## RALEIGH.

### Ceremony Attending Corner Stone Laying.

Governor Goes to Good Roads Convention. No Damage to Fruit. U. S. Clerk Resigns. More Rural Free Libraries.

RALEIGH, April 21.—A thousand persons assembled at Nazareth, two miles from here, yesterday afternoon to see the laying of the corner stone of the church at the Roman Catholic Orphanage. Archbishop Hild performed the ceremony, assisted by father Stapleton, Griffin, Irvin, O'Brien and Price. The archbishop made an address in which he said that this charity, now in its infancy will grow to be a source of pride to Raleigh and to North Carolina. He told of the wonderful work his order, the Benedictines, had done in this country.

Gov. Aycock and Commissioner of Agriculture Patterson went to Fayetteville today. Both will speak there at the "good roads" convention and the educational rally. From there Governor Aycock goes to Athens Ga., to attend the Southern Educational Conference. He will return here Saturday.

Capt. B. F. Williams of Raleigh, after a careful examination of fruit trees, says no damage has been done but that the prospect is very promising.

Clerk N. J. Riddick of the United States Court here, has tendered his resignation, by reason of falling health. He has held this office since 1886 and has made an excellent officer.

Today 12 new rural free libraries were allowed. This brings the number up to 350.

A female convict from Wayne county was brought to the penitentiary today to serve 5 years.

A switch opened by a boy at Dewitt, last evening partially wrecked a S. A. L. train. The tender and 8 cars were derailed.

### Saved Many a Time.

Don't neglect coughs and colds even if it is spring. Such cases often result seriously at this season just because people are careless. A dose of One Minute Cough Cure will remove all danger. Absolutely safe. Acts at once. Burs cure for coughs, colds, croup, grip, bronchitis, and other throat and lung troubles. "I have used One Minute Cough Cure several years," says Postmaster C. O. Dawson, Barr, Ill. "It is the very best cough medicine on the market. It has saved me many a severe spell of sickness and I warmly recommend it." The children's favorite. F. S. Duff.

### Veterans Gathering at Dallas.

Dallas, Tex., April 20.—The advance guard of the United Confederate Veterans reached Dallas last night, and since that hour train after train carrying old soldiers, their relatives, friends and visitors has been arriving to attend the Confederate Veterans' reunion, which will begin next Tuesday. Dallas is gaily decorated in honor of the veterans and every arrangement for their comfort and pleasure has been made. Estimates by leading railroad men place the expected attendance at 100,000. Delegations from the Southern States are due to-night. General Gardner and Adjutant Mooreman are expected to-night. General Joe Wheeler and General Fitzhugh Lee will be in attendance. The main body of the Confederate veterans will be quartered in tents at the fair grounds, where the main exercises will be held.

### A Little Misunderstanding.

Soon after the convening of a new session of congress announcement was made of the approaching marriage of Anson G. McCook, who was then secretary of the senate. A subscription was immediately started among the senators for the purchase of a wedding present. Two or three prominent senators volunteered to collect the money. Senator X., one of the richest men in the senate at that time, was one of these.

Seeing a new senator who had not yet been approached on the subject, Senator X. went to him and said, "Senator Blank, I want you to give me \$25."

"What for?" demanded the new member.

"For McCook's wedding present," explained Senator X.

"I'll see you about it tomorrow," answered Blank, with a scowl.

"All right," said Senator X. as he walked away, "but don't forget it."

Senator Blank watched him until he was out of hearing, and then, turning to his colleagues, remarked with warmth:

"Well, I've heard of cheeky things in my life, but that man beats all! What do you think? He just asked me to give him \$25 to buy a wedding present for his cook!"—New York Times.

### The Snake.

The snake is a favorite instrument in east Africa. It is a sort of crude violin, composed of a bar of wood fastened to a large gourd. There is a single string made of vegetable fiber, and the different tones are produced by lengthening or shortening the string.

### Infantile Deaths.

Ninety-six per cent of all deaths from whooping cough and 90 per cent of deaths from measles occur in children under five years old.

### Extra fine Veal at the Oaks Market today.

The Chiton.  
The creature having the greatest number of distinct eyes is the chiton, a species of mollusk, in the shell of which has been found as many as 11,000 separate and distinct eyes.

Poultry Test.  
To find out whether poultry is tender or otherwise pinch the skin. If it adheres to the flesh, the bird is tough; if it leaves the flesh, it is tender.

The Skin.  
The fatty material secreted by the sebaceous glands of the skin may be normal, excessive or deficient in quantity. When normal, the skin is supple, but not greasy; when excessive, the glossiness is apparent; when deficient, the skin is dry.

Fagots For Heretics.  
A church in London still possesses an income originally given to it for the purpose of buying fagots for burning heretics.

Plenty of Clocks.  
There are 250 clocks in Buckingham Palace, and it is a work of no small importance to keep them going. Some of them are as old as the time of Louis XVI, and the works are still in good order.

Nova Scotia's Burning Mine.  
The coal shaft is about a thousand feet deep, and the seam is thirty feet thick. It has been on fire since 1880, and the problem of putting it out is no nearer a solution than it was twenty years ago. Water has been let in, and the flooding has had no effect. After many futile efforts to extinguish the fire engineers began to direct their efforts toward devising plans for circumventing it and reaching the coal still intact. To that end all the workings and approaches leading to the fire were walled up, and new workings were driven lower down. But every plan so far devised has been a failure. The all conquering fire has broken through, and every new work has been reluctantly abandoned.—Toronto Globe.

