RALEIGH.

To Have an Auditorium Building.

State Charters. Old Soldier Dead. Organ Recital. Cammick Mine. Prominent Arrivals. Good Roads Association.

RALEIGH, March 25.—Interest here today centered on the meeting of the Democratic State committee, which began at 4 o'clock this afternoon, and the choice it would make of the meeting place of the State convention. The fight was between Raleigh and Greensboro. Both places had committees at work among the committeemen.

The State charters the Greensboro Canning, Pickling and Sauer-Kraut Company, capital \$100,000, in 1/10 shares, of which Adrian Pickhardt owns 600 and F. A. Pickhardt 180; both of Greensboro.

Midney L. Dixon, an inmate of the Soldiers' Home here, died last night, aged 80. He was from Charlotte, and was in Co. C, 30th N. C. Regiment.

Mrs. Lucy B. Evans, one of Raleigh's oldest residents, died last night, of pneumonia, aged 83.

At the First Presbyterian church here this evening there was an organ recital, given by Robert LeRoy Haslop, of Baltimore, assisted by Mrs. Gilmore Ward Bryant of Durham, Miss Mary Wilson and Miss Minnie Pitch Tucker, of Raleigh and James P. Brawley. The organ cost \$3,000, and half of this sum is given by Mrs. W. C. Kerr, in memory of her husband, who was drowned a few years ago near Baltimore, and who was a son of the late State geologist of North Carolina, W. C. Kerr.

There are now only 60 miners in the soft coal mine at Cammick. The daily output is 100 tons. It is learned that it is very difficult to secure miners.

The ice dealers here have advanced the price of ice 10 cents per 100 lbs. Formal notice is served.

The State charters the Kaob Creek Improvement Co., of Elizabeth City, E. F. Aydtell and others stockholders; capital \$15,000; also the Mt. Airy Mangle and Table Co., with \$50,000 capital authorized, and the Mecklenburg Fair Association of Charlotte, with \$10,000 capital, with a long list of prominent citizens as stockholders.

Among today's arrivals are: Dr. P. L. Murphy, Morganton; E. J. Hale, Fayetteville; J. C. Crawford, Williamston; J. A. Hartness, A. D. Watts, Statesville; Locke Craig, Asheville; Gen. W. P. Roberts, Gatesville; C. C. Lyon, Elizabethtown; Walter E. Moore, Webster; A. S. Willis, Morehead City; Maudie Bellamy, A. S. Heide, Wilmington; W. E. Rodman, Washington; T. O. Whitaker, Trenton; O. H. Gulon, New Bern.

The executive committee of the North Carolina Good Roads Association, calls the next convention to be held at Raleigh in February. The last convention held here, was declared by Col. Moore, the president of the National Good Roads Association, to be the best yet held in any State. Good news of its results come to daily. The State Association will urge the employment of a State road engineer. It has appointed a committee composed of P. H. Hanes, S. L. Patterson and J. A. Holmes to take the present road law and out of it evolve one practical and not cumbersome, to be submitted to the next legislature. The present law is far too cumbersome for most of the counties.

Work is ordered to begin actively May 1, on the remodeling and enlargement of the Academy of Music here. This building was bequeathed to the Methodist Episcopal church, the trustees of which to day gave a deed for it to the Raleigh Auditorium Association, the consideration being \$15,000. The building is to be made to seat 1,400, besides 300 on the stage. The alterations are to cost \$12,000. The work will be finished in about three months.

It takes the constant labor of 60,000 people to make matches for the world.

London Litter Purvis.

It is the opinion of leading scientists that London consumes no fewer than 15,000,000 fowls a year, which it even exports among the population would allow about three per head per annum.

LOST LAKE.

Said to be fabulously rich in coarse gold.

Prospecting for gold makes husky men even if they don't always find it. Sometimes these men can tell interesting tales.

Joseph Morehead whose headquarters are in Elgin, Ore. writes, "Last Fall I came down here, attracted by the rich strikes in the Baker City fields. On my arrival I heard a 'fairy story' of a 'lost lake' in the Blue Mountains which was said to be fabulously rich in coarse gold. The story had all the 'ear marks' of the 'lost mines' and 'lost cable' stories to be found in every mining district; prospectors driven out by Indians, brought pocket full of nuggets with him, died and left the customary rough sketch of the locality, etc., etc."

I determined to have a look for it, and as the formation is volcanic it is too rough for pack animals. The problem was how to carry food enough, in addition to my pick, pan and blanket, for a two week's sojourn in the mountains. I had, a short time before, been prospecting with an old mountaineer in the Blister Root range in Montana. He was an enthusiast on the subject of Grape-Nuts and Postum Coffee. In fact he lived on them. I used to 'josh' him about his 'grub' but soon grew to like it myself and finally got to eating Grape-Nuts three times a day and as much of Postum as I got the chance.

So with my former experience in mind I got five packages of Grape-Nuts and some packages of Postum Coffee which, with a little sugar and salt were all the supplies I took with me, and for nine days laborious climbing over the rough, out country out of doors I had nothing also except an occasional trout caught from the stream. I came back feeling first class and am offering to bet that I can average thirty miles a day over mountain trails with thirty pounds of blankets, etc., on nothing but Grape-Nuts."

This food can be digested and will fatten a nursing infant and it also sustains and works wonders with the hardest physical and mental workers, including football and baseball players, athletes of all kinds, editors, doctors, ministers, lawyers, business men and other brain workers.

NEGRO LYNCHED.

Walker The Poisoner of The Tayloe Family.

Taken From Williamston Jail and Hanged on Tree Near The Scene of His Crime. History of the Affair.

Special to Journal.
WASHINGTON, N. C., March 25.—The body of James Walker, recently sent to the Williamston jail, from here for better protection, was found this morning hanging from a gum tree, on the Greenville road, just outside of the town limits.

A man coming to town early this a. m. came against the hanging body, and coming into town gave the alarm.
Coroner Tayloe summoned a jury, who rendered a verdict that the negro came to his death at the hands of parties unknown.

Walker was taken from the Williamston jail last night by a party of about 35 men, who had gone to the jail and battered down the door, and taken the man out.
The party, which was well organized met with no resistance whatever. One or two persons on the road they met, were escorted back to their homes, with the request to remain within doors.

James Walker's, the dead man, crime, was that of poisoning on March 16th, the entire family of Dr. D. T. Tayloe, of Washington, N. C., except one child, by putting arsenic in the coffee and hash, which the family had for breakfast on that day.

The man, who was a driver for Dr. Tayloe, and a colored nurse, in the Doctor's family, had threatened to kill each other, and the family was poisoned in the attempt to kill the nurse, by Walker.

The family received prompt medical attention and several had narrow escapes for their lives.

Walker after being arrested was taken to the jail at Williamston, about 20 miles distant, for better protection, as public feeling was high against him.

From a Stranger.

While I was looking yesterday at different phases of business in this growing little city I was much impressed with the Trade River warehouse. They were as busy as bees. Numbers and numbers of carts, many bringing and carrying freight but on my way up the wharf I ran against another enterprise. It was a saw mill cutting cord wood in store lengths and there I found four carts taking it away. It was indeed a surprise to see how quickly it was cut and how many loads were carried in a day. Am now thinking of hearing here, excuse me for writing you as I am only a stranger to your city. I forgot to say that upon inquiry I found the wood was at Moore's Wood Yard.
