TWENTIETH YEAR

## WINTER CATARRH

In All Its Phases and Stages Cured by Peruna.

MRS. J. E. MILLS, OF NORWICH, CONN.

Mrs. J. E. Mills, 404 Main street, Norwich, Conn., in a recent letter says: "I write to let you know what Peruna has done for me. I have been troubled with catarrh since I was ten years old. At times my head troubled me so that I would be obliged to stay in a dark room. Nothing helped me and my physician said I could never be cured. I began taking Peruna this spring and find myself greatly benefited by it. I have not had an attack since I took my first bottle. I think in time it will cure me. Peruna has improved my appetite and health in general. I have gained twenty pounds in three months. I have recommended it to several of my friends, who also find it very beneficial. I advise any one troubled with catarrh to use Peruna." Thousands of men and women all over the United States use Peruna.

They do so because they have learned by experience that it is a valuable medicine.

Not only is it a valuable medicine but it is applicable to the climatic ailments of winter and summer. Extremes of heat and cold in the United States make it a land of catarrh.

Nearly everybody has catarrh. This is more especially true among the middle and lower classes. Exposure to the climate, hard work, and unventilated sleeping rooms are the principal causes. Charitable institutions have found, by bitter experience, that catarrhal diseases are not only the most numerous of all other diseases put together, but they are the hardest to cure.

Peruna is a specific for this class of diseases. No other remedy can take its place. Thousands of cases of chronic catarrh are cured by the use of simply a bottle. People who have spent large sums to be cured of catarrh, have turned to Peruna as a last resort, and been cured by the use of a single bottle.

It is a sure cure for coughs, colds, la grippe and catarrh in its many phases. Whether the catarrh is located in the head, throat, lungs, stomach, kidneys or pelvic organs, Peruna is a prompt and never-failing cure.

Mrs. Sarah Jones, Pleasant Plain, Ia., writes: "I wish to acknowledge my appreciation of the benefits received from Peruna and Manalin in the treatment of what was pronounced systemic catarrh. I took Peruna for a while and discontinued the use of it as I felt so much better. The latter part of the winter and early spring there was so much sickness here, an epidemic of colds and pneumonia prevailed. I had an attack of cold in catarrhal form, suffering with facial neuralgia and headache, but continuing taking Peruna and Manalin and was soon restored without being prostrated with weakness."

A book written by Dr. Hartman on the different phases of catarrh and their treatment, also "Health and Beauty," written especially for women, sent free to any address by The Peruna Medicine Company, Columbus, Ohio.

### VERDICT OF CORONER'S JURY.

Finding in The Cropey Case. The Autopsy.

ELIZABETH CITY, N. C., Dec. 27.—Below is given in full report of the autopsy and verdict of the coroner's jury.

The Autopsy.  
"The remains showed no marks of violence. The garments were removed and body fully exposed. The epidermis of face and head, together with hair of head, were peeled off. The face and head were swollen and sodden. There were no external marks of violence on head or face. Discoloration of pinkish tinge on front of the head and face with slight bluish discoloration over back of neck and occiput. There were no marks upon front of neck except as made by constriction of her collar.

"On anterior aspect of the body there were no marks of violence, the top skin was macerated and slipping in places and of a pinkish discoloration. The above state ment holds true in reference to posterior aspect of body. Vaginal examination showed normal condition of a virgin.

"The body was then laid open freely from clavicle to symphysis pubis, and a full examination was made of the internal organs. The uterus, or womb, was of a normal virgin size and consistency, and upon vertical section showed itself to be entirely empty. The stomach, upon being opened, emitted gas and was found to contain about ten ounces of dark fluid and solid substance; the solid substance presumed to be undigested food.

"The appearance of stomach and other abdominal organs was normal. The lungs were collapsed and free from water. Upon cross section it showed a dark liver color and upon pressure emitted small bubbles of dark blood froth. A small section, when dropped into water, floated. There was no fluid found in the pleural cavity and the pleural membrane appeared to be normal. The peribronchial sack was opened; no effusion. Both right and left cavities of heart were laid open and found equally empty and darkly discolored. The heart was normal.

"Upon the section of the scalp all around the head one inch above the brow there was found on the left side at the junction of the aqueous portion of the temporal, parietal and frontal bones a dark discoloration of the muscular substance about 3 by 2 inches in extent, visibly thickening the muscular substance and upon a section of which there exuded about half an ounce of dark fluid blood. The bone beneath this contusion was discolored slightly blue. There was no other abnormality in any part of the scalp, which was completely dissected.

