New Bern N. C. August 11, 1901.

WHO IS FREE FROM HOT WEATHER WEAKNESS?

The numerous soda fountains and stands where iced drinks are found in this city, and in every other city and town throughout the country, and were cold drinks are sold during the summer months to the hot and thirsty passerby will naturally provoke the query from a certain class, who will figure out how much money is spent for cold drinks, and therefore wasted, and how little comfort is gained by the expenditure of sundry five and ten cent pieces during the course of a day.

These money expenditures are shown to be mere money dropping, without an equivalent, for the cold drink is estimated to give five seconds relief, to be followed by fifteen minutes of discomfort, as the drink forces a rush of blood to the surface, with an increased activity of the sudatory glands and pores.

While money can be wasted by an excessive daily expenditure at the fountains of coldness which give immediate, if only temporary solace to the parched throat, yet to make emphatic protest against spending of money for a single drink during the days while the dogstar rages, is as absurd as to say, save money by doing away with many of the modern conveniences which require money, and yet are not beyond the means of the moderately well-to-do.

Then these nickels and dimes when given in exchange for the cooling drink, are not wasted in the sense of having gone out of existence, for thousands gain a livelihood from these fountains, and a business is created which goes into and affects many commercial lines.

The would be economist may preach the saving of money by doing away with cold drinks, and point out the human weakness, through such indulgence, but who would be free from this weakness in a moderate degree, even if thereby a few nickels and dimes might be saved?

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address,

England's Drastic Measures.

London, Aug. 9.—A proclamation issued by General Kitchener to the Boers in arms on August 7th, demanding their surrender on pain of confiscation of property and permanent banishment is published in the parliamentary paper issued today. The proclamation was made in accordance with instructions from the Imperial government. The Governments of Cape Colony and Natal concur. The date of surrender is fixed at September 15th.

P. T. Thomas, Bumlerville, Ala., "I was suffering from dyspepsia when I commenced taking Kodol Dyspepsia Cure. I took several bottles and can digest anything." Kodol Dyspepsia Cure is the only preparation containing all the natural digestive fluids. It gives weak stomachs entire rest, restoring their natural condition. F. S. Duffy & Co.

Run Down by a Tug.

Jersey City Aug. —Early this morning a tug ran down a row boat ferrying minstrel employes of Lehigh railroad across the basin. All were thrown into the water but were rescued after several narrow escapes.

What a Tale it Tells.

If that mirror of yours shows a wretched, sallow complexion, a jaundiced look, moth patches and blotches on the skin, its liver trouble; but Dr King's New Life Pills regulate the liver, purify the blood, give clear skin, rosy cheeks, rich complexion. Only 25c at C. D. Bradham's drug store.

HANDLING BIG SERPENTS.

Possibly Snakes Is Disliked by Certain For Experimenting.

"In handling a big snake you must always touch him with a soft, smooth, gliding motion of the hand, making it feel to him as much as possible like the touch of another snake, and, besides, you must be careful to keep his tail out straight. Keep the tail straight, and he can't coil on you. His bite is nothing, for he has not poison, but his coil around your leg or arm or body will crush the bones.

"The poisonous snakes—the water, moccasins, rattlesnakes and copperheads—are bought for zoos. Now and then a doctor buys them heavily for awhile. He wants to experiment with their poison. After he has been bitten two or three times he stops buying.

"There are a number of people who buy snakes for pets. These people always, without an exception, make pets also of rats, mice and turtles. Any one fond of snakes is sure to be fond of those other things too. They keep their snakes and turtles and rats as near as possible to them. Often they keep them in their bedrooms. There was a young man who used to come here last year after pine snakes—a university student. That young man would sit with his hand in among the coils of a cageful of snakes for hours. He would take one's head in his hands and lift its face close up to his own and gaze for a long time in its eyes. Then he would hold it off and stroke it and study its changing colors in a kind of trance. I don't know what pleasure or satisfaction he got out of the snakes. He bought over a dozen from me during the year and kept them in his bedroom in a boarding house. They all escaped one night through a rathole and got among the neighbors and raised general ballyhoo."—Philadelphia Record.

The weight of all the air on the globe would be eleven and two-thirds trillion pounds if no deduction had to be made for space filled by mountains and land above sea level.

"Through the months of June and July our baby was teething and took a running off of the bowels and sickness of the stomach," says O. P. M. Holliday, of Deming, Ind. "His bowels would move from five to eight times a day. I had a bottle of Chamberlain' Colic, Cholera and Diarrhoea Remedy in the house and gave him four drops in a teaspoonful of water and he got better at once." Sold by F. S. Duffy & Co.

The King Leaves Tonight.

London, Aug. 9.—The King and Queen depart at 11 o'clock tonight on the Royal yacht Victoria and Albert to attend the funeral of the Empress Dowager of Germany which will be held Sunday.

No Police Protection.

