BENEFACTORS DAY.

Baptist Educators Meet at Raleigh in Interest of Their Cause.

The Big May Festival. The Republican Selection. Young Dockery Coming Home. Various Meetings For Improvements.

RALEIGH, April 9.—This is "Benefactors day" at the Baptist Female University. A number of prominent Baptists are here from all parts of the State. Special exercises were held at 11 o'clock. Dr. C. E. Taylor, President of Wake Forest College, delivered an address on "Giving to Christian Education as an Investment for the Kingdom of God," and Dr. J. D. Huffman of Henderson in "The Gifts of the Many." Rev. C. A. Jenkins of Goldsboro, delivered an address "In Memoriam of the late Chief Justice W. F. Faircloth" and Dr. Thomas E. Skinner in "The Life and Character of Elder Y. Swenson." These are among the donors of the largest benefactions the University has yet received. Rev. C. B. Justice, of Rutherfordton, of the University board of trustees presided during the exercises and conducted devotional services.

Arrangements have been made for a big May festival here in which the Boston festival orchestra of fifty pieces will be the star attraction. The exact date for the festival has not been fixed as yet. Two prominent Republicans were discussing the recent executive committee meeting at Greensboro and the selection of that town for the convention, this morning one was telling the other of how hard Greensboro worked and lobbied on the convention, how they offered free hall, reduced hotel rates, and "Niggers and all!" asked the other Republican, "Yes, niggers and all!" he replied. Then there was a hearty laugh at the expense of Greensboro.

United States Marshal, O. H. Dockery has received a letter from his son, Lieut. O. H. Dockery, Jr., who is with the third Regiment, United States Infantry in the Philippines in which he says his regiment has been ordered home and they will start at once. The Secretary of State charters the F. L. Williamson Grocery Company of Burlington today, with \$100,000 capital authorized.

At noon today there were meetings of the Board of Aldermen, the Chamber of Commerce and the Merchants Association for the adoption of resolutions memorializing congress to macadamize New Bern Avenue from the city limits to the Federal Cemetery. These meetings are at the request of Congressman Pou who is making a special effort in this direction.

At 10 o'clock this morning Miss Etta McGee, daughter of Dr. J. W. McGee was united in marriage to Mr. Marvin J. Grant, of Conway, S. C. Mrs. J. C. Black and Miss Etta Grant, of Jackson, N. C. respectively mother and sister of

A FIGHT ON.

When You Tell People to Quit Coffee.

"At least 75 people among my acquaintances have been helped or cured by leaving off coffee and using Postum Food Coffee in its place," writes a little woman from Independence, Ia. "I will mention one case. Miss Cora... I learned she was suffering from nervousness and constipation and went to call on her. Found her in bed, and she looked like a living skeleton, so wild and haggard that I feared for her reason. I asked Cora if she was improving any. She said not but was gradually growing worse. The doctor was coming twice a day and giving her a powerful medicine. She said, 'I am so miserable that I tell you privately if I don't get better soon I will end it all myself some day. I told her not to talk that way for I believed it was something she ate or drank that caused the trouble and she might get well by making a change in her diet. I told her my own experience in leaving off coffee when I was in all out as bad a shape as she, but as soon as I mentioned coffee I had a fight on my hands, for she insisted that coffee helped her and her mother backed her in it saying that it was the only thing she did enjoy' and 'she did not believe coffee hurt anyone.' I talked with them a long time and finally got Cora to agree to let me make a cup of Postum Food Coffee for her supper. She was surprised that it was so good. Said she had heard it was terrible watery stuff. I told her it was because they did not follow directions in boiling it enough. She promised to use it faithfully for two or three weeks and if she was not better I would admit that I was wrong.

I went to see her again in about ten days and Cora met me at the door with a smile and said "Ada, your doctor Postum is the best doctor of them all; I can sleep all night, can eat heartily, and am growing stronger every day. Ma and all the rest of us use Postum now in place of coffee." The facts are the girl was being actually poisoned to death by coffee. Cora has since married had a happy home and you may depend upon it no coffee is allowed to enter there." Names given by Postum Co's, Battle Creek, Mich.

the groom were here to attend the wedding. Commissioner of Labor and Printing, H. F. Warner, is receiving heavy congratulations upon his election as Vice President of the National Editorial Association.

STORY OF STORM.

Navel Rescues Had Rough Experience on Board The Hornet.

