RALEIGH.

Governor Aycock's Busy Times Going About.

New Buildings Opened at Soldiers' Home Next Tuesday. Sleet but no Snow. Curious Educational Case. Tobacco Warehouse As-sured.

RALEIGH, N. C., January 29.—There was a heavy sleet today. It is the first of the season. Trees and wires were heavily coated and walking was quite difficult.

The State charter the Corbett company of Wilmington, capital \$50,000, to do a commission business. M. J. Corbett and W. R. Corbett are among the stockholders.

Governor Aycock and staff will go to Southern Pines February 30, upon special invitation, and will be the guests of the town. The Governor will make a speech. He has an engagement to speak at Trinity college, Durham, February 28nd.

The programme of the exercises at the Soldiers' home next Tuesday is being prepared. It is decided that Governor Aycock shall tender the new buildings on the part of the State and that Julian S. Carr, in command of the North Carolina Confederate Veterans, will accept them. Mrs. Overman, the president of the North Carolina Daughters of the Confederacy, will be present.

The State superintendent of public instruction is now able to sit up two or three hours each day and can discuss business matters. He has had to pass upon a curious case. In a county near here a district school committee in defiance of an order from the county authorities to keep a school open, closed it. The three fourths of the parents of the children who attend it petitioned that it be kept open.

The prediction of snow failed to materialize. The farmers who have small grain sown would be glad to see snow. Funds have been raised here sufficient to assure the reopening of the leaf tobacco warehouse next season.

The Mother's Favorite.

Chamberlain's Cough Remedy is the mother's favorite. It is pleasant and safe for children to take and always cures. It is intended especially for coughs, colds, croup and whooping cough, and is the best medicine made for these diseases.

President Cannot Accept Presents.

Washington, Jan. 28.—In the present opinion of the officials here President Roosevelt cannot accept any present from either Emperor William or Prince Henry without authority from Congress. An examination of the precedents is said to disclose the fact that while in many instances presidents apparently received presents from abroad they never have retained these except by express authority conferred by Congress.

Don't Live Together.

Constipation and health never go together. DeWitt's Little Early Risers promote easy action of the bowels without distress. "I have been troubled with constiveness nine years," says J. O. Greene, Depaw, Ind., "I have tried many remedies but Little Early Risers give best results." F. S. Duffy.

To Solve Dynamite Explosion.

New York, Jan. 28.—The authorities are energetically at work trying to solve the mystery of the terrific explosion of dynamite which killed six people and did so much damage in the vicinity of the Grand Central Station.

District Attorney Jerome said tonight that he had come to the conclusion that he undoubtedly caused the explosion. Mr. Jerome has concluded from information received from various sources that at the time of the explosion there was between 125 and 300 pounds of explosive in the dynamite house and in the morning there had been probably 600 pounds.

John B. McDonald, chief contractor of the rapid transit tunnel, declared that dynamite would not explode by burning; that it could be burned just like sawdust. He said 50 pounds would have caused the destruction.

CASTORIA For Infants and Children.

The Kind You Have Always Bought. Beware the Signature of Dr. J. C. Watson.

TRIUMPH FOR MR. THOMAS.

The North Carolina Representative Crosses Swords With "Joe" Cannon. Washington Times, 28th.

Although he seldom addresses the House when he gets up to speak Representative Charles Randolph Thomas, of the Third North Carolina district, not only "says things," but talks to some purpose. This was demonstrated when the Urgent Deficiency bill was under consideration. His colleague, Mr. Small had offered an amendment appropriating \$12,000 to complete the marine biological station at Beaufort, N. C., and Mr. Cannon, in charge of the bill, was opposed to the amendment.

