Close of Church Year for Baptists and Increase Membership.

Report on Attorney General Gilmer. The Elks Banquet. Serious Condition Among Crop Tenants. The Roa-

noke Celebration.

RALBIGH, Nov. 21.—The Baptists are 10,000, and this will be well maintained. The church work during the year has been zealous, and there will be a great State mission work. The gain in the latter particular promises to far excel anything previously known.

Commissioner of agriculture, Patter son, State chemist Kilgore and State veterianian Butler, left today for Scotland Neck to hold a farmers' institute which will be the last this year.

The physician in attendance on At torney General says the latter, the fourth week of whose attack of typhoid fever began last Monday, is doing as well as could be expected at this stage.

There was considerable surprise exressed here today at the news of the displacing of J. M. Turner as superintendent of this district of the Seaboard At the banquet of the Elks given here

last night there were speeches by Congressman Thomas, Ed Chambers Smith W. J. Bellamy and others. The banquet was a very handsome one. The news of the death of Col. John L.

Morehead at Charlotte was heard here with interest. He visited Raleigh often and when young lived here. Edward B. Barbee, a widely known business man here, says the distress among tenant farmers in those parts of

the cotton belt in this State where crops are so short is so serious that he would not be at all surprised if by the middle of January, an appeal is made for aid for them. This will give an idea of their deplorable condition. Mrs. Martha Mordecal, relict of the late Henry Mordecal, is dead at her

home here, aged 72. She was the mother of Mrs. Turk, wife of a well known Southera railway official. President H. G. Connor and the executive committee of the State Literary

and Historical Society met here today as lid also Maj Graham Daves the chairman of the special committee to arrange for the great celebration on Roanoke Island next summer. This celebration was the matter under coasideration.

Three Locomotives Come Together. Los Angeles, Cal., November 20 .- A atal wreck occurred on the Santa Fe Rallroad one mile west of Franconia, of Needles, Cal., early today. Seven trainmen were killed, three passengers

and fourteen trainmen injured. Limited trains, east and west bound crashed together while running at full width combined, from the free oyster speed. The east bound train was drawn waters of the township of Brookhaven, by two engines while the west bound train had but one locomotive. The three engines were crushed and blown to pieces by an explosion which followed the collision. Both trains were made an of vestibule cars of the heaviest kind, and while they stood the terrific shock well and protected the pessengers to a great extent, several of the cars took fro at once and burned up. The dining cars, one of each train, one Pullman

ire in the Smuggier-Union Mine. Tunnel Acted as Flue.

TELLURIDE, Col., November 20.-By are in the Bullion tunnel, belonging to the Smuggler-Union Mining Company, Co probably 80 lives were lost today. Ser enteen bodies have been recovered

The fire, which is known to have bee accidental, started early this morning in the buildings at the mouth of the tunnel. At this point is located the upper terminal of the tramway to the company's new mill at Pandora, and it was in the losing up their church year. Editor bunk house attached that the fire started Bailey of the Biblical Recorder says the From this it spread to the terminal staannual gain in membership is 8000 to tion, which, with its ore bins, machinery and supplies, are a mass of ruins.

The day shift of 200 men entered the mine and had reached their stations increase in contributions, notably for when the fire broke out. The tunnel acted as a flue and a great volume of smoke poured in and filled the stopes.

About 170 of the men succeeded in reaching safety by another exit. The fire rapidly burned itself out, but the mine was so filled with smoke that it was six hours before rescuing parties could penetrate the stopes, where the less fortunate were. Seventeen dead have been removed from the mine tonight.

Like Jameson Raid.

TORONTO, ONTARIO, Nov. 20 .- Dispatches from Vancouver published here

"The Yukon insurrection story is not altogether without foundation. Some harebrained Americans drew up plans for forcibly deposing the Government and police in the Yukon, somewhat simflar to the historical Jameson raid in the Transvaal. Major Woods, of the Mounted Police, discovered the scheme and took prompt steps to suppress it. American officials at Skagway co-operat ing. The discovery of the scheme is supposed to have nipped it in the bud.

"When the plan was discovered Maxim and Colt guns were mounted at White Horse, which was the first plaace to be attacked. Major Snyder, in charge of the police there, also received reinforcements, and patrols were kept on duty night and day. It is said the scheme originated in Seattle, and \$250,000 was available to aid the venture.

amous Blue Point oyster beds in the Great South bay, were torn and virtually ruined today in a wild scramble for small oysters, the law protecting them having been found unconstitutional.

The statutes provide that the Board of County Supervisors of Suffolk county Ariz , a switch station twenty miles east may make such regulations as are necessary to protect the oysters, clams and shellfish. The Supervisors three years ago prohibited the taking of oysters under four inches, measured length and where the Blue Point beds are, and imposing fines and imprisonment for the offense. Henry P. Wright was arrested yesterday for violating the law, and ex-District Attorney W. H. Jaycox, his counsel, argued the law to be unconstitutional, and Judge S. W. Conklin so
