TO DEFEND THE STATE.

The Governor Names Counsel to Assist in the South Dakota Suit. Permission Given to Sue.

Special to Journal. RALEIGH, Nov. 19.—Governor Aycock has engaged James E. Shepherd, James H. Merdison, and George Rountree to aid the Attorney General in representing the State in its defense against the suit to be brought by South Dakota against North Carolina. The suit involves the payment at par of certain bonds of the Western North Carolina Railway.

Permission has been granted by the United States Supreme court to South Dakota to sue the State of North Carolina for the value of bonds of the Western North Carolina Railroad Company, issued by the State, together with interest since 1899, involving in all \$388,000. The petition of the complainant commonwealth alleges that those bonds were due in 1897, and that instead of paying the principal and interest thereon, the profits earned by the railroad have been diverted to the State as dividends on the stock, all of which is held by the defendant State. A receiver for the railroad and an accounting was asked. The court directed the issue of subpoenas and providing for the hearing of argument.

Brigands Ask Immunity.

Sofia, Bulgaria, Nov. 18.—Another letter has been received from Miss Ellen M. Stone. She says her health has been somewhat affected by her continued confinement and hard fare, but she expresses herself as still confident of ultimate release.

A letter to C. M. Dickinson, Diplomatic Agent of the United States at Sofia, replying to his proposals concerning a ransom, says the brigands will hold out for a figure much above the sum at Mr. Dickinson's command. The brigands interpret Mr. Dickinson's not having fixed on the sum he is willing to pay as being an indication that he can get more money. They also demand immunity from prosecution, but it is impossible for the Diplomatic Agent of the United States here to have power to bind the Governments of Bulgaria and Turkey.

Washington, November 18.—Another cablegram received from United States General-Diplomat at Sofia today indicates that, while Miss Stone has not yet been ransomed, there is reason for feeling reassured as to her future. The dispatch furnishes evidence that Mr. Dickinson remains in indirect communication with the brigands or their agents.

Plenty of Peanuts.

Nonopolis, Va., Nov. 18.—In a review of the peanut market the Gwaltney-Bankley Peanut Company, of Smithfield, Va., the largest dealers in peanuts in the world, said today: "The new crop of Virginia peanuts matured late. Some of these dug early are lightweight, but with this exception the quality will average about that last year, though the size is slightly smaller. The crop of the State has been very favorable for harvesting and the nuts are coming with good color. There are some indications of small yields, but the crop is generally considered to be an average one in quantity."

"The crop of Spanish nuts is admitted to be the largest ever grown. The area of cultivation was widened considerably and the quality of the small lots brought to market is excellent. Several thousand bags of the best crop were carried over."

The company also announced that the production which started among persons planting factories last year has been dissolved.

RALEIGH, Nov. 19.—F. H. Busbee, as attorney for other persons, wants to buy the timber on 10,000 acres of public lands in Tyrrell county, paying the board of education 50 cents a cord for juniper timber. The matter is under consideration by the board. Busbee asks for an option.

Roosevelt to Ignore Pulls.

WASHINGTON, November 18.—Friction between the President and the Senate over army appointments is not improbable in view of the attitude taken by Mr. Roosevelt on the question of selecting officers for promotion entirely on merit.

A number of Senators calling at the White House spoke of their preference for the two vacancies in the grade of brigadier-general and were informed that during Roosevelt's administration army men could not expect to be promoted except on the ground of efficiency. One Senator communicated this information to a number of others, who are now equally disturbed over the prospect that their recommendations and influence may have no weight in the filling of higher army places. It was at one time notorious that men were advanced simply on account of the influence of Senators and others. It had been common report for years that more influence was required to secure promotion to the grade of major-general than to receive an appointment as foreign Minister. Senators who have rebelled at the President's statements proceed on the theory that all appointments confirmed by the Senate are made by and with the advice and consent of that body, and that it is a prerogative of Senators to receive recognition from the President.

The Trial of Mrs. Bonine.

WASHINGTON, November 18.—Tomorrow at 10 o'clock before Judge Thomas M. Anderson, in Criminal Court No. 1, of the District of Columbia, will begin the trial of Mrs. Lola Ida Henry Bonine, under indictment for the murder of James Seymour Ayres, Jr., in the Kenmore Hotel, in this city, on the night of May 16th, last.

The case attracted widespread interest at the time the tragedy occurred, largely on account of the mystery which surrounded the death of the young man, and this interest was augmented while the coroner's inquiry was in progress by the dramatic confessions of Mrs. Bonine of her part in the tragedy. She told her story to the district attorney and to the local detectives, saying that she had been the only person in the room when Ayres was slain and that he was killed in a struggle with her over the possession of a revolver with which he was trying to frighten her into compliance with improper demands on his part. She has been in jail under arrest since then.

Says Has No Hope.
