PHENOMENAL RAINFALL

That For August 1091 Exceeds All Records. Averaged 12.18 Inches For State

RALEIGH, Sept. 12-In the course of an in terview today with weather observer Von Her, mann some astonishing facts were ascertained regarding the August rainfall in North Carolina. The rainfall presence of Emma Goldman at the com averaged 12.18 inches for the State. This is the highest ever recorded for any mon'h in any year since 1872 when the taking of observations began

The nearest approach to it was September, 1877, when 10 inches fell. In the mountain district the August rainfall was phenomenal. At two stations, Piat Rock in Hunderson county, and Highlands, Macon county, over 30 luches fell, and at soven stations over 20 inches. Rain fell at some places 23 out of the 81 days.

during May, June, July and August was no less than 32 inches. This also was even more then a record breaker.

The rents in the stomach, caused by
