SORROW FOR POLITICAL PROMOTERS.

The action of President Cleveland when he took the pronounced stand on civil service reform, aroused the ire of the political promoters and spollamen in his party to such an extent, that he was eyer the subject for their resentment and had to meet the opposition of the political leaders of his party at every turn when politics was concerned.

President Roosevelt, in his course of accepting only the best men for appointment to Southern offices, is arousing the spoilsmen of his party and making of them most bitter enemies.

And this gulf is being further widened by his adoption of the recommendation of Secretary of War Root, who asks that 1500 positions in the Quartermaster's Medical Department, 8the Ordnance Department and the Engineer Department be placed in the classified civil service list.

This means that promotion will here after only go by merit, and not by poli-

It means further that the young ambitious and worthy soldier can rise upon his individual merits, and not find himself easily superseded by another whose sole merit is political friends with political influence.

That such a course left open to the young soldier means much good to the service, can not be questioned.

That it means sorrow for the political promoters cannot be doubted.

The President's actions along these lines seems to be in perfect keeping with his declaration that he would leave his conduct of public affairs to be passed upon by the people.

Certainly President Roosevelt is not paying much heed to the precedents established by the spoilsmen and political promoters of his party, and is apparently indifferent as to how these politicians are going to accept his action in the

Beware of Ointments for Catarrh That Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Go., Toledo, O. contains no mercury, and is taken internally, asting directly upon the blood and mucous sur-faces of the system, In buying Hall's Catarrh Cure be sure you get the gen-uine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co.,

The Kind You Have Always Bought

Hartford, Conn., Nov. 21.—Ceorge Rothwell the "Young Corbett" training for the championship battle on Thanks-giving Day with Terry McGovern had a narrow escape from a serious injury in the wreck of an automobile today. He was thrown against a tree.

of the weaver. Sometimes they are sinded down from one generation to mother. In some cases young girls are night the design by an adult, who tarks it in the sand. At other times a rawing of the rug is made on paper, he instructor showing her pupils the rrangement of every thread and the clor to be used. When all this has seen done, the pupils must make the ag without looking at the drawing.

Persian rugs excel those of other untries in artistic design as well as harmonious coloring. The Persians em to have a natural intuition in the The designs in Persian rugs are gen

erally floral, and in some districts, es-pecially Fars, the women weavers in-vent the designs, varying them every two or three years. The Mohammedan religion does not allow any direct rep-resentation of animal forms, conseently rugs woven under its influence take floral, geometric and vegetable forms. The Shlah sect of Moslems however, numbering about 15,000,000, of whom 8,000,000 are Persians, do not regard representations of animals as unlawful. By the industry of this sect and that of infidels and of all who disregard the law of the Koran animal forms are seen on some Persian rugs. The prayer rug was evidently invented for the purpose of providing the worshipers with one absolutely clean place on which to offer prayers. It is not lawful for a Moslem to pray on any place not perfectly clean, and unless each one has his own special rug he is not certain that the spot has not bee polluted. With regard to the purity of the place of prayer Mohammedans are specially careful when making their pilgrimages, the rugs which they take with them having been preserved from llution by being rolled up until the journey is begun or until the hour for prayer arrives. It does not matter to these followers of Mohammed how unclean a rug that is on the floor may be, because over it they place the pray-

er rug when their devotions begin. The Turkish rugs made at Sivas are always woven of wool, and almost every hamlet carries on the industry of weaving in the homes. There are no factories, the young girls and wome doing the work here as in other parts of Turkey. Sivas rugs are in mos four feet, but in these years larger and more attractive rugs are being made rugs, for they regard them as valuable property, to be sold only under the pressure of great extremity. The weav-ers are so frugal in their manner of living that their daily earning of 15 to 10 cents is sufficient to supply their wants. Their food consists usually of rice and crushed wheat, with occasion

ally a small piece of mutton.

Smyrna is only a mart for the sale of comparatively interior rugs that are made in the interior from the coarse hair of the Angora gost. These are woven in irregular designs and, although not artistic, are largely sought as coverings for the bare floors and to add warmth. The weaving of these rugs is crudely done by girls and wo-men. Sometimes the loom is primitively constructed from the trunks of trees. The designs are very simple and have either been handed down from earlier generations or are supplied from the

city. Yuruk rugs are so called from a band of nomads who dwell among the moun-tains of Anatolia. They have large flocks of fine sheep and weave rugs of firm, even texture. The colors are very good, the field often of dark brown, or-

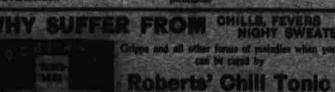

good, the field often of dark brown, or-namented with large designs.

About 200 years ago small embroider-ed rugs were largely made in Persta, chiefly at Ispahan. These were prayer rugs, and on each of them, near one end, was a small embroidered mark to abow where the bit of sacred earth from Mecca was to be placed. In obe-dience to a law of the Koran that the head must be bowed to the ground in end must be bowed to the ground in head must be bowed to the ground in prayer this was touched by the fore-head when the presentation was made, and so the letter of the law was carried out. The custom prevails. The Persian women who weave the finest prayer rugs seldom weave any other kind of rug.—"Rugs, Oriental and Occidental."

