After quite an extended experience of prescribing and noting results of various mineral waters, I unhesitatingly think this water the best renovator and "builder up" of them all. For Scrofula, Catarrh and Blood Diseases generally it is almost a Specific. Too much, in my opinion, cannot be said of the curative properties of Vade Mecum Water.

FREIGHT RATES.

Decision of the Corporation Commission Today to Equalize Them.

Rain Did Much Good. Text Book Proclamation Issued. A. & M. College Matters. The Encampment Very Satisfactory.

RALEIGH, Aug. 6.—The commissioner of agriculture says the fine rains of yesterday and last night make the farmers smile. Nearly 2 1/2 inches fell. Corn needed rain, as some of it was "drying." In fact all crops needed it more or less.

The lumber interest is again looking up. Mills in this section find business better than in many months.

The corporation commission's session tomorrow will be of special interest, as it now appears it will then settle the matter of equalizing freight rates. The hitch is mainly as to the Carolina Central railway, which claims it cannot operate if the increase of 30 per cent in its differential over the standard rate is cut off. An attorney here who had occasion during the Matthews suit to look into the affairs of the Carolina Central says it does have a hard struggle to live.

Sportsmen are informed by farmers that there are many partridges. Some fear has been expressed that the heavy rains in June might have drowned the young birds.

To day, a representative of Silver, Burdette & Co., the one firm which has not signed to Text Book contract, arrived here to see the State Text Book Board. The executive proclamation regarding the text books was issued today. It was delayed much longer than was expected.

No news was received this morning regarding the condition of the Governor's son who is sick in a private hospital at Wilson. News last night gave no possible hope of his recovery.

The executive committee of the Agricultural and Mechanical College is considering the names of a number of aspirants to the Chair of Mechanical Engineering. The college is being put in shape for the fall term. During the past few days examinations for both agricultural and general scholarships have been held in most if not all of the counties in the State.

Adjutant General Royster says the percentage of attendance of the three regiments of the State Guard at the encampments has greatly gratified the military authorities.

Beware of Green Fruit.—Now in the heated term people should pay attention to their diet, avoiding unripe fruit and stale vegetables which invariably bring on cramps, cholera morbus, or diarrhea. Children are particularly subject to complaints of this kind, and no mother can feel safe without having a bottle of PAIN-KILLER. It is a safe, sure and speedy cure. Avoid substitutes, there is but one Pain-Killer, Perry Davis'. Price 55c. and 90c.

Chinamen Cannot Land.

WASHINGTON, August 5.—Assistant Secretary of the Treasury Taylor today received telegrams from shipowners and masters of vessels lately arrived in San Francisco stating that owing to the strike there they are unable to unload their vessels and asking that Chinamen employed on the ships be permitted to unload the vessels.

The masters and owners guarantee to the Government that the Chinamen will not be permitted to go beyond the wharves and to prevent their escape.

Secretary Taylor has replied, holding that this would be a violation of the Chinese Exclusion act and refusing to allow the Chinamen to go upon the docks.

Fines into County Fund.

RALEIGH, Aug. 6.—The State Superintendent of public instruction decides that all fines collected by a city or town must go to the general school fund of the county and not to the city or town schools alone. He is now at Winston, looking after a case in which this question is involved.

Dowager Empress Dead.

Cronberg, Aug. 5.—The Dowager Empress Frederick died at 9:15 p. m., this evening. The death of the Dowager Empress was somewhat sudden. At 4 o'clock her physicians reported no change in her condition. Emperor William and Her Majesty's other children and the Empress Augusta Victoria were in the sick room most of the day. They were all around the bedside when the Dowager Empress passed away, quietly. Professors Renvers and Spielhagen were also in the room. The flag on the castle was immediately half-masted. At 9 o'clock this evening, Emperor William conducted the members of the Dowager Empress' household into the death chamber and led them, one by one, past the bedside to take a last farewell of their mistress.

SICK ROOM GOODS

Do you know what we mean by "Sick Room Goods?" We mean all of the articles which have been brought out mostly during recent years—articles for the alleviation of suffering among those who are ill as well as articles of use in the home, such as Fountain Syringes, Hot Water Bags, Medicine Droppers etc., etc. We have a good stock of all this class of goods and are selling them at very reasonable prices. Come in and look at them. Much suffering and often sickness can be avoided if the proper Sick Room article is in the house ready for use at the proper time. Bradham's Pharmacy.

Cockrell's Lost Check.

Senator Cockrell is out \$24—that is, he thinks he is, but he is not sure. The circumstances are peculiar.

The senator was a member in 1898 of what is known as the "assay committee" by members of congress. The function of that committee, which is composed of members of the house and senate, is to visit the mint at the city of Philadelphia. They go into the vaults where the gold is stored after being manufactured, and after picking out coins promiscuously they weigh, measure and test them to determine whether the specifications of the government for their casting have all been complied with. The work has never been considered onerous, and the assignment to the committee has been sought. On the particular occasion referred to the senator at the close of the work in Philadelphia received a check from Mr. A. Loudon Snowden for \$24 for his expenses and services rendered. It was the night before the return of the committee to Washington, and on his way to his hotel the senator was jostled and on reaching the hotel found that he had lost his pocketbook.

The senator has a lingering recollection of being somewhat backward about admitting the robbery to his colleagues and says it is barely possible that he swallowed his loss without disclosing it. In time the matter passed entirely out of his mind.

But a short time ago it was recalled to him by the receipt of a letter and a package sent from Philadelphia. The letter stated that in tearing down an old house in the tenement district of the city a pocketbook was found under one of the floors. The pocketbook contained the check for \$24. The senator took it to the treasury department, and the officials looked up the records to learn if the amount had been paid. After a search through many a dusty ledger the officials found the record of the check in question, and an entry showed that it had been presented and paid. The senator says it is possible that later he had another check issued in place of the one which had been stolen. In any event the check itself makes a souvenir which he will gladly retain.

If the action of your bowels is not easy and regular, serious complications may be the final result. DeWitt's Little Early Bitters will remedy this dangerous, painful and distressing condition. V. S. DUFFY & Co.

Clerk and Carrier Examination.

New Bern, N. C.
The United States Civil Service Commission announces that on Sept. 4, 1901, an examination will be held in this city for the positions of clerk and carrier in the post-office service.

All persons who have been examined for the position of clerk or carrier within the past year and failed to pass may be re-examined upon filing new applications in due time.

This examination offers an excellent opportunity for entering the Federal service to bright, energetic young persons who are not afraid of hard work, and the Commission hopes that a sufficient number of intelligent, active persons will present themselves for this examination. It may be stated that there is a wider field for advancement upon merit in the Federal service than in many private employments, not only by promotion in the same office, but by transfer to other parts of the service.

The nature of the examination is a test of practical, general intelligence and of adaptability in post-office work. The age limitations for this examination are as follows:

Clerk, not less than 18 years.
Carrier, between 21 and 40 years.
Applicants for male clerk and carrier must have the medical certificate in Form 101 executed. Applicants for carrier must be at least 5 ft. 4 in. in height, and weigh not less than 125 pounds. Female applicants are not required to have this certificate executed.

For application blank (Form 101), full instructions, specimen examination questions, and information relative to the duties and salaries of the different positions, application should be made to the undersigned.

Applications must be on file with the secretary of the local board before the hour of closing business on Aug. 26, 1901.
ALBERT F. PASTENBERG,
Secretary Postal Board.
