Gent's Underwear—French Balbriggan Shirts and Drawers at 50c a garment. Gent's Fine Patent Seam Drawers, only 50c

The Solid Car-load of "GOOD LUCK" Baking Powder pictured above was bought by the large and progressive wholesale grocery house owned and operated by Mr. C. S. Hollister of this city. The car contained Twenty-four Thousand and Two Hundred and Forty-five (24,445) pounds—over Twelve (12) Tons of "GOOD LUCK" Baking Powder—the Best Leavening Agent on the market—and constituted part of the GIGANTIC TRAIN-LOAD SHIPMENT OF ONE HUNDRED AND SIXTY-NINE (169) SOLID CAR-LOADS OF "GOOD

LUCK" sold, on straight invoice terms, to various jobbers throughout the South and Southwest, and recently shipped from Richmond, Va., via the Seaboard Air Line Railway. The magnitude of this sale and shipment of Baking Powder is sufficient, without further argument, to clearly, forcefully and indisputably demonstrate the preponderance of "GOOD LUCK" over all other brands of Baking Powder. While Mr. C. S. Hollister handles all heavy groceries in car-load quantities, "GOOD LUCK" is the only Baking Powder which so acceptably caters to the housewife's demand for a thorough-

ly wholesome, healthy and efficient chemical for the speedy and inexpensive aeration of bread as to justify his handling it in car-load lots. When he stops to consider that a car-load of "GOOD LUCK" Baking Powder will leave thirty-two car-loads of flour and that equivalent purchases of flour, meat, lard, sugar, salt and the long list of other articles handled by the Wholesale Grocery Trade would amount to many car-loads, they get some conception of the immense volume of business transacted by grocery jobbers of the caliber of Mr. C. S. Hollister and the extreme popularity of the "GOOD LUCK" Baking Powder.

THE SOUTHERN MFG. CO., Richmond, Va., U. S. A.

Weekly Crop Bulletin.

For week ending Monday, June 9th 1902.

The diminished progress in the growth of vegetation, the dying of young, not well-rooted plants, the hardened condition of the soil, afford accumulating evidence of the increasing severity of the drought now prevailing in North Carolina. Although showers occurred during the past week in several sections which were very beneficial, they were entirely local in character; in most places the week was extremely dry, and a large majority of crop reports indicate that without a general rain soon the heretofore excellent condition of crops will be materially changed for the worse. The temperature this week was somewhat above the seasonal average, but rather low at night; the amount of sunshine was abundant. The condition of crops as regards the state of cultivation and freedom from weeds, continues exceptionally good, but if the weeds and grass cannot grow on account of drought neither can the crops. The fact must not be lost sight of, however, that a thorough cultivation of the surface soil conserves the moisture beneath for the use of crops. Cotton on the whole has not suffered

seriously from drought and has to some extent recovered from the effects of very cool nights last week; this statement applies to early planted, which has made good growth, on the other hand much late planted has not come up, or where up the tender plants have been killed by drought; stands of cotton have become less satisfactory than heretofore reported. A few reports of lice on cotton have appeared in the south portion on June 4th. Corn, while seedling rain badly, is holding its own fairly well; wintering takes place during the warmest portion of the day, but the plants recover at night; hilling or laying by has begun in a few places. Tobacco is suffering from drought quite seriously, as the dry weather has prevented plants from making a good start in growth; stands are bad; many plants remain in the beds which may be set out when seasons permit. Rice in the lower Cape Fear district is in fine condition. The cutting of winter wheat and rye has begun on a small scale and harvest will become general next week; while wheat has headed so low that some of it cannot be cut, and is very thin on the land, quite large number of reports indicate that the heads are well filled, and may give a better yield than anticipated. Spring oats have suffered very

much from drought, and are also heading low. Pastures on uplands are falling rapidly; some farmers are sowing cowpeas for forage. Peaches are ripening in eastern districts; also blackberries and huckleberries, of which there will be a large crop. Other fruits have continued to fall so long that the general prospects for fruit is less favorable than was the case earlier in the season.

Telephone Lineman Killed.

Special to Journal.
RALEIGH, June 11.—At 6 o'clock this evening Manuel Palmer, a negro lineman of the Interstate Telephone Co., was killed by the breaking of a cable distributing pole. He was tightening the wires when the pole snapped in two between the cable box. Palmer jumped and fell to the pavement and was killed instantly. Another lineman escaped by holding on to the cross bars, which were caught by net work wires over a lower pole.

RALEIGH.

Schedules for County Teachers Institutes Made Out.

Requisition issued Alonzo Reid in Jail in Virginia for Burglary in Charlotte. Account of Remarkable Revival.

