### TO DIE.

**Assassin Czolgosz Found Guilty of Murder in First Degree.**

**Will Die in Electric Chair Next Thursday. Remains Unmoved While Men Weep. Testimony of Witnesses Yesterday.**

**Special to Journal.**  
BUFFALO, Sept. 24.—The trial of the assassin Czolgosz was resumed today at 10 o'clock. Samuel Fields, the Chief Engineer of the Exposition was the first witness today. He testified as to the direction taken by the people in passing before the President in the Temple of Music. Dr. Mann was then called and said that the bulletins issued by the physicians were correct and that they did not suspect the existence of the state of affairs as shown by the autopsy. He gave several cases as to the President's death and said that nothing known to surgery could have prevented the death of the President.

As this statement was made by Dr. Mann, the murderer assumed a look of satisfaction. The first direct evidence was introduced at 11:15 in the shape of the handkerchief used by Czolgosz to hide the revolver. It was dirty and stained with blood and torn. Several witnesses then described the shooting. James Quack testified that the night of the shooting Czolgosz confessed to police headquarters how he had followed President McKinley to Buffalo from Niagara Falls where he had been unable to get close enough to the President to shoot him.

Czolgosz had been deliberating three or four days to kill the President. He originally intended to commit the murder the day before he accomplished it but postponed it for some unknown reason. The assassin, said the witness, said that he did not believe in this government, that the President was a tyrant and should be removed. He said that he was influenced by the teachings of Emma Goldman and of another woman in Cleveland.

This was the most dramatic period of the trial and the crowd in the court room was stirred up to a great pitch of anger.

Artilleryman O'Brien testified that after the shooting had taken place and he was taken away, the President said to him, "Be easy with him, boys."

At half past two Judge Lewis, of the counsel for Czolgosz, began the plea for the assassin. After reviewing the shooting he said that no sane man could have killed the President. Even as he spoke Judge Lewis and his listeners were in tears and women present wept aloud.

District Attorney Penny then addressed the jury. He paid a tribute to the departed President and said that Czolgosz was sane when he committed the assassination.

Judge White began charging the jury at three twenty-five. He said that the evidence presented proved the guilt of the prisoner and urged a verdict of guilty to be brought in.

The case went to the jury at ten minutes before four o'clock. The jury returned to the court room at nineteen minutes past four and returned a verdict of murder in the first degree.

Czolgosz was removed and glanced at the jury and then at the Judge. He was half dragged from the court room to the jail.

The assassin will be sentenced to die in the electric chair at two o'clock next Thursday.

### STATE'S SWAMP LANDS.

**Finch Compromises His Case With State Board of Education.**

**Special to Journal.**  
RALEIGH, Sept. 19.—The case involving the option to the State's swamp lands did not go before Judge Robinson under the mandamus proceedings, but was compromised in the Governor's office by the State Board of Education and the attorney for K. S. Finch. Finch surrenders his option on all the swamp lands upon condition that the Board signs deeds for two lots of land he has sold in Tyrrell county, of 1000 acres and 2000 acres, and permits him to sell 6300 acres more of Tyrrell county lands, provided he does so and tenders the money before February 11th, next, when his option expires. This settles the case and non-suit is taken.

**President James A. Bryan Will Be Re-elected. State Proxy Report of Board on Condition of the Road.**

**Special to Journal.**  
RALEIGH, September 24.—The Board of Internal Improvements of the Atlantic and North Carolina Railroad met here today and elected the following eight directors for the road for the ensuing year: Charles M. Busbee, of Raleigh; W. H. Smith, of Goldsboro; L. Harvey, of Kinston; J. C. Parker, of Oliners, Jones county; James A. Bryan, of New Bern; T. W. Dewey, of New Bern; R. W. Taylor, of Morehead City; L. G. Daniels, of Bayboro, Pamlico county.

The Board elected J. W. Grainger of Kinston for State's proxy at the meeting of the stockholders of the road to be held in New Bern Thursday.

The election of the above named directors insures the re-election of President Jas A. Bryan. The report of the Board of Internal Improvements on the condition of the A. & N. C. railroad was made today. It says that the physical condition of the road is good and that a good many improvements had been made. The report says that the railroad shops have been greatly improved and several new warehouses built and better track made. The financial status is now good and the debt incurred for much needed improvements is being paid off. There has been a large increase in receipts. The total receipts two years ago was 187 thousand dollars, this year it was 240 thousand dollars.

B. W. Parsell, Kintorsville, Pa, says he suffered 25 years with piles and could obtain no relief until DeWitt's Witch Hazel Salve effected a permanent cure. Counterfeits are worthless. F. S. Duffy.

### NEARLY BUILT.

**The Railroad From Plymouth to Be Ready by November 1st.**

**The Mountain Park Parohase Penitentiary Report. Oxford Industries. Russell Wants Office. A Cranberry Bog in Tyrrell County.**

**Special to Journal.**  
RALEIGH, Sept. 24.—The corporation commission is advised that about 22 miles of the 28 mile railway between Plymouth and Washington is completed and that all will be in operation by November 1. E. A. Armstrong of New Jersey is the president.

The State Superintendent of public instruction has written a very sharp letter to the city school superintendent of a Piedmont town who sent a boy home last month because he was in a shirtwaist. The State superintendent informed the town superintendent that the State has jurisdiction of our city and town schools.

The State chartered today the Mountain Park hotel at Hot Springs, Madison county, lately purchased by Julian S. Carr. Howell Oobb and others are stockholders and the authorized capital is \$125,000.

Nathan O'Berry, penitentiary director and chairman of its financial committee, is here and says he hopes and expects to place the long looked for reports in the hands of the Governor by the end of this week. Capt. O'Berry says if the penitentiary can pull through this month it will not need any more money this year. As the cotton of the present crop will be on sale. He thinks it will pull through without having to borrow.

The cotton mill at Oxford is nearly ready to begin work. The extensive furniture factory there is doing well, and making sales from Maine to Texas. It is said there is more building in Oxford than at any time in 30 years past.

Henry Perry, the white man who was brought here yesterday, charged with outraging his 12 year old niece, was sent to jail by a magistrate who fixed the date of the preliminary hearing on October 7th. This excited some comment and the grand jury of the Superior Court criminal term, now in session, took up the matter this morning and sent for witnesses.

Some Republicans are heard to say that they want ex-Gov. Russell to be their nominee for chief justice, but it is practically certain Chief Justice Furches will get a re-nomination. Russell is here. He is engaged in preparing an important case.

The State engineer, Mr. McLee, who has been surveying in Tyrrell county, finds there a cranberry bog, full of these valuable berries. He says he is informed that there are 3,000 acres in the bog.

### Twice Nominated.

**Special to Journal.**