"Uncle Joe" made a rather sharp fight against the appropriation, and at one time it looked very much as though the \$12,000 would be knocked out. And it was at this point that Mr. Thomas "got in his fine work." He had in the meantime, however, put in a personal plea with his Democratic colleagues for the young fishes to be hatched at Beaufort, and when he addressed the House in support of the amendment he received the closest attention. He frankly told the members that he was not only interested in the amendment in behalf of the cause of science, but personally interested because the county in which the fish hatchery is located will become a part of his district after the next general election, and this was refreshing. The Government had, he said, appropriated money for a fish hatchery at Tupelo, Miss., the home of "Private" John Allen, and a lobster hatchery on the coast of Maine, and why not complete the one already authorized at Beaufort?

His plea for fish struck the hearts of all true anglers, with the result that the amendment was carried by a margin of four votes. It was Mr. Thomas' short talk that saved the day, and the fish in the Beaufort laboratory will sing his praises.

A Profitable Investment.

"I was troubled for about seven years with my stomach and in bed half my time," says E. Demie, Somerville, Ind., "I spent about \$1,000 and never could get anything to help me until I tried Kodol Dyspepsia Cure. I have taken a few bottles and am entirely well." You don't live by what you eat, but by what you digest and assimilate. If your stomach doesn't digest your food you are really starving. Kodol Dyspepsia Cure does the stomach's work by digesting the food. You don't have to diet. Eat all you want. Kodol Dyspepsia Cure cures all stomach troubles. F. S. Duffy.

Miss Stone Not Yet Released.

Washington, Jan. 28.—The State Department today received a dispatch from the United States representative in Turkey regarding the case of Miss Ellen M. Stone, the American missionary held by brigands, and her companion, Madame Tolk. Its contents were disappointing, the captives not having been released. Officials are averse to discussing the case freely, but it is understood there is some distrust of the attitude assumed by the Turkish authorities. The ransom money demanded has not yet been paid.

Cleveland's Party Starts North With Many Ducks.

Georgetown, S. C., 28.—Ex-President Cleveland and party came up from the shooting preserves at Ford Point today on the government launch Water Lily and left in their private car attached to the north-bound train at 4:30 o'clock. The party carried a large bag of ducks along and seemed in good spirits.

Effectually yet gently when constive or bilious, to permanently overcome habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, to dispel headaches, colds, fevers, use Syrup of Figs, made by the California Fig Syrup Co.

GREAT DEVELOPMENT

In Florence. The Splendid Showing of the Banner And Ozark Has Stimulated All Other Mining Enterprises.

North Idaho Star. J. N. Taylor, United States Mineral Surveyor, has just come down from Florence and reports great activity in the camp and that there is more development going on at the present time than there has ever been before in central Idaho.

"The Banner" said Mr. Taylor "is working sixty men in getting their mine ready to start as soon as their hundred ton mill they are putting in is completed. This property has developed into a great mine, I believe the largest free milling gold mine in the Northwest. They have twenty-seven feet of \$14.00 ore in one drift, and twenty-three feet of \$66.00 ore in another drift. This property was bought by a New York syndicate composed of Henry Clews, Ar buckle Bros., and others a short time ago for two hundred thousand dollars, and the value of the property, so day is hard to estimate as they have a million dollars worth of ore locked out."

"The Ozark mine lying north of the Banner is also drifting on a twenty-four foot ledge on the 100 foot level, and there is no question but what it will develop into a great mine, as it has the richest ore in the camp and has a greater showing as far as developed than the Banner. They expect to get the mill now on the property started by the first of March and add stamps enough as soon as the roads will permit in the spring to make their capacity 100 tons per day, and with those two big mines with others that are getting ready to start, the people of Florence look for a great boom in the spring. The town of Florence is full of mining men looking for bonds on property where the owners are not able to do the necessary development work to put the property on a paying basis but as usual the prospectors' idea since the development of the Banner and Ozark is such that they are hard to deal with in the way of price, but the people looking for the property have made liberal offers since the Banner and Ozark started, and I am satisfied will pick up most of the best properties between now and spring."

For particulars or prospectus regarding the Ozark mine stock, address the Ozark Gold Mining and Milling Co., Moscow, Idaho.

Walnut Taffy and Walnut Buttercups at Molloy's.
