Official Paper of New Bern and Craven County.

New Bern, N. C. May 9, 1902.

WHAT WINS.

The communication in the local columns of this issue in regard to the Athletic Association of this city, and the game of base ball, is one which calls for careful consideration by every citizen.

So far as sports, and efficiency in them is concerned, New Bern's position in the State is excellent, and its supremacy in all matters pertaining to quick service in getting to and extinguishing fires, proves what can be accomplished through whole hearted local support.

In any local affair be it sport, or business, there is demanded a united local support, if success is to be achieved.

Base ball may appear a trivial matter, but it is not, especially when a community has publicly endorsed it.

Failure in local enterprises cannot be justly charged up to one man or several men, when the public has given them encouragement to start in the enterprise, and then fails to support their efforts.

Community unity in support of local affairs is what wins.

And community of interests demands that the people shall be a unit in their local affairs, if success is to be theirs.

COMMISSIONER WARE.

The Kansas paper used to call him Gene Ware. Now he is Eugene Pitt Ware, Minneapolis Times.

Wonder if Pension Commissioner Ware will be the poet laureate of the administration? Toledo Bee.

It is suspected that as pension commissioner Pension Ware of Kansas will not find life all "one grand sweet song." New York World.

They say that Eugene F. Ware, who has been named pension commissioner in a Greenbacker. But free thought is a noble philosophy compared with the scribbling of such "poetry" as has been attributed to the energetic Kansas Boston Journal.

Holds up a Congressman. At the end of the campaign, writes Champ Clark, Missouri's brilliant Congressman, "from overwork, nervous tension, loss of sleep and constant speaking I had about utterly collapsed. I found that all the organs in my body were out of order, but three bottles of Chamberlain's Colic, Cholera and Diarrhoea Remedy made me all right. It is the best all-around medicine ever sold over a drug store." Overworked, run-down men and weak, sickly women gain splendid health and vitality from Chamberlain's. Try them. Only 50c. Chamberlain's. G. D. Bradham.

Chamberlain's Colic, Cholera and Diarrhoea Remedy. To "keep the system in shape" is an allusion to the traditional skill of the professional sportsman and famous rifle shot, who would shoot the spots out of a man's head between the fingers of a tripod.

WOMAN AND FASHION.

Red as a color in evening dress, and evidently is going to exert a marked influence through the season. An illustration quite apposite is given by the sketch of a well designed suit in two types and tones of red, being relieved with black. A plain vesting relieved with black. A plain vesting relieved with black.

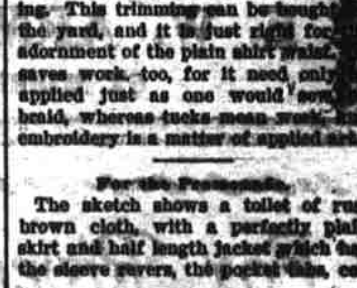

RED VESTING CONTRAST.

Red forms the upper half of the skirt, lower half of the waist and the main portion of the sleeves of this suit. The color of this material is a beautiful, termed rose-red. That of the black striped and figured vesting allied with it is pure gold poppy red. The French tulle bands hand worked in French knots supplies a third decorative element in this suit, and the pattern used with it is of very soft blue. The sole piece of the poppy red tulle is shown at the bottom of the skirt.

Freezy Muffs. The brown muffs with the tan lining which is the prettiest seen for this season, may be made to run the whole gamut of style. It can be made up with yoke and cuffs and made up with the white lace yoke and the white lace stock and cuffs. These fancy materials give it a light look for tan accents and minor accessories and can be made plain or fancy.

There are the most attractive muffs made of white lines, with a hemming along each edge or with a contrasting trim. This trimming can be brought to the yard, and it is just right for the adornment of the plain skirt waist, or a dress, too, for it would not be applied just as one would have a head, whereas such muffs are an ordinary accessory in a matter of applied accessories.

For the Footwear. The sketch shows a toilet of red brown cloth with a perfectly plain skirt and half length jacket which can be altered to suit the occasion, color.

A FASHIONABLE TOILET.

Red and black forming a contrast with light blue, between which are red cloth insertions, with thin gold and silver ornaments on the buttons. The belt is of a darker brown velvet, and the pockets, with green in an inset, Philadelphia Ledger.

Reds and blacks. The best hats—most becoming, the most expensive, but those that are "good form" and "good style" in every way and also becomingly trimmed naturally. Do not apparently the scarlet gowns of the past are placed as in traveling, delicate and of a softening effect on the complexion. The scarlet gowns of the past are placed as in traveling, delicate and of a softening effect on the complexion.

It is difficult to account for the enormous volume of some birds' flight when migrating. In north Brazil, 600 miles without stopping, going at the rate of 100 miles an hour and probably more. How can this speed be attained? The birds power to great heights, where the resistance of the air is light.

Living in a Crater. There is no more interesting or surprising sight on this earth than the interior of the extinct crater, San Pedro, about thirty miles from the city of Mexico, in Mexico. This peculiar locality is inhabited by 20,000 people, who live and prosper within its vertical wall 800 feet high. The inhabitants rarely make a journey into the outer world, but seem as if they were a little nation by themselves.
