WILL RECOVER.

Cheering Announcement Regarding The President From The Physicians.

CONTINUES TO IMPROVE.

The Chief Executive Rests Easy and Cheerful. All Conditions Favorable. Czolgosz Makes Confession.

Special to Journal. BUFFALO, Sept. 9.—The President has shown continued improvement during the day. He has been comfortable, without pain or unfavorable symptoms. His bowels, kidneys and functions were normal. Pulse 113, temperature 101, respiration 26.

So much improved was the President, that Mrs. McKinley again visited him and conversed several minutes.

When Senator Hanna heard of this he said, "The next thing, he will be asking for a cigar."

After a consultation with all the physicians late this afternoon, Dr. Parke made the announcement, "The President will get well."

BUFFALO, Sept. 9.—Czolgosz has confessed to the Superintendent of Police that a week before the shooting of the President he attended a meeting of anarchists, where it was proposed to assassinate President McKinley.

After discussion I agreed to do the shooting. Czolgosz further said he met a woman here a week ago, believed to be Emma Goldman.

"I had a male accomplice," said Czolgosz, "sixth or seventh in the line ahead of me, with a white handkerchief tied over his hand the same as mine, to see if the guard would let him pass. The guard allowed this man to go, and paid no attention to me when I approached the President, and fired."

BUFFALO, N. Y., Sept. 8.—Providence seems to have intervened, and as a result the hope of saving President McKinley's life is brighter late tonight than at any other time since he was shot.

The change in the weather from Saturday to Sunday has been remarkable, and its benefit upon the sufferer has greatly gratified his physicians and friends. The atmosphere is now like that in the Adirondacks. The sky has been clear and the sun was warm during the daylight hours, but a cool and refreshing breeze has tempered the atmosphere, making the day ideal so far as its effects upon the President are concerned.

In consequence of this where there was gloom there is now unexpressed joy. Confidence has replaced depression. Everywhere and by everybody here the opinion is expressed that President McKinley will recover. During the last 24 hours his improvement has been steady. It would be incorrect to say that danger has passed, but every moment gained brings him that much nearer to recovery.

Early bulletins on Sunday announced that the President had passed a restful night and was in little pain. His temperature began to fall, and though the physicians watched carefully there was no indication of the approach of a dangerous fever.

Early in the forenoon the President fell into a light sleep, from which he did not arouse for more than two hours. Again in the afternoon he slept, and at each awakening he showed evidences of increased strength.

Dr. Charles McBurnie, who was called from New York for consultation, was with the President twice. Once in the morning he saw him alone, and again in the afternoon when the other physicians were present. His report did not differ from anything else that has occurred since the President was shot to give cheer to his friends. Dr. McBurnie found not a single unfavorable symptom. He said that of necessity a wound such as that inflicted by Czolgosz is of grave danger in its consequences, and he declared that it would be folly to attempt to pass a final opinion concerning the outcome of the case.

He dwelt at length upon the favorable fact that the sufferer has not yet exhibited any symptoms of sepsis. It could not be that said if there was any considerable inflammation of the stomach. Other favorable conditions led Dr. McBurnie to believe that there would be no peritonitis.

Thus far the bullet which is still in the body gives the physicians no anxiety. But if the slightest inflammation appears in the region of the lead it will be extracted. No difficulty is anticipated in this regard. One of Edison's best X-ray machines and his most skillful and trained operator, Dr. H. A. Knells, have arrived. The batteries are charged and the machine ready for instant use. With it the physicians say there is not the slightest doubt that the ball can be located perfectly for an operation.

They do not deem it advisable to say any of the President's strength at this time. All his reserve forces is needed now to resist the danger of peritonitis and septic poisoning. Besides, if inflammation does not set in around the bullet it will soon become encysted.

Today also for the first time since the shooting nourishment was administered to the President. It was in liquid form and was injected hypodermically to avoid the possibility of irritating the walls of the stomach.

Don't wait until you become chronically constipated but take DeWitt's Little Early Biscuits now and then. They will keep your liver and bowels in good order. Easy to take. Safe pills. F. S. Duff.

THE ATTEMPTED ASSASSINATION

How the Scene Appeared to a Newspaper Reporter Who Saw the Shooting.

BUFFALO, N. Y., Sept. 8.—A newspaper reporter who stood just behind the President when the shooting occurred gave one of the clearest accounts related so far. He said:

"I stood ten feet from the President and saw Czolgosz approach him. The latter had his right hand drawn up close to his breast and a white linen handkerchief wrapped about it bore the appearance of a bandage. He extended his left hand, and I am quite sure the President thought he was injured, for he leaned forward and looked at him in a sympathetic way. When directly in front of the President Czolgosz drew his right hand forward and fired. I saw the flash and smoke, followed by the report, and then heard the second shot. Instantly John Park, the colored man, and Secret Agent Foster were upon Czolgosz, and they bore him to the floor. Czolgosz, lying prostrate, still retained a hold on his revolver, and seemed to be trying to get his arm free to fire again.

