MEDICAL COLLEGE AT RALEIGH.

Members of Faculty Elected. Chair of English Divided at University.

Special to Journal.
RALEIGH, January 16.—The Trustees of the University of North Carolina met here today, Governor Aycock presiding, and established the University Medical College at Raleigh, to give the last two years of medical course. It will be part of the University, and entirely under its control.

Dr. Hubert A. Royster of Raleigh, was elected Dean. Other members of the faculty so far elected are, Drs. W. I. Royster, A. W. Knox, R. H. Lewis and K. P. Battle, Jr.

The Trustees also divided the chair of English, making C. Alphonso Smith, professor of Language, and Dr. Hume, professor of Literature.

TO CLEANSE THE SYSTEM

Effectually yet gently when constipated or bilious, to permanently overcome habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, to dispel headaches, colds, fevers, use Syrup of Figs, made by the California Fig Syrup Co.

Keith Will be Collector.

Washington, Jan. 15.—Recorder Dancy and former Recorder Oestham arrived this afternoon. Oestham says that the white people treated him white and that the people of his own race brought about his official undoing.

The Wilmington collectorship contest is now as a tale that is told. B. F. Keith who has heretofore been mentioned in this connection as having strong backing, will get the office. The contest had narrowed down to Slocumb, of Fayetteville, and Keith. Intimidation came from the White House today that the President wished home rule to apply. Senator Pritchard then indicated his intention to appoint Keith, who is a recent convert to the Republican faith. He was on the Wilmington board of aldermen at the time of the race troubles and is said to be the only official who disapproved in outward manner the proceedings of his party organization at that time.

Grand Lodge of Masons.

Special to Journal.
RALEIGH, January 16.—The grand lodge of Masons officers were elected last night, and others appointed today, by Grand Master H. J. Clark were installed by Past Grand Richard J. Noble, Past Grand Masters. Jewels of very elaborate design were presented to retiring Grand Master, B. S. Royster.

Cut this out and take it to F. S. Duffy & Co's drug store and get a free sample of Chamberlain's Stomach and Liver Tablets, the best physic. They also cure disorders of the stomach, biliousness and headache.

Why Englishmen Dislike New York.

In a paper on "London and New York" in Harper's Sydney Brooks gives this amusing explanation of the average Englishman's dislike for living in New York:

"It is this undisguised triumph of mechanics over aesthetics, of the new and useful over the old, that after a time makes New York for an Englishman rather a deadening city to live in. The iron enters into one's soul, and comfort, one feels, can be bought at too high a price. If only Americans could learn to do things a little more clumsily their metropolis would have many more charms for the English exile. In the long run mechanical perfection becomes almost as difficult as moral perfection to live with at ease. One turns a screw, and in twenty minutes one's room is warmer than two fires could make it in half a day. It is demoralizing, avaricious, in England if the same system were introduced one could always rely on its being entertainingly out of order. But nothing seems to get out of order in New York, not even that great standby of English cemeteries and conversation, the drains.

Railroad Travel Compared.

The time table of the New York Central printed in 1844 gives ground for a comparison between the conditions of travel then and now. In 1844 it took thirty and a half hours to travel by mail train from Albany to Buffalo. In 1902, by the Empire State express, it takes five hours and thirty-seven minutes. In 1844 the fare from Albany to Buffalo was \$11.50. In 1902 the fare is \$6.15. In 1844 the route from Albany to Niagara Falls was by rail to Syracuse, thence via Oswego canal and Lake Erie; distance, 253 miles; fare, \$10; time, 22 hours. In 1902 the distance by New York Central is 205 miles; fare, \$6.15; time, 6 hours 14 minutes. In 1844 the cars were lighted with candles, there were no sleeping cars, meals were obtained at primitive taverns, and the physical condition of the roadway made long and tiresome delays necessary and a journey an irksome undertaking.—Boston Budget.

If troubled with a weak digestion, belching, sour stomach, or if you feel dull after eating, try Chamberlain's Stomach and Liver Tablets. Price, 25 cents. Samples free at F. S. Duffy & Co's drug store.

RALEIGH.

President of Harvard University Will Visit Educators at Capital.

Growth of Odd Fellowship. A School Question Settled. Grand Lodge Adjourns. Good Roads Train. Young Pines Set Out.

RALEIGH, Jan. 16.—President Elliot of Harvard University accepts an invitation from President G. T. Winston of the Agricultural and Mechanical Colleges here to visit the latter and will do so April 8. He will be here a day and night and will probably deliver an address in the Raney library that evening. A Reception will be given him there so he can meet the citizens of Raleigh and educators from various parts of the State who will no doubt be present. He is easily the first educator in America and one of the greatest living Americans. His visit to Raleigh will be an event in its educational history.

The State charters the Bynum Milling Co., of Chatham county, capital \$50,000, and the Warren Land Co. of Durham, capital \$10,000.

Grand Secretary B. H. Woodell says the growth of the Odd Fellows in North Carolina is phenomenal. There are now 8000 members, a gain of 100 per cent in the past three years. The receipts for the year will very closely approximate \$11,500.