The Schenk Sex Theory.  
A Berlin dispatch to the London Foot quotes Professor Schenk as saying in a lecture the other day that in his student days he kept silkworms, and, having little means to feed either himself or his pets, they often hungered. He was struck with the fact that the progeny of the worms were nearly all male. Carrying his investigations further, he came to the conclusion that diet exercised an enormous influence on the formation of the sex, which, he maintains, is predetermined in the egg. To influence sex, a dietary system must therefore be pursued for some months.

## TRUST'S BIG PLOT.

Seeks Monopoly of Western Lands and World's Supply Beef.  
OMAHA, Neb., April 20.—Several seething peculiarities exist in the claims of the Beef Trust regarding a necessity for the present high prices for meat. A careful survey of the Western situation discloses what is apparently the nucleus for the most gigantic combination yet undertaken by capitalists, one which comprehends not only a meat monopoly but a land monopoly.

For several years Western livestock interests of large calibre have been seeking to centralize stock raising.

The first step taken was an attempt to secure Congressional legislation permitting the leasing of the semi-arid lands in the Western States, and to this end a succession of bills have been introduced. Senator Warren is associated with Governor De Forest Richards, of Wyoming, who is probably the largest individual sheep owner in the West. Bartlett Richards, late of South Dakota, and now of California, another large owner of livestock, is a brother of Governor Richards. Bartlett Richards is the author of the bill introduced by Senator Millard, providing for the leasing of the government lands at the nominal rental of two cents per acre per annum.

The land-leasing bill has died in committee again this session, because of the intense opposition which exists to it in the Western States affected by the bill. Defeated in this particular, these same livestock interests have besought the aid of President Roosevelt and Congress to permit them to maintain fences on Government lands, a condition which is now prohibited by Federal statute, and against doing which heavy penalties are imposed. Hundreds of thousands of acres are now under fence, notwithstanding the laws against fencing. Only in a few instances have prosecutions been brought each of which has resulted in conviction and the imposition of the prescribed penalties.

In this particular the livestock interests have also been defeated. Under the protests which have arisen against any amelioration of the conditions existing under the present laws, the Secretary of the Interior has by direction of President Roosevelt notified the parties guilty of sustaining fences on Government lands that they must come down. April 15 was set as the date for the removal of all fences, but this date has been extended until some time in June at the earnest solicitation of the livestock interests.

### The Best Prescription for Malaria.

Chills and Fever is a bottle of Grove's Tasteless Chill Tonic. It is simply iron and quinine in a tasteless form. No cure—no pay. Price 50c.

### More Fighting at Panama.

Kingston, Jam., April 20.—Passengers on the Royal Mail steamer Trent, which arrived here today from Colon, Colombia, say heavy fighting was proceeding in the neighborhood of Panama and Bocas del Toro, last Friday.

The officers of Trent declare the situation on the isthmus shows no improvement.

### City Electric Light Rates.

The following rates for Electric Lights furnished by City Electric Light System was adopted.  
Commercial lighting, 16 candle power out at 12 o'clock night, 60 cts per month per light, 16 candle power all night, 75 cts., 6 amperes arc light out at 12 o'clock night \$4.00 per month; meter rate 10 cts per K. W. hour.  
Residence lighting, flat rate 85c. per light monthly, out at 12 o'clock night, all night 75 cts. Meter rate 10 cts per K. W. hour. All meter rates subject to discounts as follows—\$10.00 to \$10.00 10 per cent discount, \$10.00 and over 15 per cent discount. If paid within 10 days from preceding month.  
All lamps except the 6 amperes arc will be furnished free—wires and connections from main line to inside line of sidewalk will be done by City.  
J. J. TOLSON, City Clerk.

## HOT WAYS IN THE WEST.

Temperature of 91 degrees in Kansas City and 95 in Omaha.

Omaha, April 20.—Today was the hottest April day in 15 years. The thermometer at 5 p. m., reached 95 degrees, the previous record being 91. The intense heat was more oppressive owing to the excessive cold weather experienced up to Saturday night, overcoats being required for comfort during the past week. This torrid temperature was responsible for several attacks of illness, two occurring in one church during the day. A continuation of the hot weather will prove dangerous to growing grain.

Kansas City, April 20.—The highest temperature to-day was 91 degrees. A furious hot wind, such as might be looked for in August, was blowing.

Topeka, Kans., April 20.—A dry hot wind has swept over Kansas since early morning, doing much damage to vegetation of all kinds. Some reports say that the wind has done incalculable harm to wheat. Unless rain shall come within two days the wheat crop will amount to very little. The ground is becoming dry and hard.

### Long Pleads For Big Navy.

Washington, D. C., April 19.—The Secretary of the Navy was before the House Committee on Naval Affairs this morning and repeated recommendations in his annual report for two battleships, two first-class cruisers and a number of small cruisers. The estimates of the Secretary were about \$98,000,000, but the committee has made a deep cut, and the bill will probably carry not more than \$70,000,000. This may be increased by the House, however, when the bill is reported the first of next week.
