TWENTIETH YEAR

## The U. S. Census Report of Catarrh.

COMPILED BY THE GREATEST LIVING AUTHORITY ON CATARRHAL DISEASES.

**MRS. BELVA A. LOCKWOOD.**  
Mrs. Belva A. Lockwood, late candidate for the Presidency, writes: "I have used your Peruna and I find it an invaluable remedy for cold, catarrh and kindred diseases; also a good tonic for feeble and old people, or those run down and with nerves unstrung. I desire, also, to say that it has no evil effects." Mrs. Lockwood's residence is Washington, D. C.

**CONGRESSMAN CUMMINGS, OF NEW YORK CITY.**  
Hon. Amos J. Cummings, of New York, says: "Peruna is good for catarrh. I have tried it and know it. It relieved me immensely on my trip to Cuba, and I always have a bottle in reserve. Since my return I have not suffered from catarrh, but if I do I shall use Peruna again. Meantime you might send me another bottle."

**GENERAL JOB WHEELER, Major General Joseph Wheeler, commanding the cavalry forces in front of Santiago, and the author of "The Santiago Campaign," in speaking of the great catarrh remedy, Peruna, says: "I join with Senators Sullivan, Roach and McEnery in their good opinion of Peruna. It is recommended to me by those who have used it as an excellent tonic and particularly effective as a cure for catarrh."**

Catarrh has already become a national curse. Its ravages extend from ocean to ocean. More than one-half of the people are affected by it. Catarrh is a systemic disease. Peruna is a systemic remedy. Peruna cures catarrh by removing the cause. Address The Peruna Medicine Co., Columbus, O., for free book.

### SCHLEY COURT OF INQUIRY.

Two Reports Issued. Opinions Rendered By Each. Main Issue Favors Admiral Schley.

WASHINGTON, Dec. 13.—The Schley Court of Inquiry made two reports, Admirals Benham and Ramsey concur in the first, which is signed by Admiral as per rule.

Admiral Dewey makes a separate report. The reports are as follows: Commodore Schley, in command of the Flying Squadron, should have proceeded with utmost dispatch of Olneyfuegos and should have maintained a close blockade of that port.

He should have endeavored on May 23 at Olneyfuegos, to obtain information regarding the Spanish squadron by communicating with the insurgents at the place designated in the memorandum delivered to him at 8:15 a. m., of that date.

He should have proceeded from Olneyfuegos to Santiago de Cuba with all dispatch, and should have disposed his vessels with a view of intercepting the enemy in any attempt to pass the Flying Squadron.

He should not have delayed the squadron for the Eagle.

He should not have made the retrograde turn westward with his squadron.

He should have promptly obeyed the Navy Department's order of May 25.

He should have endeavored to capture or destroy the Spanish vessels at anchor near the entrance of Santiago harbor on May 29 and 30.

He did not do his utmost with the force under his command, to capture or destroy the Colon and other vessels of the enemy which he attacked on May 31.

By commencing the engagement on July 3 with the port battery, and turning the Brooklyn around with port helm, Commodore Schley caused her to lose distance and position with the Spanish vessels—especially with the Viscaya and Coloa.

The turn of the Brooklyn to starboard was made to avoid getting her into dangerous proximity to the Spanish vessels. The turn was towards the Texas and caused that vessel to stop and to back her engines to avoid possible collision.

Admiral Schley did injustice to Lieutenant Commander A. C. Hodgson in publishing only a portion of the correspondence which passed between them.

Commodore Schley's conduct in connection with the events of the Santiago campaign prior to June 1, 1898, was characterized by vacillation, dilatoriness and lack of enterprise.

His official reports regarding the coal supply and the coaling facilities of the Flying Squadron were inaccurate and misleading.

His conduct during the battle of July 3 was self-possessed and he encouraged, in his own person, his subordinate officers and men to fight courageously.

**GEORGE DEWEY, Admiral U. S. N., President.**  
**SAM C. LEMLY, Judge Advocate General, U. S. N., Judge Advocate.**

In the opinion of the undersigned the passage from Key West to Olneyfuegos was made by the Flying Squadron with all possible dispatch, Commodore Schley having in view the importance of arriving off Olneyfuegos with as much coal as possible in the ships' bunkers.

The blockade of Olneyfuegos was effective.

