It is profitable for anyone to study food in order to regulate the health, not with medicine but by building up healthy nerve centers with good food.

A man who has made something of study on this line writes from Iowa City: "When I first tried Grape-Nuts it was at the table of a prominent state official and the remarkable taste attract ed me. I afterwards investigated the subject carefully and discovered that Grape-Nuts contains dextrose sugar. The starchy part of the food is transformed into starch sugar or dextrose

Hill Boomed For Governor.

New York, April 15,-As a result of David B. Hill's speech at the harmony meeting at the Democratic Club avery Last week well-informed Demoratic politician is convinced that Mr. Hill will take the nomination for Governor.

Mr. Hill is in close touch with the Mon. 19000 Democratic situation all over the State, Tues. 11000 and it is regarded as significant that all Wed. 13000 and Mechanical College, aided by several of his friends are saying positively that Thurs. 8000 Raleigh ladies, will play "The Rivals" the delegates to the State Convention Fri. will be elected without instructions for any candidate for any office. There is apparently no one to question the suggestion that Mr. Hill will control the convention. He will organize it, write the platform and name the ticket. If the delegates are uninstructed, a majority of them will be carefully selected adherents of the Hill faction.

They are prayer sticks and are quite as curious as the prayer wheels of Burma and the paper prayers of the Chinese. The feathers, stick and manner of tying the feathers vary according to the nature of the prayer. The Indian who wishes to ask a favor of the "Trues" prepares his feather prayer with great secrecy. Then, taking it to a proper spot, he prays to those above, and, planting his stick, leaves it to continue his potition.