"There was no fracture discovered at any point of the cranium. The skull bone was sawed through at the point of circular section mentioned above and lifted from the brain. There was no effusion of blood upon the surface of the brain or any evidence that violence had reached its structure or the internal plates of the bony covering. The brain substance itself was in a natural state and showed, so far as we could see, no evidence of damage.

"The brain was removed. While the meninges were intact and the base of the brain thoroughly inspected, there was no damage to blood vessel or bony structure. The odontoid process was in its normal condition and firmly held its restraining ligaments.

(Signed) "V. H. WOOD, M. D.,  
"O. McMULLAN, M. D.,  
"T. FRANKO, M. D."

Verdict of the Coroner's Jury  
"We, the coroner's jury, having been duly summoned and sworn by Dr. T. Fearing to inquire what caused the death of Ella M. Cropey, do hereby report that from the investigation made by three physicians of Elizabeth City and from their opinion, and also from our personal observation, that said Ella M. Cropey came to her death by being stricken a blow on the left temple and by being drowned in the Pasquotank river. We have not yet investigated nor heard any testimony touching as to who inflicted the blow and did the drowning. We are informed that one James Wilcox is charged with same and is now in custody. We recommend that investigation as to his or any one else's probable guilt be had by one or more magistrates in Elizabeth City township, and that said Wilcox be held to await said investigation.

(Signed) "T. FRANKO, M. D.,  
"Coroner."

"P. S. Ship, B. F. Spaw, Maurice Westcott, Robert J. Michell, J. B. Ferebee, J. H. Leroy.

TO CLEANSE THE SYSTEM  
Effectually yet gently when constive or bilious, to permanently overcome habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, to dispel headaches, colds, fevers, use Syrup of Figs, made by the California Fig Syrup Co.

The superiority of Carolina Cough Cure lies in the simple, natural remedies, all purely vegetables, of which it is composed. You cannot get a better family cough remedy. If you try it you will always use it when you have a cough to break up. Sold at 25 cts., and guaranteed by Bradshaw's Pharmacy.

Opera House Monday, Dec. 30th. A Breezy Time.

### RALEIGH.

Resumed Preaching After Making Money Swindling.

Attendance Association Academies Small. Cotton Mill Men Puzzled. Light Snow Fall.

Another Cannon For Museum. Pension Disbursement.

RALEIGH, December 28.—The attendance at the annual meeting of the Association of Academies is not large. It is now, by last night's vote the "Association of Colleges and Academies." There is an evident desire on the part of the academy men that some at least of the colleges shall raise their standard of requirements for admission, which if statements be true must be very low indeed.

The cotton mill men say the conditions just now are really puzzling. For some lines of goods there is a great demand; for others none at all.

Forty negroes left the southern part of this county today for Florida. They are to work at saw mills.

A little snow fell this morning. The weather is very unsettled. Assertions are made however that the coldest weather of the winter is over. February is as a rule the worst month here.

A Spanish 4.7 cannon, one of the guns of the secondary battery of the Cristobal Colon, has arrived here, to be placed in the State museum. It is some 14 feet in length. The gun will be placed beside the one brought from Manila by the cruiser Raleigh and presented to this city. The Spaniards threw overboard the breech block of the Cristobal Colon's gun.

Mention has been made of the fact that Rev. T. Bright, a Baptist preacher is charged with being one of the arch-swindlers of the notorious Amos Owen Cherry Tree Company. He sold out and resumed his preaching after having \$9000 out of the nefarious business. The Baptists will now unfrock him. The State mission board has withheld its allowance to all the churches he serves. It is surmised that he will endeavor to influence some of his churches to endorse him. One has sent in an endorsement of him.

Since last Monday the State treasurer has paid out \$49,098 on account of pensions.

State auditor B. F. Dixon whose health for a month has not been good, has gone to Beaufort for a few days in the hope that the salt air will benefit him.

The officers for the North Carolina Teachers Assembly for the ensuing year were elected here last night. Edward Mims of Trinity College, Durham, is president. The place for the next annual session is not yet chosen, but will be at the next meeting. To the retiring Secretary, C. H. Mebane, a caxo was presented; for his active and zealous work.

It is said that work on the Kinston & Carolina Railway, which the State has chartered, is to begin in 30 days.

The Best Prescription for Malaria.

Chills and Fever is a bottle of Grove's FEVER-CHILL TONIC. It is simply iron and quinine in a tasteless form. No cure—no pay. Price 50c.

### A Happy New Year
