HACKBURN

47-49 POLLOCK STREET.

Vade Mecum Spring,

STOKES COUNTY, N. C.

Affording more than 20,000 gallons per day.

ANALYSIS--GRAINS PER U. S. GALLON:

Potassium Sulphate	5483	Sulphuric Anhydride (SO3)	47,3046
Sodium Chloride	1,4637	Lime (CaO)	35,4223
Magnesium Sulphate	13,5933	Magnesia (MgO)	4,5913
Calcium Chloride	6,8480	Iron (Fe)	3,663
Calcium Sulphate	64,5521	Potash (K2O)	3,983
Calcium Bi-carbonate	11,5 85	Soda (Na2O)	7,768
Iron Bi-carbonate	1,2 95	Chlorine (Cl)	2,949
Lithium Sulphate	Traces	Lithia (Li2O)	Traces
Silica	5339	Silica (SiO2)	5,558
Organic Matter and Volatile In-organic Matter	5,8736	Carbonic Anhydride (CO2)	6,9572
		Organic and Volatile Inorganic matter	5,8736
Total--Grains	105,9454	Total--Grains	106,0448

Above analysis made by me shows freedom from surface water and quite large amounts of Sulphate Carbonate of Calcium and Sulphate of Magnesium.

JAS. M. WHITFIELD,
Analytical Chemist,
Richmond, Va., Sep. 4, 1900.

WINSTON, N. C., October 10, 1900.

After quite an extended experience of prescribing and noting results of various mineral waters, I unhesitatingly think this water the best renovator and "builder up" of them all. For Scrophula, Catarrh and Blood Diseases generally it is almost a Specific. Too much, in my opinion, cannot be said of the curative properties of Vade Mecum Water.

D. N. DALTON, M. D.

For sale by F. S. DUFFY, Druggist,
NEW BERN, N. C.

JUST RECEIVED

SHERIFF'S MUST REPORT.

Insane and Inebriates in the State's Asylums.

Sale of Progressive Farmer. Delay in Textile Building. Bought School Books. Private Bank Stock Holders. Paraffine for College Students.

RALPHIGH, July 30.--State auditor Dixon today notified all sheriffs that under the new revenue and they must on the first day of each month report to him the amount of the State taxes they collected during the previous month--not merely privilege taxes, but all State taxes--and that on the 10th of the month they must pay these into the treasury. The purpose of the law is obvious--to prevent any long waiting by the State for money.

The price at which J. W. Denmark bought the Progressive Farmer here (\$4000) is regarded as low. The paper has since it was established been the organ of the Farmers' State Alliance and was for 3 years the organ of the National Farmers' Alliance.

The delay in the textile building at the Agricultural and Mechanical College here will prevent its completion by November 1, the date named in the contract. Work now goes on actively, despite the great heat.

A Philadelphia came here today and bought the lot of school books, more than 3,000 in number, left by the many firms which submitted bids in the great contest for adoption.

There are hundreds of lists of holders of bank stock which the State Auditor is sending out to the various counties, for purposes of taxation.

The trustees of Wake Forest college have ordered special furniture for the dormitories. Up to this time students have furnished their own furniture.

There has been a lot of newspaper talk to the effect that if the pay patients and idiots were removed from the insane asylums, together with the inebriates, there would be room for all the indigent curable insane. There are in the western hospital (at Morganton) only 20 beds to pay and there are no others who ought to be moved. There are 500 applications for admission to that hospital. There are no inebriates in that asylum. Their entrance is discouraged.

Those famous little pills, DeWitt's Little Early Risers, compel your liver and bowels to do their duty, thus giving you pure, rich blood to re-energize your body. As easy to take. Never gripe. F. S. Duffy & Co.

July Clearance Sale.

Every thing summary must go, prices will do it, no left over with us. All white goods, silks, ribbons, embroideries, etc., at from one-third to a half of regular prices. BARFOOT'S.

Croker to Sail.

LONDON, July 29.--An intimate friend of Richard Croker, who has just returned from Washington, says Mr. Croker will sell for the United States in the early part of September and will take an active part in the fall political campaign.

Boxers Threaten Again.

SHANGHAI, July 29.--The North China Daily News announces that there has been a renewal of outbreaks by the Boxers in the Province of Shantung, in consequence of the success of the allied villagers in Fochi Province against the troops of Li Hong Chang.

The plethoric annoy you so will be quickly and permanently healed if you use DeWitt's Little Early Risers. Beware of worthless counterfeits. F. S. Duffy & Co.

Inspection By Directors.

The entire board of directors of the A. & N. O. R. R., were in Kingston about an hour this morning inspecting the road. The board left Goldsboro on a special train this morning and will finish their work of inspection tomorrow. While here the board inspected the tract of land, which contains about 20 acres, in front of the low plant, near the main line, that the A. & N. O. R. R. recently bought from the Goldsboro Lumber Co. A member of the board informed us that the 252 brick depot would be fixed up as soon as possible for a passenger depot. He said it is the intention of the road to use the switch track for the main track and the main track for the switch track after the old depot is fixed up for a passenger depot. Kingston Free Press.

Weekly Crop Bulletin.

