After quite an extended experience of prescribing and noting results of various mineral waters, I unhesitatingly think this water the best renovator and "builder up" of them all. For Scrofula, Catarrh and Blood Diseases generally it is almost a Specific. Too much, in my opinion, cannot be said of the curative properties of Vade Mecum Water.

LOFTIN CASE.

The Hearing Before Judge Purnell in Bankruptcy Yesterday.

Abandoned Cotton Fields. Contracts For School Books Finally Let. The Re-union of Veterans. Delinquent Sheriffs.

RALPH, Aug. 2.—Before Judge Purnell of the United States district court there was today a hearing in an important case, involving \$110,000. It is that of Mitchell and others against S. H. Loftin, ex-banker and merchant, of Kingston He failed for over \$100,000. He made a deed to W. B. Canaday for the benefit of creditors: They were not satisfied, and filed a petition in bankruptcy. The referee at New Bern, adjudged Loftin a bankrupt. An appeal was taken from this order of the referee, the allegation being that Loftin is not a bankrupt, and it was this appeal which was before Judge Purnell today, the question being whether the adjudication was or was not a correct one. W. D. Pollock, appeared for Loftin, T. C. Wooten for the creditors.

There is much abandoned cotton and corn in the fields. It is contended by some of the old farmers that there is as much or nearly as much as in the year 1867, yet known as the "rainy year."

All the contracts for school text books have been signed by the six firms which won the awards. Gov. Aycock can now issue his proclamation, the depositories will be named and matters be put in shape for the fall terms of the schools.

Gen. Matt. W. Ransom accepts the invitation to believe the address before the Confederate Veterans at their reunion at Wrightsville, which begins August 14. Henry A. London of Pittsboro is so informed by General Ransom.

Mr. London says this will in all probability be the last large reunion of Confederate Veterans in this State, and says interest in it should therefore be of the highest character. The address will probably be delivered on the 15th.

State Auditor Dixon returned last night from Winsor, where he addressed 3000 persons. He was greatly impressed by the size and the enthusiasm of the audience. The occasion was an Ex-Confederate reunion.

The State Treasurer says 66 sheriffs have paid last year's taxes in full, and the others, save one, have paid part. He declines to give the name of this one but said there had been a Republican sheriff in that county for the past 8 years and that the Fusion Treasurer gave him half November 30th to settle. Now the sheriff is a Democrat and claims the time on account of the illegal extension given his predecessor. Many influential Democrats in the county are writing letters backing the sheriff in the latter's contention that the "custom" ought to be followed, and beg that the sheriff be allowed "the usual time." Of course it is illegal and the Treasurer demanded settlement at once. The contention strikes the State officers as unique.

Don't be satisfied with temporary relief from indigestion. Kodol Dyspepsia Cure permanently and completely removes this complaint. It relieves permanently because it allows the tired stomach perfect rest. Dieting won't rest the stomach. Nature receives supplies from the food we eat. The sensible way to help the stomach is to use Kodol Dyspepsia Cure, which digests what you eat and can't help but do you good. F. S. Duffy & Co.

Roosevelt Boom Started.

Ontario, Ill., Aug. 1.—Vice-President Roosevelt, Governor Yates and several Illinois Republican politicians held a conference in the auditorium today. Governor Yates favors Roosevelt's nomination in 1904, and the impression is abroad that he wishes to be known as the leader of the Roosevelt boom in Illinois.

"I don't care to say anything about our talk," said the Vice President. "Governor Yates may say something." "We may have talked a little politics," said Governor Yates, "but nothing that would interest the public." The Vice President left for Colorado Springs.

Katydid Comes Ahead of Time.

WILMINGTON, Del., Aug. 2.—The appearance of the katydid two weeks ahead of time has caused some uneasiness among farmers down the State.

Farmers say the katydid comes about six weeks ahead of the first frost, and it this should prove true the corn and buckwheat crops would be damaged.

Farmer's Institute.

RALPH, Aug. 2.—Next week the Commissioner of Agriculture, State Chemist and Prof. Massey start out on their work of holding farmers' institutes, which will take up the remainder of August. Some institutes will be held in September also.

THE LOTTERY CONCLUDED.

It is Thought That There Will be 2,000 Claims Available for Squatters.

R. Raso, O. T., August 2.—The drawing of winning numbers in the United States land lottery was concluded today, 13,000 envelopes having been taken from the wheels, 8,500 for each land district. The crowd about the platform on which the drawing took place was much smaller than on previous days. Beginning August 6, one hundred and twenty-five names in each district will be called daily for 60 days for the filing of homestead entries.

The estimate is made by a government official that in each land district 1,000 of the 6,500 numbers will not be taken in the 60 days, because of homesteaders who will be disqualified, or who will leave the country believing their claims to be worthless. This will leave only 5,500 persons who will make entry in their respective districts.

