Poor Prospect For Potatoes. Light on The Cains' Wife Question.

June 2.—The Rev. Mr. Britton filled his regular appointment at Tront Church Sunday his text was Ephesians 2: 19-20.

The weather is fine for the people to clean their crops. Potatoes will be a little late on account of dry weather and also a short crop, not many ready to ship.

Mr. R. F. McCotter is talking of going to Sippahaw soon for a trip.

Mr. J. H. Riggs and wife are visiting friends and relatives here.

The Mecklenburg correspondent wants to know who Cain's wife was and where she came from. There were more people on earth at that time than Cain. Though none but the noted ones are named. Adam had many sons and daughters only a few of them were mentioned. Abel was mentioned because of his goodness, and Cain because of his wickedness. Yet there were many more on the earth at that time. Now Cain took one of his brothers' daughters to wife and they loved Satan more than God, and Cain was shut out from the presence of the Lord and with his wife and many of his brethren dwelt in the land of Nod, on the east of Eden, and Cain knew his wife, and she conceived and bare Enosh and he also begat many sons and daughters.

I will say to the Pollockville correspondent he wanted to know concerning his wife if he will give some starting points perhaps I could search her out for him unless he has many. It looks like he would know his wife and none other. He says, "Now above all things else would like to know who our wife would be or is, so it looks like he would know his own." Frank.

RALEIGH.

Three Negroes to Be Executed July 8th. Rural Delivery Output.

Rain Badly Needed. Health Report New Step Taken By the Agricultural Department.

Requisition Made for F. S. Dawson, Alleged Embezzler.

RALEIGH, June 2.—Governor Aycock today issued a warrant for the execution of three negroes at Salisbury on Tuesday July 8. The men to be hanged are Dick Flemming and Dick Blanton, for rape, and Archie Connally for murder.

The closing exercises of the institution for the white blind were held today. State Auditor B. F. Dixon, delivered the annual address, his subject being "Ideals."

It is found that North Carolina has only 1 of one per cent of the electric rail way mileage of the United States.

There are instructions from well informed people that a great effort is to be made to tax the purchaser of the railways next year, and to assess such franchise at a high valuation.

W. H. Shaw, of Wilmington, was today appointed a clerk of the U. S. circuit and district courts. He has heretofore been a deputy clerk, but becomes clerk under the act of January 15, 1902.

The rural free delivery mail carriers on the five routes out of Raleigh handled during May 31,000 pieces of mail.

There are now 116 of these carriers in the State. All of them save one gets \$600 a year; that one gets \$480.

Rain is again much needed in this section. The small grain particularly needs it. Cotton is doing very well. Tobacco looks well. Yesterday at Fuquay Springs some Samatra and Cuban tobacco was seen, growing very well indeed.

The May Bulletin of the State Board of Health is out. It reports small pox in 22 counties, Mecklenburg leading with 56 cases, Rockingham being next, with 38.

Today the agricultural department took a new step at the urgent request of truckers in the eastern counties, by sending out two agents, to ascertain facts regarding truck crops north and south of this State. One agent goes to Savannah and then comes up to North Carolina, while the other begins at Norfolk and goes to New Jersey. They will quietly look at the trucking centres and see the size, conditions, etc. of the crops and report at once. This State depends on marketing its truck between Charleston and Norfolk. All sorts of frauds are perpetrated upon North Carolina truckers. They are told that the crops elsewhere are great, are being marketed, that there is a glut, etc. They want to know themselves the real condition of affairs. This week the shipments of Irish potatoes began. The crop is in good condition.

Gov. Aycock has made regulation on the Governor of Mississippi for F. S. Dawson, who is charged with theft, forgery and embezzlement at Wilson. He was agent for a man there and it is said by these means got \$15,000 of his money. He recently did this and fled the State, but was located by a detective.

F. B. Arendall and W. W. Green, who were penitentiary officials two years ago when federal convicts were kept in this penitentiary were charged with allowing one, a "trustee" to escape. They are acquitted; the district attorney saying the government recognizes the use of trustee prisoners.

In the federal court this week Charles Randall and two men from Harnett county, all white, will be tried for sending obscene books through the mail. The post office they used is kept by a relative of theirs and it is said their dirty work largely increased its revenue.

THREE DAYS.

Then Postum Saved Him.

It makes rather solid friends of people when they discover a liquid food that will save life in extreme cases of need.

Speaking of Postum Food Coffee, a lady in Toledo, O. says: "For over five years now I have used Postum Coffee in place of the ordinary coffee or tea."

I used to have stomach trouble and every time I drank a cup of ordinary coffee suffered the greatest distress. My troubles left when I left off coffee and began using Postum.

The most severe test I know of was when my husband was down with gas-trichol fever. His stomach would retain nothing; we tried milk and various other drinks. Everything we put into his stomach would come up in less than three minutes. After the third day of this kind of work I concluded to give him some Postum Coffee. He drank it and retained it and retained it, and for four weeks he lived on Postum and nothing else to speak of. You can depend upon it that Postum gained some good friends, for husband would have died if it had not been for the nourishment afforded by Postum Coffee." Name given by Postum Co., Little Creek, Mich.
