Application For Mandamus to Force Re-assessment of Railroad Property This Year.

Special to Journal. RALEIGH, September 3.—Sheriff Jackson of Beaufort county, through Senator Ward as attorney, makes application for mandamus, returnable here before Judge Robinson, at Chambers, September 5th, to compel the Corporation Commission to assess all railway property in the State, tangible and intangible, including franchises this year, asserting that the whole railway property is worth 150 million dollars, while it is only assessed at 44 millions.

There was an express understanding with the Governor, Corporation Commission and the Legislature at the last session, that if railways ceased to resist the increase of ten millions of dollars in assessment of their property, and dropped suits in Federal courts, their property would not be assessed until 1903, when a general assessment of all property will be made.

TO CLEANSE THE SYSTEM.

Effectually yet gently when constive or bilious, to permanently overcome habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, to dispel headaches, colds, fevers, use Syrup of Figs, made by the California Fig Syrup Co.

Weekly Crop Bulletin.

RALEIGH, September 3.—The Crop Bulletin for week ending Monday, September 3, 1901, says:

While on the whole the weather this week was an improvement on that of last, yet it cannot be said to be satisfactory to the farmers as could be desired. In the eastern portion of the State conditions improved, but in the western there were excessively heavy rains, which washed lands badly and injured crops on the lowlands. More sunshine is needed in all sections. The temperature has averaged 2 degrees daily above normal. Cotton has not materially improved. In some places the growth is good, but it is fruiting badly and is shedding. In many places the bolls are rotting for want of sunshine.

The condition of corn has improved, especially on uplands and on red soils. On bottom lands the condition is not so good owing to heavy rains. The fields are very grassy. Late corn is doing well except in the western portion of the State, where it has had too much rain.

The cutting and curing of tobacco is being pushed, the color being good. Foddering is well advanced, except in the western portion, where the work has been retarded by rain; on uplands the work is being pushed, but on lowlands the crop is yet too green; there has been too much rain for saving the fall crop.

Farmers are breaking land for sowing. Wheat not threshed has been injured in the shock. Oats are good, but not plentiful; some has been damaged in the shock; some sowing has been accomplished. Much hay has been cut, but more sunshine is needed for the work. Early sowed turnips are coming up to a good stand. Field peas are doing finely. Gardens have improved, but are very grassy. Cabbages are rotting. Potatoes are very promising. Very little improvement in fruit is noted. Rice is heading nicely.

Have you a sense of fullness in the region of your stomach after eating? If so you will be benefited by using Chamberlain's Stomach and Liver Tablets. They also cure indigestion and sour stomach. They regulate the bowels too. Price, 25 cents. Sold by F. B. Duff & Co.

Great Council of Red Men in Session. Good Attendance.

Corporation Commission Will Listen To Exceptions Embodying School. List of Gotton Mills. Escaping Convict Shot.

RALEIGH, Sept. 3.—The Great Council of Red Men of North Carolina met here in annual session this morning. Walter L. Liddell of Charlotte presiding. There is a large attendance. The most prominent visitor is Great Inchoone Connolly of Philadelphia. The order is strong here and there is much preparation for the entertainment of the Great Council.

The corporation commission meets tomorrow and will begin the hearing of exceptions by the Seaboard Air-Line and Southern railways to its recent order reducing freight rates on branch lines and also reducing freight rates on cotton.

A school for embezzling opened here today. It is the third this year. Undertakers after December 31 must be embezzlers.

Among today's arrivals are Walter L. Liddell, J. T. Anthony, Charlotte; W. B. Goodwin, C. O. Bailey, T. T. Whitcomb, J. M. Richardson, F. H. Ziegler, Elizabeth City; and Louis D. Duval, superintendent of the Carolina cotton mills.

Governor Aycock spoke at Beaufort today, his theme being public education, the subject nearest his heart.

The Bureau of Labor statistics will later in the year publish a list of cotton mills which will be more complete than any other. It will probably have to send agents to some mills, which have declined to answer the inquiries made by the Agricultural Department; in fact this is found to be the only way to get accurate and complete figures.

In May the new management of the penitentiary was quite confident it would be necessary to secure in some way a loan, or an advance by the State, of at least \$25,000 to tide it over this year, but so far it has conducted operations without having to borrow any money. A large number of the convicts are now profitably employed on railroads and it is the intention to employ 300 more of them in this way if possible.

Late yesterday afternoon while a train loaded with convicts and clay from the clay pits was coming to the penitentiary a negro convict jumped off and made a dash for the woods. A rattling volley was poured into him and he was hit by many bullets and buck shot. He was literally shot to pieces, yet lived three hours. He was from Salisbury and was serving a thirty-year term for murder.

Directions for Colic in Horses—Contents of small bottle of PERRY DAVIS' PAIN-KILLER in quart bottle, add pint warm or cold water, sweeten with molasses, shake well until all mixed, and drench well. Give about half at once, then balance in 10 or 15 minutes, if first dose is not sufficient. This will be found a severe-falling remedy. Avoid substitutes, there is but one Pain-Killer, Perry Davis'. Price 25c and 50c.

An Engineer Prevents a Hold-up.

Fort Worth, Tex., Sept. 2.—An attempt to hold up a passenger train on the Gulf, Colorado & Santa Fe at Death Valley, near Guthrie, O. T., last night, was frustrated by the daring of the engineer. A pile of ties was placed across the track which the engineer discovered but instead of stopping, he opened the throttle and cleared the track of the obstruction. The engine was slightly damaged.

Old Darling, 1019 Howard St., Fort Huron, Mich., writes: "I have tried many pills and laxatives but DeWitt's Little Early Risers are far the best pills I have ever used." They never gripe. F. B. Duff.

Accuracy and Exactness.

We do not guess about anything in our prescription department. We use accurate weights and measures. We also use exact methods in compounding the various components into the medicine as it is when ready to take. And then we are always precise in checking over the prescription as a final precaution to see for certain that everything is all right.

In other words we are going into details in this way, just to show you how thorough we are in every part of our prescription work. Thoroughness is exactly the word.

Our object is to get you to send or bring all your prescriptions here to be filled. We want and invite you to do this. C. D. BRADHAM, Druggist.
