

NEVER IMITATED IN QUALITY.

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, Syrup of Figs, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinal laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly, and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

Mr. Alonzo T. Dill has returned, after several weeks visit in New York City. Doctor and Mrs. S. D. Barr and children, who have been living here for the last six months, left yesterday for Charlotte, N. C., in which city they will make their home.

Dr. Bull's Cough Syrup Cures a Cough or Cold at once. Conquers Croup, Whooping Cough and Measles Cough without fail. Best for Bronchitis, Hoarseness, Grippe, Pneumonia, Consumption and Lung Affections. Quick, sure results. Price, 25c.

Observe Thanksgiving Day.
Messrs. Hackburn and Dunn, the Grocers on Pollock street, have already announced to their trade, that Thanksgiving Day, Thursday, November 28th, will be strictly observed as a holiday at their respective stores.

Their customers and patrons are requested to buy their supplies on Wednesday, just as they do on Saturday, for Sunday.

Thanksgiving Day can just as well not be observed by most of the business houses in this city, with no loss to those closing up.

Both employer and employee can "take to the woods" and enjoy a day's hunting, or part of the day, and then after a comfortable turkey with "trimmings" for dinner, the foot ball game can be seen.

A holiday will make every one feel better. Any way such should be its effect.

Reliable and Gentle.
"A pill's a pill," says the saw. But there are pills and pills. You want a pill which is certain, thorough and gentle. Mustn't gripe. DeWitt's Little Early Risers fill the bill. Purely vegetable. Do not force but assist the bowels to act. Strengthen and invigorate. Small and easy to take. F. S. Duffy.

The Telephone Line.
The long distance telephone line, put in by the Henderson Telephone Company, has been completed to Morehead City. Three instruments have been put in at stations on the line and the Morehead station will be fitted up soon. The line is well built and the construction so excellent that as an example the ticking of the office clock of one of the stations can be heard at the central here.

Modern Surgery Surpassed.
"While suffering from a bad case of piles I consulted a physician who advised me to try a box of DeWitt's Witch Hazel Salve," says G. F. Carter, Atlanta, Ga. "I procured a box and was entirely cured. DeWitt's Witch Hazel Salve is a splendid cure for piles, giving relief instantly, and I heartily recommend it to all sufferers." Surgery is unnecessary to cure piles. DeWitt's Witch Hazel Salve will cure any case. Cuts, burns, bruises and all other wounds are also quickly cured by it. Beware of counterfeits. F. S. Duffy.

Superior Court.
The only matter of importance at yesterday's session of the Superior Court was the decision of the case of J. J. Royal and W. S. Chadwick involving the sale or division of lands on Bogue Banks in the Probate Court of Beaufort the matter was decided in favor of Mr. Chadwick who asked for a sale of the land in question. The case was appealed and Judge Bryan yesterday reversed the decision and ordered a division of the land which was the contention of Mr. Royal. The land in dispute lies in part opposite the Atlantic Hotel at Morehead City.

Clever Comedy Play.

It's seldom such a happy vein of comedy is introduced in one play as that seen in "Married for Money." A number of bright and clever specialties were interspersed, which were greeted with rounds of applause. It is by far the cleverest comedy seen this season—Daily Observer Charlotte, N. C.

The above comedy will be played at the Masonic Opera house on next Friday night.
Reserved seats on sale at Bradham's Friday morning.

The Best Prescription for Malaria.

Daughters of Confederacy.
The regular monthly meeting of the Daughters of the Confederacy will be held at Mrs. F. O. Roberts' this afternoon at four o'clock.

The Children's Friend.
You'll have a cold this winter. Maybe you have one now. Your children will suffer too. For coughs, croup, bronchitis, grip and other winter complaints One Minute Cough Cure never fails. Acts promptly. It is very pleasant to the taste and perfectly harmless. C. E. George, Winchester, Ky., writes "Our little girl was attacked with croup late one night and was so hoarse she could hardly speak. We gave her a few doses of One Minute Cough Cure. It relieved her immediately and she went to sleep. When she awoke next morning she had no signs of hoarseness or croup. F. S. Duffy.

