Explanation of the Cause of Harry Skinners Appointment.

Home Rule Won for Keith. State Conventions Probable for Greensboro. State Lands. The Respite of Gorham.

RALEIGH, Jan. 24.—Inquiry was made directly of Republicans here as to how on earth Harry Skinner came to be appointed district attorney. They say that not only had Senator Pritchard promised Skinner the place but the late President McKinley had done the same thing McKinley knew Skinner in Congress and took a fancy to him. He formed a high opinion of Skinner and had also promised him the place. He had told Skinner the Populist party was dead and that the thing for him to do was to get in the Republican ranks. Skinner needed no urging. Inquiry was also made as to how Keith got the collectorship, when Pritchard wanted Slocumb to have it. In was said in reply that the President let it be known that a Wilmington man must have the place that he had two or three times been rasped by the press for not following this rule. Then the fight was with Keith and D. L. Gore and Keith got a great number of endorsements as against

The committee which is trying to get \$10,000 in subsciptions to the fund for re-establishing the leaf tobacco trade here, makes pitifully slow progress. Last Saturday it called on Charles M. Busbee, as the representative of the subscribers to the auditorium, and suggested that the \$7,000 auditorium fund be placed to the credit of the tobacco market fund, it being very evident that there will be no auditorium. The subscribers to the latter fund are called to meet February 3, to see what they will do. The auditorium was particularly desired for conventions. It is widely believed that the next State conventions will be held at Greensboro.

The attendance at the annual convention of superintendents of city schools now in session here, increased to-day. Among the arrivals were Alexander Graham, superintendent of the Charlotte

The State Board of Education has referred to Secretary of State Grimes the question whether the county surveyors and all other surveyors in countles in which there are State lands should be under the direction of State Engineer J. H. McRee. There are State lands in 11 counties, so far as known. No doubt there are such lands in other counties. William Moncure of this city, who un-

til two months ago was a prominent official of the Seaboard Air Line, is now building the Charlotte, Monroe and Columbia railway, which is to shorten the distance between Charlotte and Columbia 60 miles. He says good progress s being made.

The respite by the governor of J. A. Gorham and R. G. Ramsey, former law agents of the Southern railway, who were convicted at Statesville of tampering with a jury, is until March 17. This will be after the next term of court at statesville and will allow the respondents to make a full statement of their case. They are making their fight to keep out of tall.

A young white man named Rollins is now in jail at New Bern. He was quite recently pardoned by the governor. The latter says the pardon was granted on the ground of ill health. Dr. Furguson, one of the penitentiary physicians, said Rollins had lung trouble. The trial judge and solicitor recommended the
