

NEVER IMITATED

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, Syrup of Figs, manufactured by the California Fig Syrup Co., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinal, laxative and purgatives, and combining them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly, and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from castor and other aromatic plants, by a method known to the California Fig Syrup Co. only. In order to get the beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

Falling Vision Inevitable.

Strange to say while all parts of the body is growing, the eyes are going back, this begins at the 16th year, but does not become manifest until middle life, at the age of ten the eye possesses a near point of (3) three inches, at (20) twenty four inches, at (30) thirty, 34 inches, at (40) forty, 38 inches.

At this period the near or close point has receded beyond a comfortable distance, because of a stretching of the eye, also a hardening of the lens and a weakening of the muscles governing it, therefore as the power of making the lens more convex is removed and as the eye becomes flatter, you must see that trouble commences, and all must be had from some source.

Relieve and cure by looking on with that aid in glasses which add convexity to the eye and restore to the near point to a comfortable distance.

Great Tobacco Day.

Yesterday was a great day at the Planters Tobacco Warehouse, the sales being the largest of any day in the history of the warehouse.

Besides the great quantity of tobacco sold on the floor, the prices were excellent, ranging from six to forty cents per pound.

The quality of the tobacco on the floor was fine, and the premiums offered went off in short order to the farmers, who left town with arms loaded with household articles, and goodly rolls of money in their pockets.

Manager Howard thinks the merchants for their premiums given, which added much to the interest of the sale.

Among the many farmers who brought in tobacco was Mr. S. S. Waters, of Mayville, which sold at 18¢ cents per pound. Mr. Waters was highly pleased with his sale and said New Bern was a first rate market in which to sell tobacco.

The same satisfaction was heard on all sides from the tobacco farmers.

"THE EVER VICTORIOUS."

New Bern Team Beats the Columbia Army this. New Bern 15, Durham 4.

Again today at 4 o'clock.

There were two games in one yesterday, the first half heavy hitting, errors and 10 runs, the second short shaggy and all short outs. New Bern came out with 10 runs to Durham's 4.

Durham carried with four of the players who were here before and five new men. Since last time two had come to New Bern to play, Durham and Smith. The men who took their places are expert ball throwers.

There were two star plays that caught the grandstand, Bryn's support of first when he rushed up in time to catch the ball and throw himself in to touch the bag before the runner reached it, and Smith's long running catch from centre to first second. Some coasters pronounced this play the "finest yet". The hits off Glenn and Durham's pair of pitchers were nearly equal, 11 and 10. A number of long hits were made, Summer field getting in a sky-scraper that never stopped until it hit the fence. The following is the tabulated score and summary.

RAIL WITH.

Durham and New Bern will play today and game will be called at 4 o'clock.

Luck goes with Manager Clark, with all the rainy weather only one game has been blocked.

Resides Manager Clark's average in way up yonder, 19 games out of 11.

Glenn pitched good ball and took care of the grounders—one in the second was a honey cooler.

Tolson's catch and double play, Darling's take in of a heavenly fly, Smith's cunning catch in left field, were notable for the home team. Carr's pretty catches at short stop and Summerfield, Battle and Norton in the field were a credit to the visitors.

If the action of your bowels is not easy and regular, serious complications must be the final result. DeWitt's Little Early Bitters will remove this danger. Safe, pleasant and effective. F. S. Duffy & Co.

Accuracy and Exactness.

We do not guess about anything in our prescription department. We use accurate weights and measure. We also use exact methods in compounding the various components into the medicine as it is when ready to take. And then we are always precise in checking over the prescription as a final precaution to see for certain that everything is all right.

In other words we are going into details in this way, just to show you how thorough we are in every part of our prescription work. Thoroughness is exactly the word.

Our object is to get you to send or bring all your prescriptions here to be filled. We want and invite you to do this. C. D. BHADGAN, Druggist.