Commodore Schley, in permitting the steamer Adula to enter the port of Olneyfuegos, expected to obtain information concerning the Spanish squadrons from her when she came out.

The passage from Olneyfuegos to a point about twenty-two miles south of Santiago was made with as much dispatch as was possible while keeping the squadron a unit.

The blockade of Santiago was effective.

Commodore Schley was the senior officer of our squadron off Santiago when the Spanish squadron attempted to escape on the morning of July 3rd, 1898. He was in absolute command and is entitled to the credit due to such commanding officer for the glorious victory which resulted in the total destruction of the Spanish ships.

**GEORGE DEWEY, Admiral U. S. N., President.**  
**SAM C. LEMLY, Judge Advocate General, U. S. N., Judge Advocate.**

Recommendation.—In view of the length of time which has elapsed since the occurrence of the events of the Santiago campaign, the court recommends no further proceedings be had in the premises.

(Signed) **GEORGE DEWEY, Admiral U. S. N., President.**  
**SAM C. LEMLY, Judge Advocate General, U. S. N., Judge Advocate.**

### RALEIGH.

Legislative Joint Committee to Complete Its Work Monday.

State Pension Warrants. Census of North Carolina for 1790.

Weather for November. Strength of State Guard.

RALEIGH, Dec. 14.—The legislative joint committee will complete its examination of the office of the State Auditor Monday afternoon. It will make no recommendations this year. It is making a particularly close inspection this year because of the defalcation of ex-treasurer clerk Martin. Of course the committee has unquestioned confidence in the present officials, but it is nevertheless looking with extra care into the books and vouchers.

Alexander Rhodes, who for the past 13 years has been connected with the Agricultural College and State experiment farm here, is elected professor of nature study in the State Normal School at Athens, Ga.

Most of the State pension warrants were sent out today by the auditor. The remainder will go out Monday. The total is \$200,000.

The condition of the State Superintendent of public instruction again became very serious late last night. This morning he had no fever or cough and was able to take nourishment. His pulse was weak.

The census reports for North Carolina for 1790 giving the heads of 30,000 families, will be printed in the last volume of the State Records, that for 1791, if permission can be secured from the census bureau to copy the names. Permission was once given but is now refused. Senator Simmons is seeking to have it renewed. He is also seeking to secure permission for the copying of the names of the North Carolina soldiers in the Civil war from the pay rolls which are in possession of the U. S. census bureau. These rolls were turned over by Gen. Johnson to Gen. Sherman at Charlotte in April, 1865, duly receipted for and taken to Washington. The names of some of the officials taken from those rolls have been sent here. The paper is flimsy and great care in copying is necessary. The information, if it can be secured, will be used in making absolutely correct and complete the roster of the N. C. troops, that published by Maj. Moore being noteworthy inaccurate and in complete.

The weather report for November for this State, issued today, says the mean temperature for that month was 43.8 degrees, which is 5.9 below normal. The highest was 60.3, at Southport; the lowest 23.4, at Linville. The highest absolute temperature was 83, at Southern Pines; the lowest 7 degrees, at Linville. The average rainfall was only 12.8 inches, which is 1.98 below the normal.

The summary of the strength of the State Guard was completed late last night by adjutant-general Royster. It shows that there are 2063 of officers and enlisted men. Of these there are 1789 infantry, 235 naval militia and 58 artillery. The gain over last year is 177. The gain in companies is 2.

The cost of operating the State government during the fiscal year ended November 30th was \$1,085,564. The balance at that date was \$18,362.

WASHINGTON, D. C., December 13.—After being out four hours the jury in the Bonine case, returned to the court and announced their verdict of not guilty. The verdict was the signal for applause which was immediately suppressed by the court officers. Mrs. Bonine received the verdict calmly.

**Lieut. Bradley Wooten Dying.**  
Special to Journal.  
RALEIGH, Dec. 14.—Cadet Edward Wooten left Agricultural and Mechanical college today, for Wilmington, being summoned there because his brother, Lieut. Bradley J. **The Author Was Mistaken.**  
EDITOR JOURNAL.—I see in the Journal of the 13th inst. an article relative to an encounter between myself and a man in women clothes, a supposed robber on the road between this place and Mayville. I want to say that the whole story is false and that I know nothing of such a thing and that the party who reported it to the Journal was mistaken. No one has ever made any attempt to rob me at any place or at any time.

Very truly,
