After quite an extended experience of prescribing and noting results of various mineral waters, I unhesitatingly think this water the best renovator and "builder up" of them all. For Scrofula, Catarrh and Blood Diseases generally it is almost a Specific. Too much, in my opinion, cannot be said of the curative properties of Vade Mecum Water.

### Efforts to Avoid Borrowing Money For Penitentiary.

Second Regiment in Camp. Trouble About Getting Indigent Inmate in Asylum. Farmers Institutes, Cotton Average.

### Assessment of Railways.

Raleigh, July 24.--Superintendent Mann of the penitentiary says he and the directors are making strenuous efforts to get through the year without borrowing any money. He says he expects to begin August 1 to rebuild the great dyke at the "Caledonia" farm on the Roanoke which the May freshet partially destroyed. There are numerous breaks, the longest 1000 feet in length.

The second regiment now in camp at Camp Aycock, Wrightsville, makes a good show in point of attendance, having 584 officers and men present for duty.

There is to be a rigid inquiry as to why some indigent inmates have been denied admission to the insane asylum, while pay patients have been received. The matter comes to a head by the denial of admission to an indigent insane woman while an inebriate pay patient was received. There are grave complaints of difficulty in getting indigent inmates admitted. The plain declaration is made that preferences must be given indigent inmates.

The commissioner of agriculture has arranged for a series of farmers institutes during August, covering 13 Piedmont and mountain counties. He expects to be present at most of these, and to be aided by Prof. Burkett, the newly elected professor of agriculture of the agricultural and mechanical college, Prof. W. F. Massey, and State Chemist Kilgore.

The State Crop report says the percentage of condition of cotton in this county as compared with an average is 59. This very closely agrees with the statements made by farmers.

The farmers are greatly pleased by the hot and dry weather. If it continues the crop report next week will be more favorable. Cotton's condition fell off 7 per cent in the State during the 30 days ended July 20.

The corporation commission sends to the State treasurer its assessment of the property of railways and other common carriers, this being as follows: Railways, \$43,375,705; canal, \$74,106; street railway, \$756,800; gas and electric light, \$117,868; telegraph, \$24,500; Pullman cars, \$88,172; express, \$189,572; water and sewer, \$54,420; total, \$45,147,886; the taxes to be paid directly to the State at 20 cents on the \$100 aggregating \$112,935. The increase in valuation over last year is \$1,700,000.

### Free Trade With Porto Rico.

WASHINGTON, July 23.--Free trade between the United States and Porto Rico will be proclaimed Thursday. Two proclamations will be issued, the first declaring the establishment of civil government in Porto Rico, and the second the establishment of free trade between the United States and the island. Although civil government has existed for many months in Porto Rico, Governor Allen, up to the time he went to Canton on Sunday, purposely withheld the formal notification of that fact from the President in order that the money collected under the Foraker act might not be placed at the disposal of the Porto Rican legislature, but could continue to be used for the benefit of the island under the direction of the President.

A bad complexion generally results from inactive liver and bowels. In all such cases, DeWitt's Little Early Risers produce gratifying results. F. S. Duff & Co.

### Carolina League Games.

Special to Journal.  
CHARLOTTE, July 24.--There was attendance of two thousand at today's game which was won by the visitors. Highlights 4 runs in first inning, Charlotte 3 runs in sixth, no other runs being made.

WILMINGTON, July 24.--Wilmington and Tarboro played a close game, resulting in a tie, 3 to 3. Game called at sixth inning, as players had to catch trains.

These famous little pills, DeWitt's Little Early Risers compel your liver and bowels to do their duty, thus giving you pure, rich blood to regenerate your body. Are easy to take. Never gripe. F. S. Duff & Co.

## Pembroke Manufacturing Co.

At a meeting of the Directors of the Pembroke Mfg. Co., the following resolutions, which were ordered to be published, were unanimously adopted.

"WHEREAS, Since the organization of this Company there has been a small per cent of the subscribers to its stock that have become in arrears, and

WHEREAS, Resolution has been adopted by the Board of Directors instructing its Treasurer to close up this delinquent list, and

WHEREAS, There is a feeling among the stock holders of this Company wishing some positive information as to the time when active operations will be begun upon the work and establishment of a cotton mill, and

WHEREAS, The Board of Directors believe that it is impracticable to attempt the building of a mill until at least 86 per cent of the capital stock shall have been paid in. Now, Therefore be it,

Resolved, That the Board of Directors pledges itself to commence by the 15th of March, 1903 actively in the work of constructing, equipping and erecting a cotton mill in accordance with the plan of organization of this Company, and that upon the failure to do so they will recommend to the stockholders that said Company be liquidated.

Resolved Further, That all delinquents who will pay up their subscription in full to date be allowed 30 days from this date to do so, and those who have settled with the Treasurer by surrendering their interest in the Company may be allowed to pay their arrearages upon the execution of note to secure balance due.

Resolved Further, That those who do not pay up in full within 30 days from this date or make some satisfactory settlement of their arrearages that the Treasurer will proceed to sell their interest in Company in accordance with the terms of their contract with Company."

At the same meeting I was requested to make a short statement to the stockholders through the columns of your paper. At the annual meeting held in March, the stockholders by resolution directed the Board of Directors to close up the delinquent list after a period of sixty days. Very means have been resorted to that were fair and equitable to get the delinquent subscribers to pay up their dues and to maintain the stock of the Company at its original amount. In this we have failed. Since this stockholders meeting there has been many questions asked by some of the stockholders, the most important of which was when we expected to begin the building of a mill. At the meeting this morning this matter was thoroughly gone over by the Directors and the above Resolutions given to the stockholders--the information they have so diligently sought for.

It must be recognized by every stockholder that a cotton mill cannot be built without money. That money for building a mill cannot be had unless the subscribers to the stock pay in their one per cent per month, and one per cent a month is an exceedingly slow way to accumulate money, but if they will be as persistent in paying in as some of them are in knowing the intentions of the Board of Directors there is no question about the fact that the cotton mill will be built.

Sometime in the 70's there was a mill here that failed. About 25 years have elapsed since that calamity befell New Bern. Now if the stockholders in the Pembroke Mfg. Co. should, by their lack of faith or for any other reason fail to pay up their subscriptions in accordance with their contract and the Pembroke Mfg. Co. goes out of existence, I am afraid there is not a child born in New Bern young enough to live to see a cotton mill in the near vicinity of the City of New Bern, a calamity which I hardly believe any thinking man, one who has a spark of interest in the progress and welfare of the city in which he lives--can wish for or do anything to prevent.

We can assure you of our good faith, and we can also assure you that your money that is being judiciously invested, and that when the time comes that a mill will be built and placed upon a substantial basis, so that it will not be wrecked because of being built upon paper alone. Therefore, cast your bread upon the waters, and you shall find it after many days. Respectfully,  
F. H. PELLETIER.
