WORTH SUES.

Attempts to Recover Loss From Clerk Martin's Shortage.

Cadets are Well Pleased, From Rural Libraries. Plumbago Mining, Hal Ayer Goes to New York. Cotton Gin Nearly Idle.

RALEIGH, Oct. 11.—It was stated last week in an interview with ex-State treasurer W. H. Worth, he begins suit at this month's term of Wake Superior Court against the Baltimore Surety company and the other sureties of W. H. Martin, his clerk, who stole over \$18,000. Worth said the other day, and repeats the statement, that the Baltimore Surety company has never paid the slightest attention to any of his requests for a settlement. It is quite evident that it will fight the suit. If it loses and does not settle, it is quite clear that it will be barred from the State. For two years Martin had personal bondmen, there being six of these. Worth also sues them, or rather his trustee does so. Worth has, as already stated, made full settlement with State Treasurer Lacy for Martin's stealings.

The cadets of the Agricultural and Mechanical College were in high spirits today because of the victory of their foot ball team over that of Oak Ridge, in the opening game of the season. The team was given a reception this afternoon on its arrival.

To date the State has paid out money for 138 free libraries for rural public schools. More than twice as many have been established, but the applications for the appropriation have not come in. It is now known that all the State's appropriation will be taken up, this being \$5000 a year. It is of interest to know that this is the first appropriation ever made by the State for books for the schools.

The governor made requisition on the governor of Virginia for Augustus Carter, who is in custody at Petersburg and who is wanted in Moore county for murder. Sheriff S. M. Jones has gone with the requisition papers.

The plumbago mines near here are again being operated, in a small way. A negro miner is taking out 15 tons a week. The plumbago is used for making paint at Philadelphia. The vein is 20 miles long and passes in two miles of Raleigh.

Hal W. Ayer, who during the late administration was State auditor and who in the preceding campaign was populist State chairman, has gone to New York and will engage in the cotton business with Dr. J. M. Ayer, his brother. He left here today.

The superintendent of the cotton oil company here says that while the mill crushed 12,000 tons of seed last season, it will handle much less this season. It is not expected that the quality of the oil will be so good as it was last season, owing to the rains. The cotton gin which the company operates is getting so little business that it is hardly able to run two days in the week.

State auditor Dixon says he is greatly impressed by Greensboro's progress and development, and says it is remarkable. He expects that the next State convention will be held there.

The State board of embalmers is called to meet here again Oct. 23-24, to examine applicants for license. This will be the last examination this year. The law as to embalmers goes into effect January 1.

WANTED FOR MURDER.

Negro Arrested Near Trenton Who Killed a White Man in Georgia.

Follockville, Oct. 11.—Bill Burney alias Lofton, a negro man living about 13 miles above Trenton, was arrested last night by Sheriff M. N. Harriet and deputies, A. S. Lee and Samuel Harrison.

Some time ago Mr. Samuel Hudson was informed by Samuel Harrison, a colored man, who knew Burney and of the crime he was wanted for in Georgia, of his whereabouts which led to a correspondence between Mr. Hudson and the Governor and Sheriff of Georgia. The facts as given by Harrison being corroborated and confirmed a warrant was issued upon the oath of Samuel Harrison by Mr. Hudson & J. P., with the above results. Burney is now in Trenton jail waiting the arrival of the sheriff of Liberty county, Ga., to take him where he is wanted for the murder of R. H. Carter, a white man, last August.

A New Buffalo Bill.

WASHINGTON, Oct. 11.—Uncle Sam will issue next week a new ten dollar greenback, which will be a novel "Buffalo Bill." The design for the new Treasury note was drawn by a celebrated artist and student of animal nature, who is connected with the National Smithsonian Institute. Several years it was engraved by one of the most skillful artisans employed at the Bureau of Engraving and Printing. Its chief feature is the representation of a buffalo bull, with bent head and outstretched tail, on a prairie of sag grass, in the position of pawing for food. The note has been so designed that as much white will show as is now visible on the silver certificate of 1899.

THE ROYAL BOX.

Henry VIII. was the first English king to wear a pair of silk stockings. The king of Roumania is personally interested in a plan to educate his people by the establishment of theaters in every town of his kingdom.

Queen Christina of Spain has always exercised the greatest care over the diet of Alfonso XIII. and dreads his coming days of state banquets.

For his smoking the king of the Belgians prefers above all outfits his favorite briar pipe and a certain brand of English birdseye tobacco. The latter he keeps constantly on hand in a quaint old jar.

For many years King Edward has not touched champagne, which was at one time his favorite beverage and which he made so fashionable. He now drinks nothing but red wine. He is considered the finest judge in England.