Two thousand claims will be left for the wagon emigrants and others who have been in the country for months and failed to draw a number. At the end of the 60 days, these persons can go immediately to their land office and file, or if they settle upon a homestead in advance of any other person they can remain thereon three months before filing their entry. Homestead speculators who registered for the sole purpose of selling their prizes if they should be winners, are already seeking to sell relinquishments of their claims.

Nest of Bank Notes.

LYNN, Pa., Aug. 1.—Farmer Jared Wilcox recently became suspicious of banks, and, withdrawing \$900, he hid it in a stocking, which he placed in a trunk in the attic of his home. He had occasion to use some money yesterday, and upon going to the trunk he found that mice had made a nest of the notes. He will send the remnants to the Redemption Bureau.

Oil Company Increases Its Capital.

Trenton, N. J., Aug. 1.—The Southern Cotton Oil Company today filed papers increasing its capital stock from \$200,000 to \$11,000,000. The papers were signed by Samuel T. Morgan, president and Alan H. Harris, secretary.

Uniform Freight Rates.

Special to Journal.
RALPH, Aug. 2.—The corporation commission continued today the hearing in regard to the securing of uniform freight rates on cotton and also of uniformity of general freight rates, by abolishing the "differential rates" on various roads, which are 15 to 35 per cent above the standard tariff. The railways claim that they must have this aid to make their business pay on the particular lines affected.

A GREAT RACE BOOKED.

The Abbott to Meet Crescens on the Brighton Beach Track.

COLUMBUS, O., Aug. 1.—Crescens and The Abbott will race over the Brighton Beach track on August 15, during the meeting of the New York Breeders' Association. This announcement was made here today after W. L. Marks, manager of The Abbott, saw the champion trotter work out and held a conference with Trainer Geers.

He then informed Secretary McCully, of the Brighton Beach Association, that his horse would meet Crescens at the scheduled time. The race will be three in five heats to harness. The horse has improved wonderfully.

Potatoes Strong in Price.

WOODBURY, N. J., Aug. 2.—White potatoes, which have been selling at Mullica Hill at \$4 per barrel for several days, have advanced to \$4.15. The crops is good in Gloucester County, and the farmers are delighted at the high prices secured.

STANDARD TIME.

To Ascertain and Promulgate It is a Costly Task.

"What time is it?" Few questions are more common than this, and yet each day the United States government goes to a great expense in giving it an official answer. To ascertain the instant when it is noon on the seventy-fifth meridian and to send that information all over the country is a great and a costly task. The astronomical observatory in Washington computes the true time, which is thence transmitted by electricity to every important city and town.

About five minutes before the Washington noon the telegraph companies cut off all their regular business except on lines where they have more than one wire. They then connect all important points, from which there may be numerous ramifications, with an electric wire going into the great clock in the observatory so that all over the country its tickings may be heard. For the ten seconds just before 12 o'clock there is silence, which is broken by the "noon beat" regular business is then resumed.

In some cities the wires connect with a time ball which drops with the noon beat. The time ball in Washington over the state, war and navy department building is three feet in diameter and can be seen from all parts of the city. Crowds frequently gather about to see it fall, a distance of 21 feet, high in the air. The man whom some of the spectators suppose to be dropping the ball is merely there to hoist it again to its place.

In the building beneath are 23 clocks which are each day automatically corrected by it. An electrical device "sets" them, placing hour, minute and second hands exactly vertical at the instant the ball drops. The hands that are too fast are pushed back, and those that are slow are thrust forward.

Although Washington is on the seventy-seventh meridian, the noon hour is for convenience computed for the seventy-fifth, the time standard for the eastern part of the United States. In the central belt, which is governed by the ninetieth meridian, the signal from Washington means 11 o'clock, in the Rocky mountain belt it is 10 o'clock, and on the Pacific coast line it is 9 o'clock.

If the action of your bowels is not easy and regular serious complications must be the final result. DeWitt's Little Early Risers will remove this danger. Safe, pleasant and effective. F. S. Duffy & Co.

Falling Vision Inevitable.

Strange to say while all parts of the body is growing, the eyes are going back, this begins at the 10th year, but does not become manifest until middle life; at the age of ten the eye possesses a near point of (3) three inches, at (30) twenty four inches, at (30) thirty, 5 inches, at (40) forty, 9 inches.

At this period the near or close point has receded beyond a comfortable distance, because of a flattening of the eye, also a hardening of the lens and a weakening of the muscle governing it, therefore as the power of making the lens more convex is removed and as the eye becomes flatter, you must see that trouble commences and aid must be had from some source.

Selensol and art has bestowed us with that aid in glasses which adds convexity to the eye and restores the near point to a comfortable distance.