New York, Aug. 6.—Owing to the great number of burglaries, hold ups, thefts, fights, etc, recently in the borough of Queen's, Attorney Murrill today formally requested the county sheriff for aid in protecting life and property, alleging that the police protection was most decidedly deficient.

Astounded the Editor.

Editor S. A. Brown, of Bennettsville, S. C., was once immensely surprised. "Through long suffering from Dyspepsia," he writes, "my wife was greatly run down. She had no strength or vigor and suffered great distress from her stomach, but she tried Electric Bitters which helped her at once, and, after using four bottles, she is entirely well, can eat anything. It's a grand tonic, and its gentle laxative qualities are splendid for torpid liver." For Indigestion, Loss of Appetite, Stomach and Liver troubles it's a positive, guaranteed cure. Only 50c at C. D. Bradhams' drug store.

Prince Henry of Orleans Dead.

Saigon, French Cochin China, August 6.—Prince Henry of Orleans, died at 3:30 this afternoon. He was a son of the Duke of Chartres who served on the staff of General McClellan during the Civil war. The Prince was descended from Henry Fourth, exiled from France.

They Struck it Rich.

It was a grand thing for this community that such an enterprising firm as C. D. Bradham secured the Agency for Dr. King's New discovery for Consumption, the wonderful remedy that has startled the world by its marvellous cures. The furor of enthusiasm over it has boomed their business, as the demand for it is immense. They give free trial bottles to sufferers, and positively guarantee it to cure Coughs, Colds, Bronchitis, Asthma, Croup and all Throat and Lung Troubles. A trial proves its merit. Price 50c and $1.00.

Colombia and Venezuela at War Again.

Willemstead, Island Curacoa, August 8.—The Venezuela government has advices of that a new Columbia invasion occurred yesterday morning near Coton. The invading army is commanded by the Columbian minister of war.

Strike Situation Unchanged.

Pittsburg, Aug. 9.—The strike situation does not seem to have definitely changed. Mr. Gompers had not stated up to a late hour this afternoon what his action would be. There are persistent rumors of coming arbitration, but they have not yet been traced to any reliable source.

PITH AND POINT.

Some people, when they work, don't do anything.

When a young man with money tells lies, the people call it "enthusiasm."

One sign of a meek man is his hat. It is always two or three sizes too large for him.

The people demand a man who dares do things, and after he does them they help hang him.

Go to bed early. In that way you shorten the hours in which you are found fault with.—Atchison Globe.

"My baby was terribly sick with the diarrhoea," says J. H. Doak, of Williams, Oregon. "We were unable to cure him with the doctor's assistance, and as a last resort we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy. I am happy to say it gave immediate relief and a complete cure." For sale by F. S. Duffy & Co.

How Did She Know?

He (at the shore)—This ocean breeze is awful damp. It makes a fellow's mustache very salty.

She (absentminded)—Yes, I noticed that.—Philadelphia Record.

All as it Should Be.

He—Darling, I feel as though we were made for one another.

She—And the money for both of us has already been made by pa. Isn't it lovely.—Boston Transcript.

In cases of cough or croup give the little one One Minute Cough Cure. Then rest easy and have no fear. The child will be all right in a little while. It never fails. Pleasant to take, always safe sure and almost instantaneous in effect. F. S. Duffy & Co.

The Passions.

We say of a man who has no will mastery, "He is ruled by his passions." They govern him, not he them. Centuries ago an Arab wrote, "Passion is a tyrant which slays those whom it governs." It is like fire, which once thoroughly kindled can scarcely be quenched, or like the torrent, which when it is swollen can no longer be restrained with its banks. Call him not a prisoner who has been put in fetters by his enemy, but rather him whose own passions overpower him to destruction.

A Puzzler.

Tibbetts—So you do not believe in the emancipation of woman?

Burton—Well, it is just here. Man is the superior being. But how is he going to show his superiority if woman is his equal? That's what I want to know.—Boston Transcript.

Mrs. S. H. Allport, Johnstown Pa., says; "Our little girl almost strangled to death with croup. The doctors said she couldn't live but she was instantly relieved by One Minute Cough Cure. F. S. Duffy & Co.

HINTS ABOUT SEA BATHING

Avoid bathing within two hours after a meal.

Avoid bathing when the body is cooling after perspiration.

Avoid bathing when exhausted by fatigue or from any other cause.

Bathe when the body is warm, provided no time is lost in getting into the water.

The vigorous and strong may bathe early in the morning on an empty stomach.

Avoid remaining too long in the water. Leave it if there is the slightest feeling of chilliness.

Avoid chilling the body by sitting or standing undressed on the banks or in boats after having been in the water.

The young and those who are weak should bathe two or three hours after a meal. The best time for such is from two to three hours after breakfast.

Avoid bathing altogether in the open air if, after being a short time in the water, it causes a sense of chilliness, with numbness of the hands and feet.

Those who are suffering in any degree of debility or ill health and those who suffer from palpitation and other sense of discomfort of the heart should not bathe without first consulting their medical adviser.