Charleston S. C., April 8.—Having left Wilmington at 8 A. M. yesterday we had a splendid sail down the river at about an eighteen-knot speed. We crossed the bar at 10:30 with the weather as fine as if made to order. About 3 P.M. however, the ship's condenser tubes and boiler tubes sprung a leak, and the speed was reduced to about 8 to 10 knots. The tubes were leaking so badly that the firemen were unable to keep up steam. We arrived off Charleston about 7:30 the same night but were unable to go in and anchored for the night. About 10:30 P. M., a heavy southeaster sprang up and we were blown off shore about 25 miles. Towards midnight the tubes were leaking so badly that firemen were unable to work at all. Men were all called to quarters, given buckets and began bailing. It was raining hard, and men were nearly all sick, but those that were able to do so, kept hard at work, and about 8 A. M. the pumps were repaired and put to work. Anchor was weighed about 11:30 and we cruised around some time, until the lights of the city were sighted about 2 o'clock. About this time our steering gear got out of order and we were delayed sometime in fixing this. When this was repaired, we started again, and by 5:15 P. M., we were tied up safe and sound at Jackson & Company's coal pier.

The ship will be thoroughly overhauled here before we return, and we hope that all of the trouble will be over. It took us over fifty-seven hours to make the trip when we should have made it in twelve hours at least. When we arrived, we met Algonquin, just going out to look for us.—Wm. Star.

Wilmington, April 8.—Much anxiety was felt here for the North Carolina Naval Brigade, aboard the United States steamship Hornet, when it became known that the vessel had not reached Charleston prior to an early morning storm at sea to-day. Telegrams were by hundreds to every point on the coast from Wilmington to Charleston until the good news came that the ship had passed safely over the Charleston bar at 4:30 p. m.

A Testimonial From Old England.

"I consider Chamberlain's Cough Remedy the best in the world for bronchitis," says Mr. William Savory, of Warrington, England. "It has saved my wife's life, she having been a martyr to bronchitis for over six years, being most of the time confined to her bed. She is now quite well." Sold by F. S. Duffy & Co.

Snow in Virginia.

ROANOKE, Va., April 8.—Snow has fallen here today and the weather has turned very cold. The mountains are covered with several inches of snow. Further west, the mercury has registered two degrees below freezing since early this morning and snow has been falling at intervals. Fruit trees are not yet in bloom, and if the wind continues high there will be little damage from the cold snap.

Neglect Means Danger.

Don't neglect biliousness and constipation. Your health will suffer permanently if you do. DeWitt's Little Early Risers cure such cases. M. B. Smith, Batternet, Mich., says "DeWitt's Little Early Risers are the most satisfactory pills I ever took. Never gripe or cause nausea." F. S. Duffy.

A Conditional Diagnosis.

"What is the matter with me, doctor?"

"I fear you have a severe case of cephalalgia," was the reply.

"Great guns, doctor, I can't afford it!"

"Oh, that's different. It's headache—same thing. You'll be all right soon."—Baltimore News.

The Unusual.

"Did you say you saw my boy Josh laborin' under great excitement?" said Farmer Corntossel.

"Yes."

"Well, I don't wonder. If Josh was laborin' at all, he must have been purty surprized an' generally flustered."—Washington Star.

Had Her Revenge.

"He told his wife she ought to take cooking lessons."

"Did she?"

"Well, yes. She sent for her mother to come and give her a three month course."—Philadelphia Bulletin.

Suspicious Propriety.

Aunt Dinah—What makes you think your husband's got another wife 'side you, child?"

Mrs. Johnson (over the wash tub)—"Cause he don't do no work an' he's so mighty fluster!"—Brooklyn Eagle.

Result of Experience.

"He is a man of very strong nerves. He seems to be able to view the most extraordinary suffering without a tremor."

"Naturally. He's a dentist."—Chicago Post.

Her Side.

"I wish my dear, he had made his money instead of inheriting it. He would make you a better husband."

"Nonsense, papa. Why, then he would know how to keep it!"—Life.

Probably So.

Mother—Do you think that young man has saved anything?

Daughter—Undoubtedly, ma. He says he has never loved before.—Puck.

Notwithstanding the short cotton crop of last season, the farmers seem to be buying a great deal of guano this spring.

There is a great scarcity of "alps" throughout our entire section. Almost everybody's rotted. Only a few have any to sell, and the price is out of sight.

A Mistaken Engineer.

When it was proposed to build the Central Pacific railroad, a civil engineer of twenty-five years' experience reported that the road could not be completed in twenty years with all the money of the Bank of England to back the enterprise. But it was built and completed seven years before the expiration of the time fixed by congress.
