will be filled between now and Monday. The shipyard management announces that no difficulty will be experienced in this, and it is understood that contract has been made for 250 machinists from out of town. These, with those already in and those that will return to work tomorrow, will almost bring the force up to the normal. Many of the men went to the yard this afternoon and got their tools, expecting to leave the city as soon as they can get jobs elsewhere.

Schools to Remain Unchanged.

Special to Journal. Raleigh, July 11.—It is decided that all Negro Normal schools shall remain as they are at present for this year, and the weak ones will be consolidated.

A Pot Walloper.

The parliamentary register for 1896 showed that there was then only one pot walloper in all England. One seeing the term for the first time might easily imagine that a pot walloper was a species of ichthyosaurus or some other reptile of a past age. It will be discovered upon inquiry, however, that the term "pot walloper" is literally one who boils a pot and was applied to voters in certain boroughs of England where, before the passage of the reform bill of 1832, the qualifications for suffrage was to have boiled (walloped) his own pot in the parish for six months.
