PROFIT IN INSURANCE.

All Companies Do Well in North Carolina and Pay Big Revenues to the State. Will Renew Licenses.

Charlotte Observer.
Mr. J. R. Young, of Raleigh, the Insurance Commissioner, registered at the Sanford last night. Mr. Young said that the insurance companies of this State are in better condition now than ever before, notwithstanding the fact that this has been a very severe year on all companies.

There are 90 fire insurance companies in the State, 45 life insurance companies, 28 fraternal orders and eighteen fidelity and casualty companies. There are seven home fire insurance companies and one home life insurance company.

In most of the Southern States there are less insurance companies than there were a year or so ago, said Mr. Young, but in North Carolina it is the reverse. There are more companies than formerly.

The insurance companies last year paid into the State Treasury \$150,000 in taxes, this being an increase of about 40 per cent. over the amount of taxes usually paid by the insurance companies of the State.

Up to 1899, or before the present insurance law and commission were operative, the insurance companies never paid into the State Treasury more than \$80,000 in one year, Mr. Young declares that North Carolina gives better protection to all classes of insurance companies than almost any other State and for this reason all the companies now doing business in the State will renew their license April 1st.