"I Followed Mrs. Pinkham's Advice and Now I am Well."

Doctors Mystified.

A woman is sick; some disease peculiar to her sex is fast developing in her system. She goes to her family physician and tells him a story, but not the whole story.

She holds something back, loses her head, becomes agitated, forgets what she wants to say, and finally conceals what she ought to have told, and thus completely mystifies the doctor.

Is it any wonder, therefore, that the doctor fails to cure the disease? Still, we cannot blame the woman, for it is very embarrassing to detail some of the symptoms of her suffering, even to her family physician. It was for this reason that years ago Mrs. Lydia E. Pinkham, at Lynn, Mass., determined to step in and help her sex. Having had considerable experience in treating female ills with her Vegetable Compound, she encouraged the women of America to write to her for advice in regard to their complaints, and being a woman, it was easy for her ailing sisters to pour into her ears every detail of their suffering.

In this way she was able to do for them what the physicians were unable to do, simply because she had the proper information to work upon, and from the little group of women who sought her advice years ago, a great army of her fellow-beings are to-day constantly applying for advice and relief, and the fact that more than one hundred thousand of them have been successfully treated by Mrs. Pinkham during the last year is indicative of the grand results which are produced by her unequaled experience and training.

No physician in the world has had such a training, or has such an amount of information at hand to assist in the treatment of all kinds of female ills, from the simplest local irritation to the most complicated diseases of the womb.

This, therefore, is the reason why Mrs. Pinkham, in her laboratory at Lynn, Mass., is able to do more for the alling women of America than the family physician. Any woman, therefore, is responsible for her own suffering who will not take the trouble to write to Mrs. Pinkham

The testimonials which we are constantly publishing from grateful women establish beyond a doubt the power of Lydia E. Pinkham's Vegetable Compound to conquer female diseases.

Grateful Letters from Cured Women.

"DRAR MRS. PINKHAM:-I have been thankful a thousand times since I wrote to you for what Lydia B. Pinkham's Vegetable Compound has done for me. I followed your advice carefully and now I feel like a different person.

My troubles were backache, headache, ervous tired feeling, painful menstruation, and leucorrhosa. I took four bottles of Vegetable Compound, one box of Liver Pills, and used one package of Sanative Wash, and am "I thank you again for the good you have

"Dram Mas, Pisham:—When I wrote to you some time ago for advice, I really thought my days were numbered. I was so ill that I could not stand on my feet for fifteen minutes at a time.

"I had female troubles in many of their worst forms, inflammation and alceration of the womb, leacorrhesa, bearing-down pains, headache, backache, and nervous prostration. My kidneys were out of order and blood in a bad condition. Every one, and even my doctor, thought I was going into consumption. I commenced to take Lydia E. Pinkham's Vegetable Compound and followed your advice faithfully for six months, with the result that I became a well woman, and it did not cost me nearly as much as a doctor's bill for the same number of weeks. I feel that your medicine saved my life."—MRS. SAMUEL BORST, 7 Cozy that your medicine saved my life."-MRS. SAMUEL BORST, 7 Cozy Ave., Oneonta, N. Y.

"DRAM MRS. PIERHAM:—I feel that words are but feeble to express a heart's gratitude, when there is so much to be thankful for as I have. I suffered with womb trouble for five years, and our family physician said an operation was needed; but I dreaded it, and reading of Lydis E. Pinkham's Vegetable Compound one day, I decided to give it a trial first. To my great joy I found that after four months' treatment I was strong and well; experienced no pain or trouble, and the Compound built up my entire system. I shall always bless the day I started to take your medicine; it proved my greatest good."—MISS SOPHIE BONHAM, 281 Oak St., Chicago, Ill.

"DEAR Mas. PIRKHAN:—I want to tell you what your medicine has done for me. I believe it saved my life. I had womb trouble and inflammation of the ovaries, and was troubled with flowing too much. I had two doctors, but they did me no good. After writing to you, I began the use of your remedies, and to day I am well. I cannot say enough in your favor and shall always praise your Vegetable Compound."—MRS. FRED. LEO, Box 520, Skowhegan, Maine.

"Dran Mrs. Printiam:—I feel that it is my duty to write and tell you of the benefit I have derived from the use of Lydis E. Pinkham's Vegetable Compound. I wrote to you last June and described my sufferings.

"I took seven bottles of your medicine and was cured of my troubles. Last September I was taken with a very bad kidney trouble. I was away from home and was obliged to return. I started to take your medicine again and was soon well.

"When I wrote to you last summer I weighed only one hundred and five. I now weigh one hundred and thirteen. I am very grateful to you for the good advice you gave me, and would recommend your medicine to all who suffer from female weakness. "MRS. In CUNNINGHAM, Oakland, Ill.