A CHARLESTON TRIP.

Many Expect to Visit the Exposition at a Cheap Rate.

There is much interest felt here over the Charleston Exposition which opens December 1st. A good many people expect to go. A favorite time for going will be North Carolina Week, which will be the last week in January. Governor Aycock will be there at that time with a regiment of North Carolina troops and there will be great doings in the old town.

There will be a very low rate of fare and the details will be published later. The cheapest rate will be that offered on special tickets good for one week, leaving here Tuesdays and Thursdays. The fare on these tickets will be \$7.50 for the round trip, which is very reasonable. Leaving here on the 9 o'clock train for Wilmington, connection is made there in the afternoon and arrival is made at Charleston about 11.15 o'clock that night. The return is also made in one day, leaving Charleston in the early morning.

It is probable that several parties will be made up here to visit the Exposition which will be a pleasant way of going. There are many points of interest, in the city and its famous harbor.

The Water Carnivora.
The number of carnivorous creatures found in the water seems out of all proportion to the usual order of nature, but this is perhaps because the minute, almost invisible creatures of which the rivers and ponds are full and which are the main food of the smaller water carnivora, live mainly on decaying vegetable substance, which is practically converted and condensed into microscopic animals before these become in turn the food of others.

It is as if all the trees and grass on land were first eaten by locusts or white ants and the locusts and white ants were then eaten by semicarnivorous cows and sheep, which were in turn eaten by true carnivora. The water weeds, both when living and decaying, are eaten by the entomostraca, the entomostraca are eaten by the larvae of insects, the perfect insects are eaten by the fish and the fish are eaten by men, otters and birds.

Thus we eat the products of the water plants at four removes in a fish, while we eat that of the grass or turnips only in the secondary form—beef or mutton.

Fish That Go Forty Miles an Hour.
Few of us have an accurate idea of the rate at which fish swim. When we say that a person is "as fast as a porpoise," we hardly associate a quick rate of swimming with that individual, yet he and everybody else would like to be able to get through the water as rapidly. Porpoises have been seen to dart round and round a steamer traveling seventeen miles an hour, thus proving their capacity to swim at a greater rate than that.

The dolphin may be placed on a level with the porpoise, but the bonito has occasionally been known to approach forty miles for short distances. Herrings, in shoals, move steadily at a rate between ten and twelve miles; mackerel swim much faster, and both trout and salmon go at a rapid pace when migrating up a stream for spawning.

Whales are not fish in the scientific sense, but it is interesting to note that these monsters swim at a rate of sixteen miles an hour when excited, although their ordinary speed is estimated at between four and five miles.

The Question He Asked.
Sir Peter Edlin of the British bench was noted for his courtesy to prisoners. On one occasion an incorrigible culprit was sentenced by him to twelve months after the mendacity officer had given the usual evidence of bad character.

"Can't I speak?" said the prisoner. "Am I to be sentenced without 'aving 'ad a chance?"

"Certainly you may speak," said the learned judge. "Say what you please. You shall have every opportunity, I withdraw the sentence I have just passed until I hear what you have to urge. Take your time. Pray take your time."

"I want to ask a question, my lord." "By all means. Put any question you wish."

"Look at him, my lord," said the old rogue, pointing his finger at the mendacity officer. "Isn't he an ugly beggar?"

Sir Peter laughed till the tears came, but he didn't reduce the sentence.

The Costliest Painting.
The Duke of Marlborough is believed to be the possessor of the costliest painting in the world, which was at one time the property of the first Duke of Marlborough. The picture is known as the "Blenheim Madonna," painted by Raphael in 1507 and now valued at no less than \$70,000. It is eight feet high and represents the Madonna and Child seated on a throne, with a figure of St. John the Baptist on the left and that of St. Nicholas of Bari on the right. Its almost fabulous value is due to the fact that it is one of the best preserved of the artist's works in existence.