A Minister's Good Work.

"I had a severe attack of bilious colic, got a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, took two doses and was entirely cured," says Rev. A. A. Tower, of Emporia, Kan. "My neighbor across the street was sick for over a week, had two or three bottles of medicine from the doctor. He used them for three or four days without relief, then called in another doctor who treated him for some days and gave him no relief, so discharged him. I went over to see him the next morning. He said his bowels were in a terrible fix, that they had been running off so long that it was almost bloody flux. I asked him if he had tried Chamberlain's Colic, Cholera and Diarrhoea Remedy and he said 'No.' I went home and brought him my bottle and gave him one dose, and told him to take another dose if fifteen or twenty minutes if he did not find relief, but he took no more and was entirely cured." To Save Her Child.

From frightful disfigurement Mrs. Nannie Galleger, of LaGrange, Ga., applied Bucklen's Arnica Salve to great sores on her head and face, and writes its quick cure exceeded all her hopes. It works wonders in Sores, Bruises, Skin Eruptions, Cuts, Burns, Scalds and Piles 25c. Cure guaranteed by C. D. Bradham, druggist.

Peasant Costumes in Ireland.

A certain number of peasants in the wilder and remoter districts of Ireland still wear something like a national costume. About Lough Mask plenty of the lasses are to be seen in picturesque red petticoats that artists loved to bring into their sketches of Irish life. A sprinkling of the old high hats may be seen. The older fishermen wear them, but the younger school shun such antiquated headgear, as the English peasant of today does the smock frock.—London Express.

Mothers who have always so dreaded the approach of hot weather when they have a teething babe, should not forget that TEETHINA counteracts and overcomes the effects of hot weather on children, keeps them in healthy condition and makes teething easy. An Old Friend

S. S. S. has been before the public for many years; from a small beginning it has steadily worked its way to the front, and is now known in every city, town and hamlet in the country. Its staunchest friends are those who have known it longest and have witnessed its wonderful curative powers in their own families or among their friends and acquaintances. Grateful patients in all parts of the country tell of their restoration to health and happiness, and the testimony of these is the highest evidence of the medicine's worth. S. S. S. is more popular today than ever in its history—no other remedy stands so high, has ever given such perfect satisfaction or is so reliable in the cure of Cancer, Rheumatism, Catarrh, Contagious Blood Poison, Scrofula, Eczema, Psoriasis, Salt Rheum, Acne, or any disease that originates in the blood. Being strictly a vegetable preparation, you will find it agrees with you much better than a drug store concoction or any of the widely advertised potash and mercury remedies, which affect the bones, muscles and stomach, causing Rheumatism or Dyspepsia. If you have never tried S. S. S., you will be surprised at the immediate good effects, for no sooner does it get into the circulation than the appetite increases; you grow stronger, and gradually but surely it drives out the poisons and restores the blood to a healthy condition. If there is a sore or ulcer on the body, it begins to heal around the edges, the discharge finally ceases and the place gets well; muscular and bone pains vanish, and the skin is relieved of all itching, irritating eruptions. Nervous, run down and anaemic people will find S. S. S. just the medicine they need, for blood poverty and ill nourished nerves are responsible for their condition. For old people and children S. S. S. has no equal; being free from all minerals, it does not nauseate or have any injurious effect whatever, and keeps the blood in good condition, thus fortifying against disease. Experience teaches what is good and what is not good; this applies particularly to medicine, and S. S. S., a remedy that has retained the confidence of the people for nearly 50 years, must have merit—IT CURES, is the secret of its success. When you call for S. S. S. don't be persuaded to accept something else—there is no substitute for S. S. S. It is the only guaranteed purely vegetable blood purifier, and the safest and best for all blood and skin troubles. Do not let them force an inferior mineral remedy on you because there is a larger profit in it. If you have any blood or skin disease, don't hesitate to write us about it; our physicians will carefully consider your case and advise you without charge. Book on Blood and Skin Diseases free.

Don't Experiment—Take S. S. S.

APRIL 30th, 1901.

What We Have Done, Do, and Will Continue to Do.

This Bank conducts its business upon "up-to-now" methods.

It is our purpose to deal justly and liberally with all.

We carefully safeguard the interests of our customers. Moreover, we frequently do it unknown to them; as opportunities often come to us in confidential ways, and you cannot over-appreciate such consideration.

We are not disposed to overlook the fact that the interests of the Bank and those of the people are closely bound together, and cannot by any means be separated.

This Bank acts as a repository for Wills, and safely keeps them till the proper time of surrender. Will also act as the custodian of money or papers left with us in escrow. No charge for these services.

We procure Letters of Credit for intending travellers.

We aim to be prompt, progressive and liberal.

In the matter of accommodations, this Bank meets every requirement within the limits of prudent banking.

If you have never been identified with us as a patron, we ask you to consider the advisability of becoming one.

In the early future, we propose adding a novel but substantial feature that applies to our already progressive institution.