RALEIGH, June 11.—The superintendent of Public Instruction issued today a list of dates for county teachers institutes as thus far arranged. They will be very generally held in all counties principally at the county seats.

Here is the list issued today: Macon, July 1-9; Stokes, July 7-18; Forsyth, July 7-18; Caldwell, July 11; Tyrrell, July and August; Rockingham, July 2; Swain July 7; Madison, July 14-21; Henderson July 14-25; Gaston July 7-12; Alleghany, July 2-August 18; Chatham July 15; Moore July 14, Stanley July 28, Gates July 28, Davidson August 4, Durham August 4.

A requisition was issued yesterday evening from Gov. Aycock's office on Gov. Montague of Virginia for Alonzo Reid now in jail at Williamsburg, Va., he being wanted at Charlotte for stealing guns, revolvers etc., from the Allen Hardware Co. A Raleigh paper announced in referring to the matter that Gov. Aycock issued the requisition before he left the city for Morehead, where in reality the document was prepared solely by Miss Julia Howell, the Governor's gifted and vivacious stenographer and private secretary. Several State officials playfully remarked this morning that North Carolina's acting lady Governor is entitled to credit and must have it. It is Governor Howell for a few days now if you please. While the chief executive is with the beaches at Morehead and Col. Pearsall is unavoidably out of the city. Evangelist Holcomb spent last night in the city being just from Wilkesboro where he says a very remarkable revival by Sam Jones, and Geo. Stuart who preached a week. He says every man in the town except one was converted and that one was too drunk all the time to be brought. However Rev. Holcomb brought him down to Greensboro for Keely treatment and still has strong hopes of converting him.

Prof. J. B. Carlyle of Wake Forest rode across county 90 miles from Wake Forest here this morning on a wheel to take the early eastbound train for Morehead to attend the Teachers Assembly. He says he enjoyed the bicycle ride hugely and that the weather and roads are ideal for such exercise. He thinks he will be the only teacher at the assembly who worked so strenuously to get there.

The physicians report considerable improvement in the condition of Col. W. J. Hicks, Superintendent of the Oxford orphanage and express the belief that he will be well in a few weeks. He has been very ill for 10 days.

Luck About Shoes. A Yorkshirer man who split in his right shoe before putting it on when going out on important business, to bring luck, and many an English girl has been known to hang her boots out of the window on St. Valentine's night for love luck.

WHY DON'T THEY GO? A Way to Push off the "hang on's."

Perhaps some day you will wake up to the fact that coffee is quickly and surely doing the business for you. You wonder why the symptoms of disease which grow more and more pronounced do not disappear, but hang on in spite of all the medical cures you can take.

Fixed organic disease may result if you keep up your present course, and yet it is an easy thing to give up coffee and get well. Have your cook make Postum-Good Coffee strictly according to directions, and that is easy. Use enough of it and boil long enough to bring out the taste, then you will find that the famous food drink will satisfy your coffee taste and the old trouble gradually disappear.

There are hundreds of thousands of cases in America that prove the truth of this statement. A gentleman from Columbus, Ga. says "My wife had been an invalid for some time and did not seem to yield to any sort of medicine. She could not eat any thing without distress, and naturally was badly run down in every way.

Finally we concluded that perhaps it was coffee that hurt her, so she quit it and went on to Postum, also began using Grape-Nuts Breakfast Food. She immediately began to improve and kept gaining strength and health, now she can eat heartily of anything she wants, vegetables and anything else, without hurting her. She has gained nearly thirty pounds since she made the change.

I saw such an improvement in her health that I decided to quit coffee myself and you would be surprised to see the change. I have gained in flesh about 35 pounds, and have entirely lost the old dull headache that I used to have so much.

Our two children are very fond of Postum. You can use my name if you like. T. M. Oggle, 1205-12th Ave. Columbus, Ga.

Asa Meehins, a white man, an escaped U. S. prisoner, about 45 years old, a little over six feet high, dark hair and mustache, head a little bald, has a dissipated appearance. J. W. BIDDLE, Sheriff Craven Co., N. C. May 28th, 1902.

List Your City Taxes The lister will be in the court house until July 1st, 1902. J. F. IVES, City Tax Lister.

CANNED SALMON VS. FRESH MEATS.

Canned Salmon is a more economical food than fresh meats. Requires no fuel to cook it, and no ice to keep it. COSTS LESS TO BUY and there is NO WASTE. Every ounce in the pound is sound, wholesome food—No bone or gristle that has to be thrown away. Canned Salmon is AN IDEAL SUMMER FOOD, ready for immediate use, and can be served in numerous appetizing ways. Our PRICES ARE THE LOWEST OBTAINABLE for GOOD grades of Canned Salmon—and Everything Else.

You'll give us your Order? We'll appreciate it.
