Tug Swan on Ways.
The tug Swan which was sunk in the Neuse river about eight miles below this city, a few weeks ago, is now on the ways here, undergoing repairs.
At the time the Swan was sunk, as told in these columns, it was supposed that the tug had received serious damage in her hull, and it was thought the tug was beyond repair.
But an examination of the tug shows no injury, and the cause of her sinking is now thought to be from swamping when the tug struck an obstruction in the river, as no hole appeared in the hull.

Clerk's Wise Suggestion.
"I have lately been much troubled with dyspepsia, belching and sour stomach," writes M. S. Mand, leading pharmacist of Asheville, N. C. "I could eat hardly anything without suffering several hours. My clerk suggested I try Kodo Dyspepsia Cure which I did with most happy results. I have had no more trouble and when one can go to eating mince pie, cheese, candy and nuts after such a time, their digestion must be pretty good. I endorse Kodo Dyspepsia Cure heartily." You don't have to diet. Eat all the good food you want but don't overload the stomach. Kodo Dyspepsia Cure digests your food. F. S. DUFFY.

SAVED BY PLUCK.
Captain Huston Worked His Schooner Off Diamond Shoals.
Captain Huston, who is well known in this port, where he has visited for years, had the misfortune to run his new four-masted schooner, the Orlando V. Wootton, ashore on the Inner Diamond Shoals, near Cape Hatteras on last Tuesday.
This was only the second voyage of the Wootton, and to this meet with disaster was very hard luck for Capt. Huston.
But while the wrecking company which sent a tug, to release the schooner gave up the job as a hopeless one, not so Capt. Huston, as the following from the Norfolk Virginian-Pilot, 7th will show.
"The Orlando V. Wootton, the four-masted schooner which was abandoned Wednesday by the Merritt-Chapman Wrecking Company's tug Coley, hard aground on the Inner Diamond Shoals, near Cape Hatteras, waterlogged and given up for lost by the tug crew, is again afloat. She is now riding at anchor off Cape Hatteras, awaiting the Coley, which returned to her immediately on arrival at her dock here at noon yesterday, when the news of the floating of the Wootton was communicated to her. The wrecking tug Edward Luckeubach also left yesterday afternoon to help bring the Wootton to port. They will race for the salvage neck and neck.
The floating of the Wootton was due to the pluck and perseverance of her owner and skipper, Captain Huston, who refused to give up hope when the wrecking company's people declared the case hopeless. Captain Huston and his crew, who have been cared for by the life savers at Cape Hatteras since the schooner went ashore Tuesday, boarded her after the Coley left and hoisted all sail. Yesterday morning at high tide, with the aid of a favorable wind, the Wootton was floated. On account of the buoyant nature of the cargo, pine lumber, the schooner cannot sink, it is said. The feat of floating the schooner is considered remarkable by the marine experts here, who consider the Inner Diamond Shoals where the schooner went ashore, a regular grave yard for ships. The schooner will be towed to Norfolk."

Attempted Barn Burning.
The alarm of fire about 8 p. m. yesterday, was from box 55, the fire being in barn corner Spring and Pollock st.
The fire was an attempt to burn this stable belonging to J. M. Harrison by a colored boy named John Warren, who had been employed about the Harrison place and was discharged. The attempt was made on the outside of the barn, which was filled with hay, but the hay being so closely packed, it did not burn rapidly, so that upon seeing the fire a colored woman named Mary Jeffries rushed into the barn with a bucket of water, while Henry Brinson extinguished the blaze on the outside.
A few minutes more and the fire would have been a serious and destructive one. The boy Warren had not been caught at last report.