Mecklenburg county today, paid its taxes to the State treasurer, aggregating \$36,929, a gain of \$4483 over last year. It is the first of the large counties to make settlement.

A question came up for decision by the State Superintendent of Public Instruction, and it affects the whole State. In Transylvania the school board ordered that the public schools should open on a particular day and that the term should be a continuous one. A teacher in one school stopped the exercises for three weeks, in order that the pupils might pull fodder. The county superintendent declined to pay him for three weeks he taught after the time officially fixed for the ending of the term. The board sustained him. Now the State Superintendent sustains the board, and says terms must positively be continuous, unless there is some epidemic which makes it necessary to suspend the exercises.

Considerable interest is being manifested here as to whether Raleigh will have a professional baseball team this year. It will be in a league if one is formed.

The Grand Lodge of Masons adjourned this afternoon. The new Grand officers were installed. The new Grand Master, Dr. H. I. Clark of Scotland Neck, made the appointments as usual.

The people here are called on to raise \$10,000 in order to secure the reopening of the two tobacco warehouses. A leading cotton dealer says the cotton market here is pretty nearly gone and that the re-establishment of a tobacco market is more than a necessity for the business life of the place.

The working force which will be here February 10-15, with the "Good Roads" train will build a street from the Capitol square to the Rex hospital and also build an approach to the insane asylum grounds.

Your correspondent has procured from Pinehurst 26 young long-leaf pines which are to be set out in the Capitol square, the grounds of the Governor's mansion and Pullen park. There has long been a desire to have these trees growing here.

Twenty-two convicts were sent to the roads here today, as a result of the term of the Superior court. The road force is now larger than ever before.

A Profitable Investment.

"I was troubled for about seven years with my stomach and in bed half my time," says E. Demie, Somerville, Ind., "I spent about \$1,000 and never could get anything to help me until I tried Kodol Dyspepsia Cure. I have taken a few bottles and am entirely well." You don't live by what you eat, but by what you digest and assimilate. If your stomach doesn't digest your food you are really starving. Kodol Dyspepsia Cure does the stomach's work by digesting the food. You don't have to diet. Eat all you want. Kodol Dyspepsia Cure cures all stomach troubles. F. S. Duffy.

Buried Forests.

Buried forests found in Alaska in localities where no trees exist now have revived a discussion of the theory that the arctic region once possessed a tropical or semitropical climate. A few years ago a New England professor wrote a book based on the idea that as the earth first cooled at the poles they were the original scene of vegetation and human life and that mankind gradually moved southward during the prehistoric period.

The Best Prescription for Malaria.

Chills and Fever is a bottle of Grover's Tanninase Cure. Tonic. It is simply iron and quinine in a tasteless form. No cure—no pay. Price 50c.

At Davis'.

Jordan's Cough Balsam, made according to formula of late Col. Jordan, is on sale at Davis' Prescription Pharmacy. This Cough Balsam has always been found very efficacious, and it does not contain any harmful drug. It is especially good for children. Price 25 cent.

Dr. Bull's Cough Syrup Cures

a Cough or Cold at once. Conquers Croup, Whooping Cough and Measles Cough without fail. Best for Bronchitis, Hoarseness, Grippe, Pneumonia, Consumption and Lung Affections. Quick, sure results. Price, 25c.

Lobsters.

Lobsters often travel in regiments, seeking new feeding grounds. Their migrating armies are always led by the biggest and strongest ones, while the maimed and weakly struggle along behind.

Purifying Water.

Three grains of alum will purify a gallon of water. Let it stand for a time, and if no filter can be had strain it through a piece of calico.

Sonapstone.

Every portion of sonapstone lost in cutting is utilized in other ways. It gives the dull color to rubber goods, is used in paper to gain weight and is also an excellent article to use in making fireproof paints.

Factory Accidents.

Accidents in factories are said to be much more frequent in bad weather than in good.

Cape Town Lepers.

When the Dutch founded Cape Town, there was no leprosy among the inland natives. A century later two Dutch farmers near to Cape Town were found to be lepers, and since then the disease has been steadily increasing and spreading northward among both native and European races.

Night Watchmen.

The first night watchman was licensed by the New York common council in 1607.

Campbor.

From the earliest times campbor has been a practical necessity to man. Its pleasant perfume, its destructiveness to insect life and its many remarkable therapeutic virtues have more than earned its great popularity.

Pickling.

When pickling, always use the strongest vinegar and have it scalding hot, as a cold vinegar becomes rosy and will not keep.

A Careful City.

The authorities of Aix-la-Chapelle recently sentenced to two weeks' imprisonment a man who carelessly threw away a lighted match in a forest near that city, although no damage was caused by the act.

Children Especially Liable.

Burns, bruises and cuts are extremely painful and if neglected often result in blood poisoning. Children are especially liable to such mishaps because not so careful. As a remedy DeWitt's Witch Hazel Salve is unequalled. Draws out the fire, stops the pain, soon heals the wound. Beware of counterfeits. Sure cure for piles. "DeWitt's Witch Hazel Salve cured my baby of eczema after two physicians gave her up." writes James Meek, N. Webster, Ind. "The sores were so bad she could not sit or dress a day." F. S. Duffy.