For week ending July 29th. Very favorable weather conditions prevailed generally throughout the State during the week ending July 29th, and most correspondents report some improvement in crops and good progress in farm work. The entire week was bright and sunny, with high temperatures, but not sufficiently so to cause suffering in crops, although the mean for the week averaged 6 degrees daily above the normal; the hottest day of the summer occurred on Thursday, when the maximum temperature slightly exceeded 100° at some points. Throughout the larger portion of the State no rain fell during the week, but at some places light and beneficial rains occurred on the 29th and 27th. As a whole, the soil was in good condition for plowing, and farmers were able to kill much grass. Laying by all crops is proceeding rapidly, and will perhaps be nearly completed with another week of favorable weather. Farmers have been forced to lay by many crops in rather bad condition as regards grass.

The influence of the hot, dry weather was immediately apparent in the improved condition of cotton, especially where it had received good cultivation; laying by cotton is under way. In some places cotton has too much weed, in others it is very small, and generally it is not fruiting very rapidly; in some northern counties it is only just beginning to bloom; the bolls do not seem to be maturing very well; complaints of lice on cotton are very few. Young upland corn is doing very well, and is silking and tasseling as far as the extreme west; the older crop has also improved, though much of it is small and barren; corn generally needs light rain to cause the proper filling of the grain. Tobacco was slightly fired in a few counties by hot sunshine, but generally looks fairly well; topping is under way throughout the northwest portion of the State; curing progressed rapidly and quite successfully during the past week. Reports on the sweet potato crop are uniformly excellent; peas, cranberries and rice also are doing well. Sowing the fall crop of Irish potatoes, turnips and rutabagas has begun. Conditions are very favorable for laying. Reports on fruits indicate an inferior yield of most kinds especially apples; melons in the south and east are poor, but in central and eastern portions are coming into market in abundance.

When you want a modern, up-to-date physic try Chamberlain's Stomach and Liver Tablets. They are easy to take and pleasant in effect. Price, 25 cents. Samples free at F. S. Duffy & Co's. drug store.

A Trip Over Mediterranean.
PARIS, July 29.--Count de La Vaux an aeronaut, will attempt to cross the Mediterranean in a balloon about the middle of August.

He has arrived in Toulon to superintend the preparatory arrangements. President Loubet, M. de Laussan, French Minister of Marine, and many other prominent persons have contributed to the cost of the experiment.

An immense balloon shed, opening toward the sea, will be constructed. Carrier pigeons will be established along the coast from Barcelona to Nice, and at Corsican and Algerian ports, with which the aeronaut will communicate while on his way.

A CHILD ENJOYS.

The pleasant flavor, gentle action, and soothing effect of Syrup of Figs, when in need of a laxative, and if the father or mother be constipated or bilious, the most gratifying results follow its use; so that it is the best family remedy known, and every family should have a bottle. Manufactured by the California Fig Syrup Co.

Half Million for Roberts.

LONDON, July 29.--In the House of Lords today Lord Salisbury, the Premier read a message from King Edward to the effect that, in consideration of the eminent services of Field Marshal Lord Roberts in South Africa, the King recommended that Parliament grant him £100,000 (\$500,000). The grant will doubtless be made.

It is easier to keep well than get cured. DeWitt's Little Early Risers taken now and then, will always keep your bowels in perfect order. They never gripe but produce an easy gentle action. F. S. Duffy & Co.

Pipkin's Excursion.

To Washington or Baltimore will go by way of Norfolk instead of Richmond August 2.

Fare from Goldsboro to Washington and return \$5.75, fare from Goldsboro to Baltimore and return \$3.25. Baggage 25c extra, while people only. Extra train from New Bern to Goldsboro.

The above fare does not include state rooms either to Baltimore or Washington. Parties going can send order for state rooms to us and we will have rooms reserved for them without fail. Please send at once your order for state rooms. Remember excursions will give you in Washington two days and one night, in Baltimore if you go direct to Baltimore, will give you two days and one night in Baltimore. For further particulars see No. 4. F. S. Duffy & Co's. Gaskill Hardware Co's.

A Disinfectant That Disinfects and Deodorizes.

We have had frequent inquiries for a safe, efficient, odorless, non-poisonous deodorizer and disinfectant at a low price. We are now prepared to supply the demand. We offer for this purpose a preparation that has been tested in such a variety of cases and with such uniform success that we feel warranted in recommending it to the public for general use, and, as a means of prevention of contagious diseases there can be no question as to the value of this agent.

This preparation possesses many marked advantages over carbolic acid and chloride of lime, by being free from all odor and having no poisonous or irritating effects. It is a concentrated solution of Bromide and Chloride of Aluminous, is odorless and non-poisonous, it operates by removal and not by creating an odor greater than the one sought to be removed; it can be applied in the most simple manner diluting it with water--one part to ten or twenty--according to object or locality to be purified, and one great element of its successful operation is the capability of free diffusion existing in it to purify the air as well as the walls, ceiling and floor, and all other noxious gases floating through the atmosphere in contact with a sponge or towel if suspended, moistened with the diluted solution are at once decomposed and destroyed. It may be diffused in any room by means of any of the standard pipe in use.
