No. 70 South Front Street, opposite Hotel Chattawka.

DENY INSANITY.

Bold Assertions Made in Regard to a Craven County Convict.

Thompson Sent Back to New Bern. Populist-Fusionist Talk. The Epidemic of Crime. Feeling Against Seaboard Subsidies.

RALEIGH, August 29.—No room can be provided in the penitentiary for the white criminal insane until the legislature acts. A white kleptomaniac, John Thompson, was brought here from Craven, but was taken back today because of lack of room. He was the ring leader of the 10 prisoners who made their escape from jail at New Bern, in fact he released the others. Officials say he is not insane at all, and that there has been no investigation as to his insanity, but that money and lawyers kept him out of the penitentiary proper. If this be true it is only one of a number of such cases in the State, some of which are a subject of common talk among officials. Deputy sheriff R. B. Blackledge carried Thompson back to New Bern jail. He will probably remain there until the legislature meets at least.

Z. T. Garrett, a Populist-Republican of Vance county, came here to see Ex-Senator and Populist State Chairman Marion Butler in regard to the feature of the Populist party. Butler urged that the Populists keep in tact and refrain from affiliation. Garrett said a number of these were Republicans now and did not intend to deal with the Populists any longer, that they all well understood the Populists and their devious ways.

There is a great deal of talk among the people about the epidemic of capital crime which has been prevailing for a couple of months, in Mecklenburg, Anson, Granville, Person, Surcombe and other counties, mainly outrages by negroes. Among these crimes are at least seven assaults on women and girls, one by a white man. The latter, owing to a collusion of a deputy sheriff, his friend, escaped. This case was in Granville county. The man was ordered to jail without bail privilege, and while being taken there was permitted to escape. In a Person county case a negro impersonated the husband of a white woman, an invalid. Last spring a white man was convicted of the same crime, in Beaufort county, and was sent to the penitentiary for a long term of years. Governor Aycock is naturally deeply concerned at the epidemic of crime. He is extremely anxious to break up lynchings. Because of his efforts along this line some of the turbulent element are criticizing him, and some it is said have gone so far as to make threats. The next legislature will no doubt devote special attention to this matter and arrange for the prompt punishment of crime, and better protection of criminals from mobs. Such is the opinion of not a few well informed people.

Corporation Commissioner Abbott has returned from the Piedmont section, where he visited ten counties. It rained daily. The only good crops he saw were in parts of Cleveland and Lincoln counties.

The feeling which was developing against the Seaboard Air Line here is allayed by the remodeling of the order by ends of the run of engine crews was made at Hamlet instead of Raleigh.

O. O. Buck, Belme, Ark., says: "I was troubled with constipation until I bought DeWitt's Little Early Risers. Since then have been entirely cured of my old complaint. I recommend them." F. B. Duffy & Co.

Sultan in Fighting Mood.

VIENNA, Aug. 28.—The Tegeblatt today publishes mail correspondence from Constantinople which says the Sultan will go to war rather than yield to unreasonable demands, that he is studying plans for defense and that he has ordered 300 cannon from Germany.

Strikers Losing Ground.

PITTSBURGH, Aug. 28.—The Steel Corporation continued making gains in this district and today added enough men to its force at the Star Mill to insure the working of two mills double turn—night and day—from now on. The management claims that the entire plant will be on full time before the week ends. The strikers say this claim cannot be made good and is being made merely as a bluff. In pursuance of its announced plan to rick all of its plants absolutely upon the American Tin Plate Company today commenced advertising for non-union men to go to work. All applicants are offered straight wages and permanent jobs, but in every case the application must be made personally and the applicant declares himself free from all union control. The company has not as yet made the attempt to start either its Monongahela or Duquesne plants, but announces both will be started soon.

SHELL FISH REPORT.

Commissioner's Accounts Furnished the Governor.

RALEIGH, Aug. 28.—The report of the legislative committee on the late shell fish commission and the accounts the latter presented to the State was put in print today, and placed in the governor's hands. It deals with the many accounts which Theophilus White presented, not a few of which were disallowed. After the Democratic administration came in, in January last, these accounts were held up by the auditor until they could be passed upon.

The Date Added.

RALEIGH, Aug. 29.—On the west face of the base of the statue of Vance an inscription was today placed, "Erected 1900."

SHE DEMANDED \$3,000,000.

Seemingly Demented Woman Visits The Vanderbilt Mansion.

NEW YORK, Aug. 28.—"I want \$3,000,000 from the Vanderbilts, and I want it in bonds. It is due me, and I will not leave the house until I get it."

This request startled the servants in the Vanderbilt mansion on Fifty-seventh street and Fifth avenue. A well-dressed woman had been ushered into the reception room by the butler, who thought her a friend of the family.

It dawned on the servants then that the woman was demented, and the butler quietly left the house and called Police- man Charles Raffky.

"It does not matter whom you call," the woman said, looking straight at the policeman. "I will not leave the house until I get the money that is due me."

"Well, come with me," the policeman replied, "and we will go to the bank together and draw the money. Do you want it in large denominations?"

"It is immaterial to me," she answered. Speaking kindly to the woman the policeman prevailed upon her to get into a cab and drove her to the East Fifty-first Street Station. Later she was committed to Bellevue Hospital by Magistrate Mott to be examined as to her sanity.

When asked her name she said she was Catharine Malone, of Riverdale, N. Y. She was of evident refinement.

Price of Plows Goes Up.

CHICAGO, August 28.—Plow manufacturers of the United States, large numbers of whom have been in conference at the auditorium here, have decided upon an advance of 10 per cent, in the prices of plows and all plow repairs during the coming year.

The present strike of the steel workers is given as one cause. In addition the manufacturers allege that the cost of production in every way is much greater at present than it was a year ago. The manufacturers it is said, are obliged to pay 10 per cent. more for their material now. Besides it is declared higher wages are being paid to the men employed in the works.

The increase in price will go into effect when the sales for next year are begun, in October.

Havana's Low Death Rate.

WASHINGTON, Aug. 28.—The War Department has issued a statement to show what has been done by the military authorities in Cuba toward ridding the island of yellow fever.

Pointing out that in 1899 the death rate from the yellow fever epidemic was 30 per cent. of all who had the disease, the report shows that after two years of American rule Santiago is as clean as any American city and there has been no yellow fever since December 27, 1899. Its banishment from Santiago, its habitat for 400 years was accomplished by American cleanliness and energy, intelligently directed by the military authorities, and its absence has been no freak or accident.

The general sanitary condition of Havana is said to be excellent, the death rate for June last comparing favorably with many large cities, as for instance, Mexico, with 65.68 per cent.; Vera Cruz, 67.55; and Rosen, France, in April last, 25.45. The Havana death rate was 23.25. There was not a single case of yellow fever during June, although no previous June had passed with exemption from the disease. The repression of the disease is ascribed to the attack upon the mosquito.

Philippine in War Department.

WASHINGTON, Aug. 28.—The President has appointed Jose Abree, a Filipino, an assistant in the office of the Division of Insular Affairs in the War Department. Mr. Abree came to this country about a year ago, and after taking a course at the Columbian Law School, in Washington, took the summer course at Cornell University. He will be given charge of work relating to the Philippines in the division over which Colonel Edwards presides.

What most people want is something mild and gentle, when in need of a cathartic. Chamberlain's Colic, Cholera and Diarrhoea Remedy is the kind you have always bought. It is easy to take and pleasant in effect. For sale by F. B. Duffy & Co.