"The President did not fall. He raised his right hand and felt of his breast, and seemed to be maintaining his upright position only by a wonderful effort. I am sure he did not speak at the moment. He gazed fixedly at his assailant with a look which I cannot describe, but which I shall never forget, and in a moment reeled back into the arms of Secretary Cortelyou. Czolgosz's revolver had by that time been knocked from his hand, and some one had picked up the burning handkerchief which lay at his feet. Czolgosz was picked up, forced back and again knocked down.

"Mr. Cortelyou and Mr. Milburn supported the President and led him to a chair. I heard him ask that the news be kept from his wife, and a moment later, when Secretary Cortelyou asked him if he felt much pain he said: 'This wound hurts very much.' He seemed to be fairly easy as he rested in the chair, and some of the fading color came back to his face. He reached his right hand inside of his shirt, and when he withdrew it his fingers were tipped with blood. He gazed again at the sight of the blood, and I think he fainted.

"Senator Asprex, the Mexican Minister, broke through the crowd, and, rushing up to the President, cried: 'My God, Mr. President, are you shot?' The Minister seemed about to throw himself at the feet of the President, but was restrained. The President's answer came very slowly, and in a halting, subdued voice. He said: 'Yes, I believe I am.' The President was attracted by the scuffle of the officers who were dragging the would-be murderer away, but he did not speak. His head rested on the arm of Mr. Milburn and he seemed only partly conscious. His courage was superb, and while he was conscious he was the master of the pain which he suffered. When the ambulance came and a stretcher was brought in he started forward and partially regained his feet unassisted. I heard not a word from the assailant of the President. He was struck down the moment he fired the second shot, and if he did speak it was probably in exclamation at the very rough treatment he was receiving."

TO CLEAR THE SYSTEM

Effectually yet gently when constive or bilious, to permanently overcome habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, to dispel headaches, colds, fevers, use Syrup of Figs, made by the California Fig Syrup Co.

NO ANARCHISTS HERE.

So Says Governor Aycock. State Officers. Prayers for President. Taxation Under New Revenue Act.

RATION, N. C., September 9.—The State officers of the National Marble Company of Murphy, Cherokee county, capital \$500,000, stockholders T. M. Brady of Canton, Ga., 1736 shares, A. S. Bennett of Murphy 994 shares, and John H. Dillard of Murphy 16 shares.

Collector Dupont announced the sale of the Cypress Distillery Company's plant at Wilmington on account of irregularities.

At all the churches here there were special prayers for the President's recovery, and at several the pastors referred to the necessity for getting rid of

anarchists. At the Soldiers' Home in the afternoon Auditor Dixon prayed for the President most fervently.

Governor Aycock issued extradition warrant to day for William Ray, a white man wanted by Governor McMillan of Tennessee, for murder in Greene county, that State.

It will probably be ten days before the Corporation Commission decides whether its order reducing freight and passenger rates on branch lines of the Southern and Seaboard Air Line is to stand.

Corporation commissioner Abbott is now on a trip to various counties to confer with the authorities in regard to taxation under the new revenue act. He was today in Orange, and will go to Alamance, Davidson, Cabarrus, Davie, Wilkes and Yadkin. Commissioner Rogers is at Asheville, to attend the meeting tomorrow of the railway commissioners of the Southern States.

Mrs. Aycock has gone to Seven Springs, to join Gov. Aycock, and they will return here Thursday.

The vital statistics report for this city for August was finished today. There were only 20 deaths, 10 of whites, 10 of negroes; and 34 births. Of the deaths 12 were of children under 5 years. Only 2 were of white adults, both of lung disease, one a man of 81. Only 1 new typhoid fever case was reported and 2 cases of scarlet fever.

Gov. Aycock in reply to an inquiry as to the proper thing to do with anarchists said: "We have no anarchists in North Carolina, for which I am profoundly thankful. I am distinctly in favor of any reasonable and constitutional legislative enactment which will make or tend to make impossible a recurrence of the awful crime recently committed against the nation."

12 Arrests in Chicago.

CHICAGO, Sept. 8.—The trail of President McKinley's assailant, it is believed by the police here, has been found in Chicago.

It is known that Czolgosz has been in this city on at least two occasions within the last few months, and already 12 men and women, all anarchists, have been arrested on the suspicion that they may have been concerned in a conspiracy with him. Warrants charging "conspiracy to kill and assassinate the President of the United States, William McKinley," have been sworn out before Justice Prindiville against the nine men and women arrested in the Free Society headquarters at 515 Carroll avenue. What action will be taken against the other three men who were arrested later at 100 Newberry avenue has not been determined.

That these arrests are only the beginning of a general gathering in of the more violent and dangerous anarchists of Chicago is implied by the police. There is no intention of giving any possible guilty man a chance to escape by such hesitating methods as followed the Haymarket riot.
