TWENTIETH YEAR

NAPOLEON lost the battle of Leipzig from a fit of indigestion. How many battles do you lose in your business because you lack the supporting stimulating brace of good coffee. "Poor coffee, poor energy!" is the rule. Nature has her soft pedal down and you have no snap. If you want the loud pedal, the forceful power, the strenuous living, try Chase & Sanborn's Seal Brand Coffee. It will strengthen your arm.

Frost Now Would Cut State Crop Much Shorter.

No Surprise Over Last Cotton Figures. Corporation Commission on Taxes. Death of O. J. Carroll. Tearing up Track.

RALEIGH, Oct. 4.—Sheriff Page of this county says that if there is frost within the next ten days it will probably cut off a third of the cotton crop, so tender and undeveloped are many of the bolls.

The street railway line to the union passenger station is being torn up, and Raleigh will be unique among towns with a street railroad in having no line to the station. For three or four years no cars have been operated to the depot for the reason that the receipts did not equal the cost of operation. It was said that the receipts were something like \$1.75 a day and the cost of operation something like \$3.50.

The "Knock Arden" Company was organized here today by the Atkinson Lecture Bureau and will tour all the United States.

The Knights of Pythias held special services here last evening in memory of President McKinley. Charles M. Busbee delivered the address.

Commissioner of agriculture Patterson talking today about the government report as to cotton, said he was not surprised at the figures; that he thought the government report for August on both cotton and corn was too high so far as this State is concerned. He said he was not yet prepared to give the figures for North Carolina, as the blanks for the October report are now being sent out.

Chairman McNeill of the corporation commission says that he and the two other commissioners have so far visited 53 of the counties and conferred with the authorities in regard to tax matters, under the new act, which requires such annual visits, and that by the end of the present month they will go to the remaining counties. He says, that with but four exceptions there is very considerable increase in the valuation of property, but that it is impossible to say how much the aggregate increase will be; that it would be nearly a guess. Next year, as some of the list-takers are appointed the commissioners will go the various counties and confer with all of them.

O. J. Carroll, well-known all over this State and by a host of commercial travelers in other States, fell dead this morning at Morehead City. He was a native of Duplin county and was 55 years of age. He was in the Confederate army. For over 20 years he was a commercial traveler. During the second term of President Cleveland he was U. S. Marshal for the eastern district of North Carolina. He had lived in Raleigh about 15 years. His son, Dr. Norwood Carroll, went to Morehead City this morning.

GUM BRANCH.

October 4.—A new mail carrier every day now, as Mr. J. H. Taylor has quit and is going to move to Kinston.

We notice Sheriff Sanders around yesterday, summoning jurors, we hear.

There will be a right smart moving this winter as usual.

It seems that the day laborer must suffer, for he can't make but one or two days per week.

Messrs. J. H. Merrill and J. Ellis are gathering corn. Mr. Ellis reports the most rotten corn ever seen and some sprouting.

The scarcity of food will make scarcity of meat and the price must of necessity be high, and we are sorry for this, as we have ours to buy.

W. A. Newbold who has been sick is improving some.

Mr. H. M. Farris has hauled some cotton to the gin, if the price is low. We can't understand why it is so low for there is not over half of a crop, if that much.

Mr. D. E. Shadle told us that 150 bolls belonging to him all were removed by chiggers except 40 when the disease stopped. There is another disease (we think a kidney trouble) taking the bolls off.

Mrs. Agnes Green of Half Moon is said to be very sick, we wish her a speedy recovery.

Plenty of drummers and stragglers coming and going, hard times with the water makes hard times for the farmer.

It seems that deer trails around here do not amount to much as they come back as empty handed as they went.

BANKRUPTCY CASES.

S. H. Loftin Pays Fifty Cents and Notes For Balance. W. H. Carr & Co. of Red Springs.

Special to Journal.

RALEIGH, October 4.—Before Judge Purnell, today, the notable bankruptcy case of S. H. Loftin of Kinston, banker, merchant and railway promoter was compromised by the attorneys on both sides.

Loftin's liabilities were \$188,000, mainly on account of his backing the Great Eastern Railway.

By terms of the compromise Loftin pays one half in cash and gives his personal note for the other half. He also pays all the costs, therefore Judge Purnell dismissed the bankruptcy proceedings.

Judge Purnell grants a discharge in bankruptcy to W. H. Carr and Co. of Red Springs, who failed for a large amount.

A New Canal.

A second water power canal of great capacity is being constructed at Sault Ste. Marie. It will be 26 feet deep, 150 feet wide and calls for excavation of 500,000 cubic yards of rock.

In the Hour of Grief.

Once more thy head is bowed in dreadful shame,
O Liberty! Thy cheeks are wet with tears!
Once more the faroff skeptic speaks thy name
And on his fellow's face notes the sneer!
Out from the darkness of the door, dead years
The foul old crimson clear again is thrust!

Once more the voice of doubt assails our ears,
Once more we press our faces in the dust.
But in our hearts, thank God, there still is trust.

O Freedom, though they strike thee down, thy head
Shall still be raised, and still thy voice shall guide,
And thou shalt even grasp and crush the rod,
Smear'd hand whose ugly stain is on thy side!
Though who are heard when protesting the pride
Of honor and of strength had ample tongue,
Though doubters may be eager to deride,
Still hope, thank God, is ours; thank God the young
Have heart beats on that is so sadly wrong.
