### Vice President and Other Public Officials Leave For Their Homes Arrest of Emma Goldman who Declares Herself Innocent of any Complication With Czolgosz.

**SPECIAL TO JOURNAL.**  
BUFFALO, September 10.—The President continued to exhibit favorable symptoms this morning, and these continued throughout the day, with gradual decline in pulse and temperature. The improvement has been so great that it is decided to discontinue the soon bulletins.

Mr. Milburn, at whose home the President is lying, stated this afternoon that the President was much better than at any time since he was shot. He is on the road to speedy recovery.

Secretary Hitchcock said, "There is no longer the slightest apprehension in regard to the President's condition."

The President asked again today for a newspaper, and also when he might be able to sit up.

Vice-President Roosevelt leaves for home late tonight.

Senator Hanna went to his home in Cleveland this afternoon.

CHICAGO, September 10.—Emma Goldman who was arrested here this afternoon, charged with conspiracy and being implicated with the attempted murder of the President, broke down and wept after a long and close examination, by the chief of police, who says the arrest will lead to the breaking up of the most blood-thirsty gang of anarchists which ever infested any country.

Emma Goldman declares she does not know Czolgosz, and had nothing to do with the attempted assassination.

BUFFALO, N. Y., September 9.—Until the last doubt of the President's recovery has vanished, Leo F. Czolgosz will be held by the police to await the result.

Should the President recover, the charge of assault with intent to kill will be made against the assassin and the proceedings will be conducted wholly in the State courts. This was settled by a conference between Governor Odell and District Attorney Penney, held in this city, and the plan has been approved by Secretary of War Root.

Governor Odell came here to arrange for the trial and punishment of the anarchist. After talking with Mr. Penney he agreed to appoint a special trial of the Supreme Court for the trial of Czolgosz. The case will take the usual course. Czolgosz will have an examination and will be held for the action of the grand jury, which will indict him on several counts. His trial will follow as soon as possible. Should evidence of conspiracy strong enough to warrant action be obtained the nature of the charge will be altered.

Though the best penalty for Czolgosz's crime, should the President recover, is only 30 years in prison, he will not probably escape with this penalty. It will be remembered that he was associated with his brother, Benjamin, and Foster and James Parker, the negro who grappled with him. Each of these acts constitutes separate assault in the first degree, on which indictments will be found. The assassin was also guilty of carrying concealed weapons and committed two distinct assaults upon the President in firing two shots. The element of conspiracy presents another crime. So a construction of the law to fit the entire case is said to warrant half a dozen indictments for different offenses on which the prisoner may be convicted and sentenced separately, the sentences to run successively and not concurrently.

## OYSTERS AND TIMBER.

### Attorney General Gilmer to Look After State's Interests in These. Admitting a Dog's Evidence in Trial Case.

RALPH, September 10.—The Supreme Court today took up the docket of appeals from the third district. Among the attorneys present are ex-Senator T. J. Jarvis, Ex-Congressman Harry Skinner and ex-judge Augustus M. Moore. The most interesting case on the docket was argued today. It is from Pitt county, and involves the question, entirely new in North Carolina, of the admissibility of the evidence of a dog. Blood hounds tracked a thief, the latter was convicted without evidence, coupled with some other, and based his appeal upon the point that a dog's evidence was in law valueless. The attorney general argued strongly in favor of the dog's evidence.

Manager Rivers of the Academy of Music here says that beyond question the building will be enlarged and entirely remodeled as soon as the theatrical season ends.

Capt. Claude B. Denson of Raleigh accepts the invitation to deliver the address before the survivors of Co. A, 20th regiment, at Mt. Olive.

Attorney General Gilmer will make two trips to the east; the first to look after the taxes upon oysters, the second to look into the wholesale deprivations upon the State's timber. The State has not received a fifth of what it should have received from the tax on oysters, as in all sorts of ways the law has been evaded.

The number of students at the Agricultural and Mechanical College here, 305 fills it. The authorities will endeavor to get more dormitory room for next year. The need for it is pressing.

The State pension board continues its arduous work of separating from the thousands of approved applications for pensions. From Cumberland 45 were approved by the board and none rejected, from Cumberland 187 approved and 15 rejected, from Davidson 89 approved and 91 rejected, from Edgecombe 25 were approved and 10 rejected, from Greene 23 approved and 1 rejected.

Mrs. Rosemond, whose husband, a fireman on the Seaboard Air-Line, was killed last month in a wreck at a wash-out near Cheraw, sees the railway for \$30,000.

Peace Institute here opens tomorrow with by far the largest attendance in its history. President James Dinwiddie has had to lease buildings outside. He says it is the plan to build a dormitory, as a memorial of the late Rev. Dr. Burwell, the first president.

The contract for the office building of the Carolina Trust Co. here is let. The cost will be \$42,000.

Most of the paper now used is made from wood and other vegetable fibers which are chemically not very different from the material of which a hay-stalk is composed. Consequently if paper is stacked damp heating is likely to take place just as it does with peat-moss stacked hay, and at any time humidity burst out as the result of spontaneous combustion.

## A Famine in Korea.

PORTLAND, ORE., Sept. 9.—The steamship Knight Companion, of the Portland & Asiatic Line, arrived yesterday from Hong Kong and Yokohama. The Kobe Herald of August 1st says: "Yesterday the Korean government issued order that no rice or grain should be exported, the cause being that little short of a famine threatens the country on account of a lack of rain. The whole country is in a most dreadful state. Many farmers have planted other crops in the rice fields and these are fast dying up for want of rain."

The Kobe Herald of August 1st says: "An earthquake of a more serious character than has been experienced in Japan for many years occurred at Aomori on Saturday. Railroads were badly damaged. There were considerable subsidences between the towns of Shirouchi and Numazaki."

## Rebels Intend to Attack Colon.

KINGSTON, Jamaica, September 9.—The royal mail steamer Para, from Colon, reports rebel activity in the neighborhood of Panama and Colon. She also reports that fighting has taken place at Boca del Toro. The government of the latter place failing to repulse the rebels, the rebels have given notice of their intention to attack Colon within a fortnight. The government is continually moving troops to meet the rebel advance. Trade continues almost paralyzed.
